Summary of purpose and/or changes:

LB 832 would eliminate the private insurance requirement for newly-sited underground petroleum tank owners to cover any remedial action relating to the tank. Such owners are also required to pay for coverage under the Leaking Underground Storage Tank (LUST) Fund.

Section 1 amends 66-1501, which cites the Petroleum Release Remedial Action Act, by eliminating reference to section 66-1532, which states:

"Beginning July 1, 2009, the owner of any new tank at a site where tanks have not been previously located shall be fully insured through private insurance to cover the costs of any remedial action to such tank or the site on which such tank is located after such date."

Section 2 repeals the original section.

Section 3 repeals outright section 66-1532.
