

ONE HUNDREDTH LEGISLATURE
FIRST SESSION
LEGISLATIVE RESOLUTION 89

Introduced by Pahls, 31;

PURPOSE: To study how discarded televisions and their components could be recycled rather than discarded in landfills. With the advent of high definition televisions (HDTV), flat screen and flat panel display televisions, laser televisions, liquid crystal display (LCD) televisions, plasma display televisions, and any other types of television sets in production or soon to be developed or released, thousands of televisions that were developed and sold prior to the advent of the new televisions will be discarded in the next few years. The Natural Resources Committee shall determine if the state or local governments could facilitate recycling of older televisions. The committee may also study how the newer television sets and their components could be recycled when they are discarded or become obsolete.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDREDTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.
