LB 629, as amended, is the Oil Pipeline Reclamation Act.

Section 2 provides definitions.

Section 3 defines the Act's purpose.

Section 4 assigns responsibility for all reclamation costs necessary as a result of constructing and operating a pipeline to the pipeline carrier owning, operating, or managing a pipeline.

Section 5 allows a state agency, county board, city council or village board to pursue reclamation costs for the maintenance and repair of roads, bridges, or other infrastructure related to the construction, maintenance, or operation of a pipeline from a pipeline carrier who is subject to the act.

As amended, the bill's provisions impose no requirements, oversight duties, or new functions on any state agencies.

No fiscal impact.
