**Summary of purpose and/or changes:**

LB 75 (Pirsch) would amend section 1-157.01 of the Nebraska Banking Act to clarify the ability of financial institutions with a main chartered office or branch located in Nebraska to impose ATM charges against customers of foreign (outside the United States) financial institutions. This section currently provides that a financial institution with a main chartered office or branch located in Nebraska may participate in a national ATM program to allow its customers to use ATMs located outside of Nebraska which are established by out-of-state financial institutions and to allow customers of out-of-state financial institutions to use its ATMs located in Nebraska. The bill would expand these provisions in order to treat foreign financial institutions in the same manner as out-of-state financial institutions.

The bill carries the emergency clause.
