

One Hundred First Legislature - Second Session - 2010
Introducer's Statement of Intent
LB 700

Chairperson: Steve Lathrop
Committee: Business and Labor
Date of Hearing: February 22, 2010

The following constitutes the reasons for this bill and the purposes which are sought to be accomplished thereby:

LB 700 would require residential construction and remodeling work requiring a building permit be performed or supervised by a person certified as a residential contractor in order to obtain the building permit.

In order to be certified, a person applies to the appropriate department or division in charge of issuing building permits where they reside. The applicant achieves certification by showing documentation that they have been in the residential construction or remodeling business in Nebraska for the previous five years at the time of application, or successfully pass the Standard Residential Building Contractor Exam of the International Code Council or a similar exam determined by the political subdivision who is in charge of issuing building permits.

This certification is transferable to another political subdivision but not transferable to another person.

Principal Introducer: _____
Senator Beau McCoy
