Executive Summary

2014 Tuition, Fees and Financial Aid Report

Executive Summary

“Nebraska’s people will value and support higher education institutions that are vital, vigorous and visionary. Each higher education institution will fulfill its role and mission with distinction by being responsive to changing academic, workforce, societal, economic, and community development needs. Together, Nebraska’s institutions will provide access to educational opportunities that meet the diverse needs of students and citizens while exercising careful and creative stewardship of available resources.”

Comprehensive Statewide Plan
Coordinating Commission for Postsecondary Education, 2006

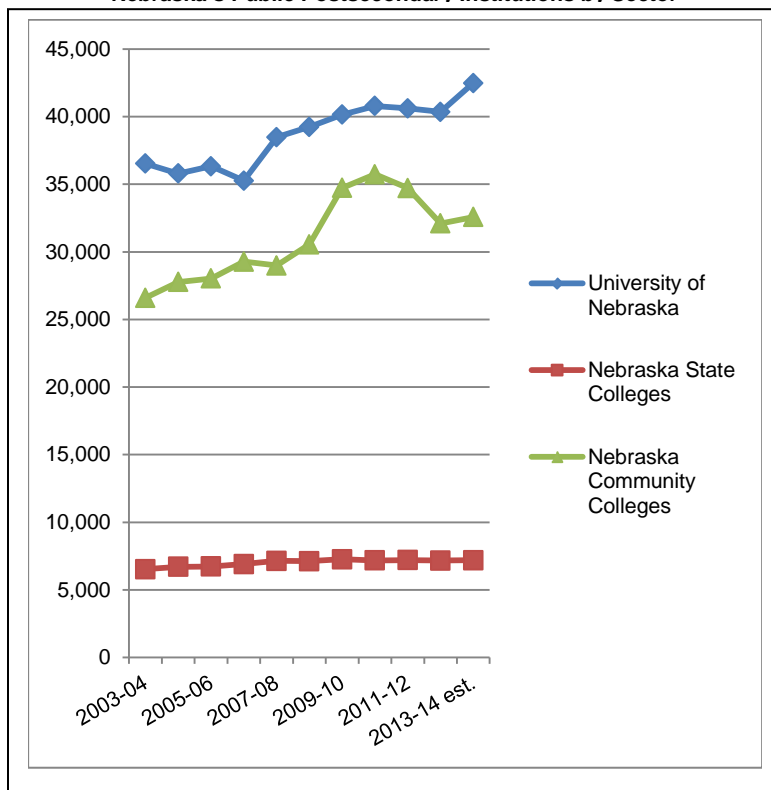

The State of Nebraska statutes require the Coordinating Commission for Postsecondary Education (CCPE) to prepare biennially a *Tuition, Fees and Financial Aid Report*. The purpose of this report is to analyze the public policy issues relating to tuition, fees, and financial aid for students in Nebraska and to study how Nebraska’s public postsecondary educational institutions compare with their peer institutions in other states. This report offers meaningful information on important issues facing Nebraska’s students and families, institutions of higher education, and constituencies of the state. Nebraskans benefit from affordable, accessible and high-quality education. This report will assist institutions as they continue to provide accessible, high-quality postsecondary education in Nebraska.

[Although higher education is becoming less affordable \(see following information\), Nebraskans continue to show they value postsecondary education.](#)

Total enrollment at Nebraska’s Public Postsecondary Institutions has increased by more than 12,000 FTE over the past 10 years.

- The largest increase (22%) has occurred in the community college sector, the sector that offers the lowest tuition.
- The University of Nebraska has seen an 16% increase, while the state colleges have seen a 10% increase.

**Full-Time Equivalent Enrollment (FTE) at
Nebraska’s Public Postsecondary Institutions by Sector**

2014 Tuition, Fees and Financial Aid Report

[While the amount students pay to colleges has increased significantly over the past 10 years, there was little to no change in the charges at institutions from 2012-13 to 2013-14 due to the increase in state appropriations and the tuition freeze at the University campuses and state colleges.](#)

Tuition and Fees

- Over the past 10 years, increases in tuition and mandatory fees have ranged from 48% to 98% among the institutions for a full-time, undergraduate, resident student at Nebraska's public postsecondary institutions.
- These increases in tuition and fees are higher than the 25% increase in the Consumer Price Index (CPI) and the 32% increase in the Higher Education Price Index (HEPI) over the same time period.
- In comparison, the median family income of Nebraskans increased 21% from 2003 to 2013.

Family Income

The percentage of family income needed to support undergraduate, resident tuition and mandatory fees at Nebraska's public postsecondary institutions is increasing, especially for students from families whose income is considered median-, low- or very low-income.

Resident Full-time Tuition and Mandatory Fees at Nebraska's Public Colleges and Universities 2003-04 to 2013-14¹

¹Based on 30 semester or 45 quarter hours

Resident Full-time Tuition and Mandatory Fees at
Nebraska's Public Colleges and Universities
2003-04 to 2013-14¹

¹ Based on 30 semester or 45 quarter hours

2014 Tuition, Fees and Financial Aid Report—Executive Summary

Student Payment Share

Overall, the State of Nebraska and its taxpayers continue to pay the largest share of the costs to educate public postsecondary students. Students pay a percentage of total costs through tuition and fees assessed at each institution. The percentage of costs paid by students (student payment share) has increased over the past 10-years. However, due to the increase in state appropriations, the student payment share decreased from 2012-13 to 2013-14 at all but one institution.

- Students at the University of Nebraska at Kearney and the University of Nebraska at Omaha pay tuition and mandatory fees rates that result in the student payment share more than 50% of the cost of their education; students at Peru State College contribute just under 50% of the cost of their education.

Student Payment Share at Nebraska's Public Colleges and Universities 2003-04 to 2013-14 est

2014 Tuition, Fees and Financial Aid Report—Executive Summary

Appropriations per full-time student have increased.

State appropriations per full-time equivalent (FTE) student at Nebraska’s public post-secondary institutions have varied considerably over the past 10 years. State funding is increasingly being impacted by other state obligations, such as Medicaid, corrections, K-12 and other social services.

- Central Community College is the only public postsecondary institution to show a decrease in state appropriation per FTE from 2003-04 to 2013-14.
- Over the past 10 years, eight institutions have seen a double digit increase in their state appropriation per FTE.

State Appropriation per FTE at Nebraska’s Public Colleges and Universities 2003-04 to 2013-14

2014 Tuition, Fees and Financial Aid Report—Executive Summary

As tuition and mandatory fees continue to rise, financial aid becomes a necessity for many students.

Nebraska Opportunity Grant

Nebraska Opportunity Grants, which currently are funded by state general and lottery funds, have been awarded to students who are residents of Nebraska, who are attending an eligible Nebraska college or university, and who meet the yearly Expected Family Contribution amount¹. That last point ensures that Nebraska Opportunity Grants are awarded to students who demonstrate the highest need for financial assistance.

In 2003-04, \$8,776,652 was awarded in the state grant programs to students attending public and private institutions in the state. In 2013-14, it is estimated that \$16,448,044 will be awarded, an increase of 87 percent. In 2012-13, the amount awarded supported 15,757 students at an average of just over \$963 per grant. **The Commission estimates an additional \$35 million to \$40 million in funding would be needed to assist the approximately 40,000 students who were eligible but did not receive a grant.**

In 2012-13, Nebraska ranked 33rd among the states in need-based student aid grant dollars per full-time equivalency undergraduate enrollment.

¹ Effective with the 2010-11 academic year, students who complete the Free Application for Federal Student Aid and have an Expected Family Contribution equal to or less than the yearly amount may be considered for the Nebraska Opportunity Grant.

Nebraska Opportunity Grant Allocations at Nebraska's Public Colleges and Universities 2003-04 through 2013-14

2014 Tuition, Fees and Financial Aid Report—Executive Summary

Tuition Waivers¹

Many institutions routinely waive or discount a portion or all of a student’s tuition charges as a form of financial assistance. The criteria to award tuition waivers is established by the institutions and can be awarded for a number of different reasons, such as working as a campus ambassador, demonstrating financial need, being a nonresident student, serving as a graduate assistant or declaring a certain major. Waivers are used often as part of the recruitment and retention policies of the campus.

- The percent of tuition discounted in the form of tuition waivers has increased over the past five years.
- University of Nebraska and state college tuition waivers reflect awards made to all students, including graduate and professional students.

¹ The Commission has identified reporting differences in how tuition waivers are being reported by some institutions and is currently working to resolve this issue. The data provided is the most current information available at the time.

Tuition Waivers (Graduate and Undergraduate) at Nebraska’s Public Colleges and Universities 2003-04 through 2013-14 est

2014 Tuition, Fees and Financial Aid Report—Executive Summary

Student Loans

Student loans taken out to finance a student’s education continue to increase at a rapid and troubling rate. Nationally, according to the Project on Student Debt, college students graduating from a Nebraska college or university with undergraduate degrees had an average student loan debt of \$26,473.

Nationwide, from 2002-03 to 2012-13, the amount students borrowed through the Perkins, Stafford, GRAD PLUS and PLUS loans increased 86%, with the bulk of this increase occurring in the PLUS program, which increased 179%.

The amount borrowed to attend Nebraska’s public postsecondary institutions increased 131% from 2001-02 to 2011-12.

- University of Nebraska and State College loan dollars reflect borrowing by all students, including graduate and professional students.

Student Loans¹ at Nebraska’s Public Colleges and Universities 2003-04 to 2013-14 est

¹Includes Perkins, Subsidized and Unsubsidized Stafford, GRAD Plus and PLUS loans.

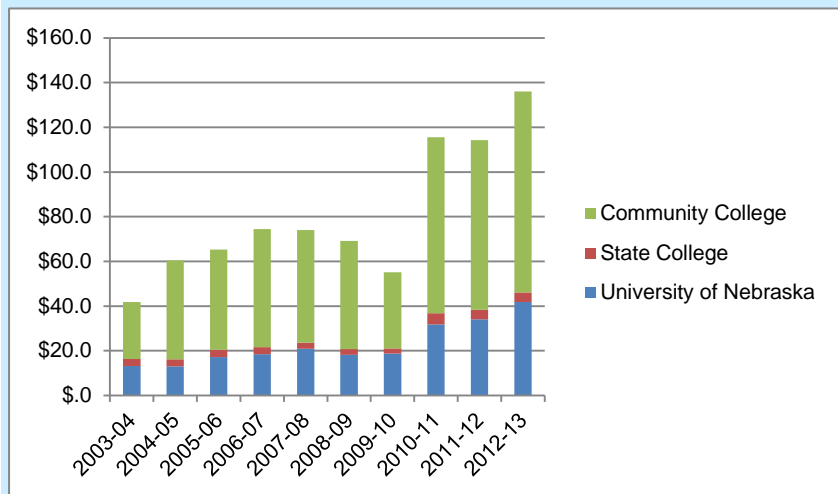

2014 Tuition, Fees and Financial Aid Report—Executive Summary

Unmet Financial Need¹

Unmet financial need, as defined by the Commission, is the cost of a Nebraska-resident, Pell Grant-eligible student’s tuition and mandatory fees plus room and board, plus books and supplies, minus all financial aid received excluding work study or PLUS. If a student has unmet financial need then it is likely the student has not been awarded the financial resources needed to help pay his or her education expenses.

¹ Some of this increase beginning in 2010-11 may be due to the expansion of Pell Grant eligibility.

Unmet Financial Need at Nebraska’s Public Colleges and Universities 2003-04 to 2010-11

Summary

While tuition and mandatory fees at Nebraska’s public postsecondary institutions increased only slightly, if at all, this past year, over the past 10-years these charges have increased at rates higher than increases in the Consumer Price Index and the Higher Education Price Index. That condition is common throughout the country. Despite those increases, enrollments continue to grow at Nebraska’s public institutions.

Increased costs are being covered by students and families in several ways. Because funding for most financial aid grant programs has remained stable, or in some cases decreased, students are borrowing more. In some cases, they are enrolling part-time and, therefore, taking longer to graduate – if they do graduate. (Part-time students have much lower graduation rates than full-time students.) Additionally, public postsecondary institutions in Nebraska continue to waive a significant portion of their potential tuition income in order to recruit students. That helps students, but it challenges institutions.

By several comparative measures, Nebraska provides greater financial support for its public higher education institutions than do many states. That support has recently come under increasing pressure due to the stiff competition for limited state resources. As a consequence, students and families are paying a higher percentage share of the total educational costs. This burden is particularly great on Nebraska’s poorest students and families.

In these challenging circumstances, policymakers within Nebraska’s state government and the leaders of Nebraska’s public postsecondary institutions will have to carefully balance the state’s and institutions’ financial needs with the ability of students and families to afford postsecondary education.

INTRODUCTION

Nebraska's statutes require the Coordinating Commission for Postsecondary Education to prepare biennially the *Tuition, Fees and Financial Aid Report*. As an important component of the Commission's *Comprehensive Statewide Plan for Postsecondary Education*, this report studies the public policy issues relating to tuition, fees, and financial aid for students in Nebraska. It examines the significant, interrelated issues facing the state's students and its institutions of higher education, such as:

- The affordability of attending a public postsecondary institution;
- The state's level of investment in higher education; and
- The trends in financial aid, including Nebraska's state grant and student loan programs.

The appendices of this report offer in-depth information about Nebraska's public postsecondary institutions in relation to their peer groups in:

- State appropriations per full-time equivalent student;
- Student payment share and affordability;
- Tuition, fees and enrollment trends;
- Tuition and fees as compared to inflation;
- Financial aid

Data Caveats

Comparisons with peer institutions allow each of Nebraska's public postsecondary institutions to assess key indicators in relation to data from similar institutions. As discussed in the Commission's *Comprehensive Statewide Plan*, comparisons also provide a method of assessing an institution's progress toward specific goals and outcomes (Coordinating Commission for Postsecondary Education, 2000). This information should also help promote attainment of the major statewide goals in the *Comprehensive Plan*.

A new set of peer institutions for the community colleges was selected in 2014 by the Coordinating Commission in consultation with the presidents of each respective Nebraska community college and are used for the first time in this year's report. New peers have also been selected for the state colleges in consultation with the Nebraska State College system office. However, that process concluded after the majority of this report had already been written. Those peers will be reflected for the first time in the 2016 report. Additionally, a new set of peers will be selected for the University of Nebraska campuses in time for the 2016 report.

In gathering data for this report, information on the peer institutions for the 2003-04 through 2012-13 academic years was obtained from the Integrated Postsecondary Education Data System (IPEDS), a database of educational statistics maintained by the U.S. Department of Education. To obtain data for the 2013-14 academic year a survey was sent to all Nebraska institutions and their peers, except for Nebraska's community colleges whose data was obtained from the Nebraska supplemental budget reports.

Not all colleges returned their survey; therefore, the Coordinating Commission looked at the average year-to-year change from 2004-05 through 2012-13 and estimated the amount for 2013-14. These figures will be updated to actual information in the 2016 report.

AFFORDABILITY OF HIGHER EDUCATION

“In today’s world, it is incumbent for universities and colleges to become more creative and avoid complacency while considering affordability for today’s student population.”

Debra Townsley, President
William Peace University

“Affordability in Higher Education is Achievable” December 2012

Affordability is a significant issue due to increasing college costs, which are making higher education less attainable for students. To determine if college is more or less affordable in Nebraska than it has been in the past, the following information examines tuition and mandatory fees in light of changes in family income. This section covers three factors of affordability: tuition and fees; student payment share; and tuition and fees as a percentage of family income.

Tuition and Fees

“Tuition and mandatory fees,” for the purpose of this report, is the amount charged a Nebraska resident student enrolled in 30 semester or 45 quarter credit hours for the academic year. Nebraska’s public postsecondary institutions have increased their tuition and mandatory fees charges significantly over the past five years. Inflation and fluctuations in State support have prompted these significant increases. However, in the last biennium budget, the Governor made a proposal to the University of Nebraska and the Nebraska State College System. If they would agree to freeze tuition for two years, the Governor would recommend to the Legislature a significant increase in their state appropriations. Both systems agreed, which led to little to no increase from 2012-13 to 2013-14 at these institutions.¹ As a means of promoting broad access to Nebraska higher education, the Commission continues to recommend that tuition and mandatory fee charges should be at or below the mean of the established peer group for each institution.

The Commission is pleased to report that Nebraska’s public postsecondary institutions are continuing to meet the Commission’s recommendation to set tuition and fee rates at a level that is appropriate to each sector’s role and mission as stated in the *Comprehensive Plan* (Coordinating Commission for Postsecondary Education, 2000). While higher education institutions nationwide have instituted steady increases in tuition and mandatory fees over the years, undergraduate Nebraska students attending public, four-year institutions in 2013-14 still paid less than the national average of \$8,893 for tuition and mandatory fees. Nebraska college students attending two-year public institutions are also paying less than the national average of \$3,264 for tuition and mandatory fees. (The College Board, 2013)

Regarding nonresident tuition and fees, the Commission has encouraged Nebraska institutions of higher education to use low nonresident charges as a recruiting tool to attract out-of-state students. However, as recommended in previous *Tuition, Fees and Financial Aid Reports*, institutions are encouraged to review nonresident charges to assure that low, nonresident rates do not adversely affect programs and tuition charges for Nebraska-resident students.

Consistent with that guidance, Nebraska institutions with one exception, especially within the community college sector, generally charge a significantly lower out-of-state premium than do their peers in other states. The one exception is the University of Nebraska at Omaha.² Nevertheless, the community colleges continue to have the lowest undergraduate resident tuition and fee rates, followed by the state colleges and then institutions in the University of Nebraska system. The following pages reflect changes in tuition and fees occurring in the community colleges, state colleges and the University of Nebraska.

¹ The agreement was to freeze tuition, but institutions may have increased fees.

² See appendix page 3 for Nebraska institution comparison, pages 18 for community colleges, 200 for state colleges, and 239 for the University of Nebraska.

Community Colleges

**Resident Tuition at Nebraska's Community Colleges
2003-04 through 2013-14¹**

From 2003-04 to 2013-14, tuition for a full-time Nebraska-resident student increased:

- 63% at Western Nebraska Community College
- 60% at Central Community College
- 58% at Metropolitan Community College
- 54% at Southeast Community College
- 51% at Northeast Community College
- 48% at Mid-Plains Community College

From 2008-09 to 2013-14, tuition for a full-time Nebraska-resident student increased:

- 26% at Western Nebraska Community College
- 23% at Metropolitan Community College
- 23% at Northeast Community College
- 21% at Central Community College
- 18% at Southeast Community College
- 18% at Mid-Plains Community College

¹ Based on 30 semester or 45 quarter credit hours.

Fees at Nebraska's Community Colleges 2003-04 through 2013-14¹

From 2003-04 to 2013-14, fees for a full-time Nebraska-resident student increased:

- 200% at Mid-Plains Community College
- 150% at Central Community College
- 147% at Northeast Community College
- 106% at Western Nebraska Community College
- 67% at Metropolitan Community College
- 25% at Southeast Community College

From 2008-09 to 2013-14, fees for a full-time Nebraska-resident student increased:

- 88% at Central Community College
- 32% at Northeast Community College
- 27% at Western Nebraska Community College
- 25% at Southeast Community College
- 7% at Mid-Plains Community College
- no change at Metropolitan Community College

¹ Based on 30 semester or 45 quarter credit hours.

Resident Tuition and Mandatory Fees at Nebraska's Community Colleges 2003-04 through 2013-14¹

From 2003-04 to 2013-14, tuition and mandatory fees for a full-time Nebraska-resident student increased:

- 69% at Western Nebraska Community College
 - 56% at Mid-Plains Community College
 - 55% at Central Community College
 - 53% at Southeast Community College
 - 51% at Metropolitan Community College
 - 48% at Northeast Community College
- Nationwide, tuition and mandatory fees at community colleges increased an average of 64% over the same 10-year period (The College Board, 2013).

¹ Based on 30 semester or 45 quarter credit hours.

From 2008-09 to 2013-14, tuition and mandatory fees for a full-time Nebraska-resident student increased:

- 26% at Central Community College
 - 26% at Western Nebraska Community College
 - 21% at Metropolitan Community College
 - 18% at Southeast Community College
 - 16% at Northeast Community College
 - 16% at Mid-Plains Community College
- Nationwide, tuition and mandatory fees at community colleges increased an average of 34% over the same five-year period (The College Board, 2013).

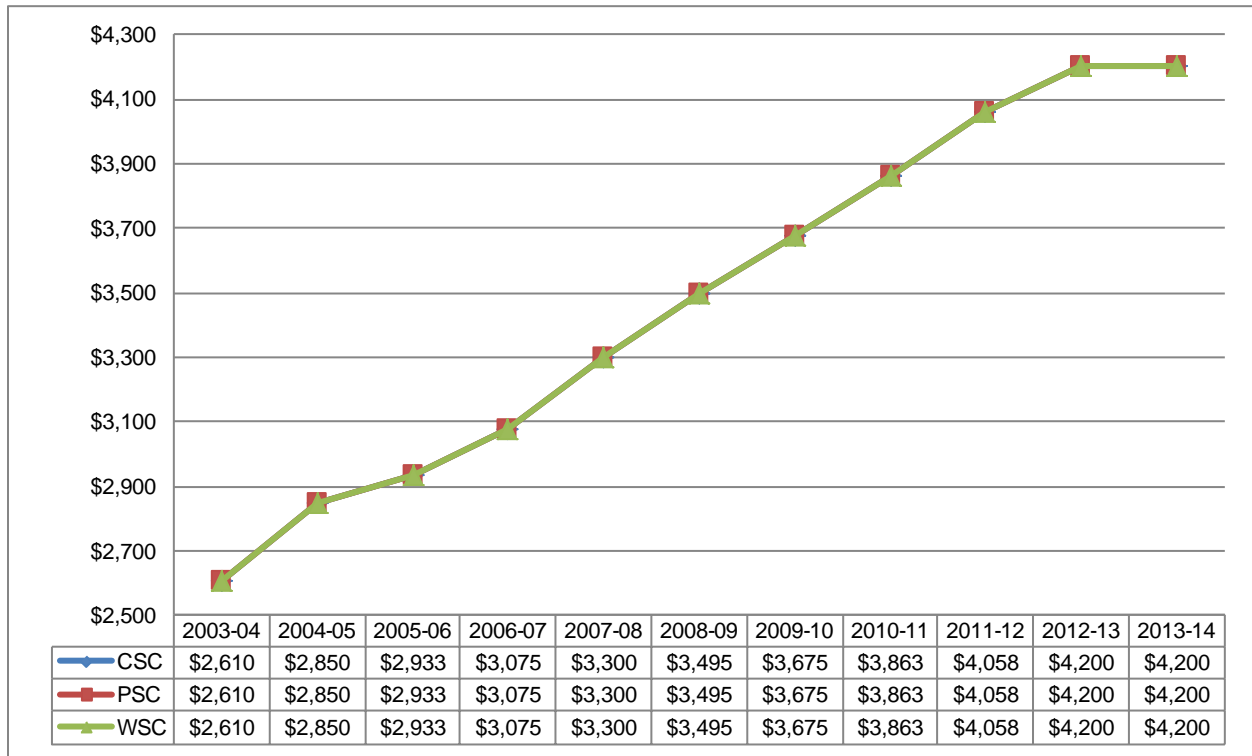

For resident tuition and mandatory fee charges in 2013-14, when compared to their peers:

- Central Community College ranks 6th out of 11
- Metropolitan Community College ranks 8th out of 11
- Mid-Plains Community College ranks 9th out of 11
- Northeast Community College ranks 4th out of 11
- Southeast Community College ranks 9th out of 11
- Western Nebraska Community College ranks 5th out of 11

More detailed information can be found on page 18 of the appendix section.

State Colleges

**Resident Undergraduate Tuition at
Nebraska's State Colleges 2003-04 through 2013-14¹**

From 2003-04 to 2013-14, tuition for a full-time Nebraska-resident student increased:

- 61% at Chadron State College
- 61% at Peru State College
- 61% at Wayne State College

From 2008-09 to 2013-14, tuition for a full-time Nebraska-resident student increased:

- 20% at Chadron State College
- 20% at Peru State College
- 20% at Wayne State College

¹ Based on 30 semester hours.

Mandatory Fees at Nebraska's State Colleges 2003-04 through 2013-14¹

From 2003-04 to 2013-14, mandatory fees for a full-time Nebraska-resident student increased:

- 146% at Chadron State College
- 133% at Peru State College
- 67% at Wayne State College

From 2008-09 to 2013-14, mandatory fees for a full-time Nebraska-resident student increased:

- 82% at Peru State College
- 41% at Chadron State College
- 28% at Wayne State College

¹ Based on 30 semester hours.

Resident Undergraduate Tuition and Mandatory Fees at Nebraska's State Colleges 2003-04 through 2013-14¹

From 2003-04 to 2013-14, tuition and mandatory fees for a full-time Nebraska-resident student increased:

- 98% at Chadron State College
- 64% at Peru State College
- 52% at Wayne State College
- Nationwide, tuition and mandatory fees at four-year public institutions increased an average of 87% over the same 10-year period (The College Board, 2013).

¹ Based on 30 semester hours.

From 2008-09 to 2013-14, tuition and mandatory fees for a full-time Nebraska-resident student increased:

- 32% at Peru State College
- 25% at Chadron State College
- 22% at Wayne State College
 - Nationwide, tuition and mandatory fees at four-year public institutions increased an average of 32% over the same five-year period (The College Board, 2013).

For resident undergraduate tuition and mandatory fee charges in 2013-14, when compared to their peers:

- Chadron State College ranks 7th out of 10
- Peru State College ranks 11th out of 11
- Wayne State College ranks 8th out of 10

More detailed information can be found on page 200 of the appendix section.

University of Nebraska

**Resident Undergraduate Tuition at
University of Nebraska Campuses 2003-04 through 2013-14¹**

From 2003-04 to 2013-14, tuition for a full-time Nebraska-resident student increased:

- 68% at the University of Nebraska at Kearney
- 68% at the University of Nebraska-Lincoln
- 68% at the University of Nebraska at Omaha
- 57% at the Nebraska College of Technical Agriculture

From 2008-09 to 2013-14, tuition for a full-time Nebraska-resident student increased:

- 20% at the University of Nebraska at Kearney
- 20% at the University of Nebraska-Lincoln
- 20% at the University of Nebraska at Omaha
- 20% at the University of Nebraska Medical Center College of Nursing
- 20% at the Nebraska College of Technical Agriculture

¹ Based on 30 semester hours.

Mandatory Fees at University of Nebraska Campuses 2003-04 through 2013-14¹

From 2003-04 to 2013-14, mandatory fees for a full-time Nebraska-resident student increased:

- 223% at the Nebraska College of Technical Agriculture
- 145% at the University of Nebraska at Omaha
- 66% at the University of Nebraska at Kearney
- 62% at the University of Nebraska-Lincoln

From 2008-09 to 2013-14, mandatory fees for a full-time Nebraska-resident student increased:

- 72% at the Nebraska College of Technical Agriculture
- 66% at the University of Nebraska Medical Center College of Nursing
- 47% at the University of Nebraska at Omaha
- 25% at the University of Nebraska-Lincoln
- 20% at the University of Nebraska at Kearney

¹ Based on 30 semester hours.

Resident Undergraduate Tuition and Mandatory Fees at University of Nebraska Campuses 2003-04 through 2013-14¹

From 2003-04 to 2013-14, tuition and mandatory fees for a full-time Nebraska-resident student increased:

- 72% at the Nebraska College of Technical Agriculture
 - 61% at the University of Nebraska at Omaha
 - 53% at the University of Nebraska at Kearney
 - 51% at the University of Nebraska-Lincoln
- Nationwide, tuition and mandatory fees at four-year public institutions increased an average of 87% over the same 10-year period (The College Board, 2013).

¹ Based on 30 semester hours.

From 2008-09 to 2013-14, tuition and mandatory fees for a full-time Nebraska-resident student increased:

- 26% at the Nebraska College of Technical Agriculture
- 24% at the University of Nebraska at Omaha
- 23% at the University of Nebraska Medical Center College of Nursing
- 21% at the University of Nebraska-Lincoln
- 20% at the University of Nebraska at Kearney
 - Nationwide, tuition and mandatory fees at four-year public institutions increased an average of 32% over the same five-year period (The College Board, 2013).

For undergraduate tuition and mandatory fee charges in 2013-14, when compared to their peers:

- The University of Nebraska at Kearney ranks 8th out of 10
- The University of Nebraska-Lincoln ranks 10th out of 13
- The University of Nebraska at Omaha ranks 9th out of 10

More detailed information can be found on page 240 of the appendix section.

Student Payment Share

Contrary to what many students likely believe, the State of Nebraska and its taxpayers bear the majority of the costs to educate Nebraska's public postsecondary students. Students, however, pay a percentage of the costs through tuition and fees. The "student payment share" reported in this document for four-year institutions is determined by a formula that divides the aggregate tuition and mandatory fee revenue, in a given year, by the public institution's state appropriation plus the aggregate tuition and mandatory fees revenue. For two-year institutions, the student payment share is determined by a formula that divides the aggregate tuition and mandatory fee revenue, in a given year, by the institution's state appropriation plus the tuition and mandatory fees revenue plus the institution's property tax revenue. Details are displayed on the following pages.

Four-year public institutions receive a majority of their funding for operations from two sources: the state and students. Two-year public institutions receive a majority of funding from the state and local taxes assessed on property within the institutions' service area. As students contribute a higher percentage to their educational costs, affordability is reduced, especially for students from low-income families.

The Commission has recommended guidelines on the student payment share for educational costs in the *Comprehensive Statewide Plan for Postsecondary Education*. These guidelines reflect role and mission differences between the various public higher education sectors:

- At the community colleges, the student payment share should be the lowest of the three public sectors.
- At the state colleges, the student payment share should be greater than the student's share at the community colleges, but less than at the University of Nebraska campuses.
- At the University of Nebraska campuses, the student payment share should be greater than the students' payment share at both the community colleges and the State Colleges.

The student payment share at Nebraska public institutions is consistent with established guidelines. Students at the University of Nebraska at Omaha have the highest student payment share of Nebraska public institutions at just under 60 percent. In general, if enrollment increases at an institution and the state appropriation is reduced or remains level, the student payment share will increase. Likewise, if enrollment remains the same but the amount of state appropriation is reduced, the student payment share will increase. The following pages provide student payment share information for the public postsecondary sectors in Nebraska.

Community Colleges

**Student Payment Share at Nebraska's Community Colleges
2003-04 to 2013-14**

From 2003-04 to 2013-14, the student contribution to the income of Nebraska's community colleges increased:

- 109% at Metropolitan Community College
- 92% at Western Nebraska Community College
- 90% at Central Community College
- 89% at Mid-Plains Community College
- 68% at Northeast Community College
- 63% at Southeast Community College

From 2008-09 to 2013-14, the student contribution to the income of Nebraska's community colleges increased:

- 41% at Mid-Plains Community College
- 40% at Western Nebraska Community College
- 37% at Central Community College
- 36% at Northeast Community College
- 32% at Metropolitan Community College
- 16% at Southeast Community College

For estimated student payment share in 2013-14, when compared to their peers:

- Central Community College ranks 10th out of 11
- Metropolitan Community College ranks 9th out of 11
- Mid-Plains Community College ranks 9th out of 11
- Northeast Community College ranks 8th out of 11
- Southeast Community College ranks 7th out of 11
- Western Nebraska Community College ranks 9th out of 11

More detailed information can be found on page 9 of the appendix section.

State Colleges

**Student Payment Share at Nebraska’s State Colleges
2003-04 to 2013-14**

From 2003-04 to 2013-14, the student contribution to the income of Nebraska’s state colleges increased:

- 127% at Peru State College
- 119% at Chadron State College
- 75% at Wayne State College

From 2008-09 to 2013-14, the student contribution to the income of Nebraska’s state colleges increased:

- 84% at Chadron State College
- 28% at Wayne State College
- 18% at Peru State College

For estimated student payment share in 2013-14, when compared to their peers:

- Chadron State College ranks 8th out of 10
- Peru State College ranks 10th out of 11
- Wayne State College ranks 9th out of 10

More detailed information can be found on page 212 of the appendix section.

University of Nebraska

**Student Payment Share at University of Nebraska Campuses
(excluding UNMC) 2003-04 to 2013-14**

From 2003-04 to 2013-14, the student contribution to the income of University of Nebraska campuses increased:

- 96% at the University of Nebraska-Lincoln
- 85% at the University of Nebraska at Kearney
- 67% at the University of Nebraska at Omaha
- 62% at the Nebraska College of Technical Agriculture

From 2008-09 to 2013-14, the student contribution to the income of University of Nebraska campuses increased:

- 33% at the University of Nebraska at Kearney
- 29% at the University of Nebraska-Lincoln
- 21% at the University of Nebraska at Omaha
- 16% at the Nebraska College of Technical Agriculture

For estimated student payment share in 2013-14, when compared to their peers:

- University of Nebraska at Kearney ranks 8th out of 10
- University of Nebraska-Lincoln ranks 13th out of 13
- University of Nebraska at Omaha ranks 8th out of 10

More detailed information can be found on page 251 of the appendix section.

Tuition and Fees as a Percentage of Family Income

Another way to look at affordability is the percentage of a family's annual income that must be contributed for the student to attend college. As the cost of a college education has increased for students and their families, the possibility and likelihood of pricing students (especially students from low-income families) out of an education has become of increasing concern.

The Commission has reviewed the burden a student's family might have in contributing to the student's education using per capita income to measure affordability, along with comparing the educational costs at different income levels: median family income, low family income, and very low family income. The U.S. Department of Commerce Bureau of Economic Analysis reports per capita income by county. Median, low and very low incomes by county for a family of four come from the U.S. Department of Housing and Urban Development.

“Low-income families are defined as families whose income does not exceed 80 percent of the median family income, while very low-income families are defined as families whose incomes do not exceed 50 percent of the median family income” (U.S. Department of Housing and Urban Development, 2005).

The per capita income for each institution is calculated by averaging the per capita incomes of the counties included in the institution's service area¹. The same type of calculation is used to determine median, low and very low income levels for each institution.

On average, incomes for families clearly are not rising at the rate institutions are increasing tuition and fees. Unless other factors (for example, financial aid or increased borrowing) offset tuition and mandatory fee increases, the students from low-income families will obviously have a harder time obtaining a college degree.

The following pages set forth the percentages of varying family income levels that parallel a student's education costs to attend Nebraska's public postsecondary sectors.²

¹ Service areas for each Nebraska public postsecondary institution can be found in the appendix on page 17 for the community colleges, page 199 for the state colleges, and page 238 for the University of Nebraska campuses.

² Calculations are based on the gross amount of tuition and mandatory fees a student would be charged. While these students, in most cases, would be eligible for some type of financial assistance to help with their educational costs, the calculations for this section do not consider those awards.

Community Colleges: Median Family Income

Annual Income of Median-Income Families Living within Each Nebraska Community College Service Area 2003-04 to 2013-14

From 2003-04 to 2013-14, the annual income of median-income earning families increased:

- 27% within Mid-Plains Community College service area
- 27% within Northeast Community College service area
- 22% within Central Community College service area
- 17% within Southeast Community College service area
- 14% within Western Nebraska Community College service area
- 12% within Metropolitan Community College service area

From 2008-09 to 2013-14, the annual income of median-income earning families increased:

- 17% within Northeast Community College service area
- 15% within Mid-Plains Community College service area
- 12% within Central Community College service area
- 8% within Southeast Community College service area
- 6% within Western Nebraska Community College service area
- 3% within Metropolitan Community College service area

Community Colleges: Tuition and Fees as a Percentage of Income for Median-Income Families

Tuition and mandatory fees can be calculated as a percentage of the median income of families living in the service area of each of Nebraska’s community colleges. Between 2003-04 and 2013-14, a higher percentage of median family income was required to pay tuition and mandatory fees at all six of the community colleges. For example, the tuition and mandatory fees at Central Community College in 2003-04 equaled 3.6% of median family income in the college’s service area. In 2013-14, the percentage increased to 4.6% of median family income. The percentage changes for the community colleges are shown in the following chart.

Percentage of Median Family Income Required to Pay Undergraduate Resident Tuition and Mandatory Fees at Nebraska’s Community Colleges 2003-04 to 2013-14

Community Colleges: Low Family Income¹

Annual Income of Low-Income Families Living within Each Nebraska Community College Service Area 2001-02 to 2011-12

From 2003-04 to 2013-14, the annual income of low-income earning families increased:

- 22% within Mid-Plains Community College service area
- 21% within Northeast Community College service area
- 19% within Central Community College service area
- 19% within Western Nebraska Community College service area
- 17% within Southeast Community College service area
- 13% within Metropolitan Community College service area

From 2008-09 to 2013-14, the annual income of low-income earning families increased:

- 12% within Mid-Plains Community College service area
- 11% within Central Community College service area
- 11% within Northeast Community College service area
- 11% within Western Nebraska Community College service area
- 9% within Southeast Community College service area
- 5% within Metropolitan Community College service area

¹ Low-income families are defined as families whose income does not exceed 80 percent of the median family income

Community Colleges: Tuition and Fees as a Percentage of Income for Low-Income Families

Tuition and mandatory fees can be calculated as a percentage of the annual income of low-income families living in the service area of each of Nebraska's community colleges. Between 2003-04 and 2013-14, a higher percentage of low family income was required to pay tuition and mandatory fees at all six of the community colleges. For example, the tuition and mandatory fees at Central Community College in 2003-04 equaled 4.2% of low family income in the college's service area. In 2013-14, the percentage increased to 5.5% of low family income. The percentage changes for the community colleges are shown in the following chart.

Percentage of Low Family Income Required to Pay Undergraduate Resident Tuition and Mandatory Fees at Nebraska's Community Colleges 2003-04 to 2013-14

Community Colleges: Very Low Family Income¹

Annual Income of Very Low-Income Families Living within Each Nebraska Community College Service Area 2003-04 to 2013-14

From 2003-04 to 2013-14, the annual income of very low-income earning families increased:

- 22% within Mid-Plains Community College service area
- 21% within Northeast Community College service area
- 19% within Central Community College service area
- 19% within Western Nebraska Community College service area
- 17% within Southeast Community College service area
- 13% within Metropolitan Community College service area

From 2008-09 to 2013-14, the annual income of very low-income earning families increased:

- 12% within Mid-Plains Community College service area
- 11% within Central Community College service area
- 11% within Northeast Community College service area
- 11% within Western Nebraska Community College service area
- 9% within Southeast Community College service area
- 5% within Metropolitan Community College service area

¹ Very low-income families are defined as families whose incomes do not exceed 50 percent of the median family income

Community Colleges: Tuition and Fees as a Percentage of Income for Very Low-Income Families

Tuition and mandatory fees can be calculated as a percentage of the annual income of very low-income families living in the service area of each of Nebraska’s community colleges. Between 2003-04 and 2013-14, a higher percentage of very low family income was required to pay tuition and mandatory fees at all six of the community colleges. For example, the tuition and mandatory fees at Central Community College in 2003-04 equaled 6.8% of very low family income in the college’s service area. In 2013-14, the percentage increased to 8.8% of very low family income. The percentage changes for the community colleges are shown in the following chart.

Percentage of Very Low Family Income Required to Pay Undergraduate Resident Tuition and Mandatory Fees at Nebraska’s Community Colleges 2003-04 to 2013-14

Community Colleges: Per Capita Income

Annual Per Capita Income of Families Living within Each Nebraska Community College Service Area 2002-03 to 2012-13

From 2002-03 to 2012-13, the per capita income of families increased:

- 91% within Mid-Plains Community College service area
- 86% within Central Community College service area
- 86% within Northeast Community College service area
- 83% within Western Nebraska Community College service area
- 64% within Southeast Community College service area
- 42% within Metropolitan Community College service area

From 2007-08 to 2012-13, the per capita income of families increased:

- 43% within Northeast Community College service area
- 38% within Central Community College service area
- 38% within Mid-Plains Community College service area
- 34% within Western Nebraska Community College service area
- 26% within Southeast Community College service area
- 14% within Metropolitan Community College service area

Community Colleges: Tuition and Fees as a Percentage of Per Capita Income

Tuition and mandatory fees can be calculated as a percentage of the per capita income within the service area of each of Nebraska’s community colleges. Between 2002-03 and 2012-13, a higher percentage of per capita income was required to pay tuition and mandatory fees at only two of the community colleges, while the other four community colleges saw a decrease in the percentage. For example, the tuition and mandatory fees at Central Community College in 2002-03 equaled 5.9% of per capita income in the college’s service area. In 2012-13, the percentage decreased to 5.7% of per capita income. The percentage changes for the community colleges are shown in the following chart.

Percentage of Families’ Per Capita Income Required to Pay Undergraduate Resident Tuition and Mandatory Fees at Nebraska’s Community Colleges 2002-03 to 2012-13

State Colleges: Median Family Income

Annual Income for Median-Income Families Living within Each Nebraska State College Service Area 2003-04 to 2013-14

From 2003-04 to 2013-14, the annual income of median-income earning families increased:

- 23% within Wayne State College service area
- 21% within Chadron State College service area
- 16% within Peru State College service area

From 2008-09 to 2013-14, the annual income of median-income earning families increased:

- 13% within Wayne State College service area
- 11% within Chadron State College service area
- 7% within Peru State College service area

State Colleges: Tuition and Fees as a Percentage of Income for Median-Income Families

Tuition and mandatory fees can be calculated as a percentage of the median income of families living in the service area of each of Nebraska’s State Colleges. Between 2003-04 and 2013-14, a higher percentage of median family income was required to pay tuition and mandatory fees at all three of the State Colleges. For example, the tuition and mandatory fees at Chadron State College in 2003-04 equaled 6.4% of median family income in the college’s service area. In 2013-14, the percentage increased to 10.4% of median family income. The percentage changes for the State Colleges are shown in the following chart.

Percentage of Median Family Income Required to Pay Undergraduate Resident Tuition and Mandatory Fees at Nebraska’s State Colleges 2003-04 to 2013-14

State Colleges: Low Family Income¹

Annual Income for Low-Income Families Living Within Each Nebraska State College Service Area 2003-04 to 2013-14

From 2003-04 to 2013-14, the annual income of low-income earning families increased:

- 21% within Chadron State College service area
- 20% within Wayne State College service area
- 16% within Peru State College service area

From 2008-09 to 2013-14, the annual income of low-income earning families increased:

- 12% within Chadron State College service area
- 11% within Wayne State College service area
- 8% within Peru State College service area

¹Low-income families are defined as families whose income does not exceed 80 percent of the median family income

State Colleges: Tuition and Fees as a Percentage of Income for Low-Income Families

Tuition and mandatory fees can be calculated as a percentage of the annual income of low-income families living in the service area of each of Nebraska's State Colleges. Between 2003-04 to 2013-14, a higher percentage of low family income was required to pay tuition and mandatory fees at all three of the State Colleges. For example, the tuition and mandatory fees at Chadron State College in 2003-04 equaled 7.0% of low family income in the college's service area. In 2013-14, the percentage increased to 11.6% of low family income. The percentage changes for the State Colleges are shown in the following chart.

Percentage of Low Family Income Required to Pay Undergraduate Resident Tuition and Mandatory Fees at Nebraska's State Colleges 2003-04 to 2013-14

State Colleges: Very Low Family Income¹

Annual Income for Very Low-Income Families Living Within Each Nebraska State College Service Area 2001-02 to 2011-12

From 2003-04 to 2013-14, the annual income of very-low income earning families increased:

- 21% within Chadron State College service area
- 20% within Wayne State College service area
- 16% within Peru State College service area

From 2008-09 to 2013-14, the annual income of very-low income earning families increased:

- 12% within Chadron State College service area
- 11% within Wayne State College service area
- 8% within Peru State College service area

¹ Very low-income families are defined as families whose incomes do not exceed 50 percent of the median family income

State Colleges: Tuition and Fees as a Percentage of Income for Very Low-Income Families

Tuition and mandatory fees can be calculated as a percentage of the annual income of very low-income families living in the service area of each of Nebraska’s State Colleges. Between 2003-04 and 2013-14, a higher percentage of very low family income was required to pay tuition and mandatory fees at all three of the State Colleges. For example, the tuition and mandatory fees at Chadron State College in 2003-04 equaled 11.3% of very low family income in the college’s service area. In 2013-14, the percentage increased to 18.5% of very low family income. The percentage changes for the State Colleges are shown in the following chart.

Percentage of Very Low Family Income Required to Pay Undergraduate Resident Tuition and Mandatory Fees at Nebraska’s State Colleges 2003-04 to 2013-14

State Colleges: Per Capita Income

Annual Per Capita Income of Families Living within Each Nebraska State College Service Area 2002-03 to 2012-13

From 2002-03 to 2012-13, the per capita income of families increased:

- 89% within Chadron State College service area
- 84% within Wayne State College service area
- 59% within Peru State College service area

From 2007-08 to 2012-13, the per capita income of families increased:

- 39% within Wayne State College service area
- 36% within Chadron State College service area
- 23% within Peru State College service area

State Colleges: Tuition and Fees as a Percentage of Per Capita Income

Tuition and mandatory fees can be calculated as a percentage of the per capita income within the service area of each of Nebraska’s State Colleges. Between 2002-03 and 2012-13, a higher percentage of per capita income was required to pay tuition and mandatory fees at two of the three State Colleges. For example, the tuition and mandatory fees at Chadron State College in 2002-03 equaled 12.1% of per capita income in the college’s service area. In 2012-13, the percentage increased to 12.5% of per capita income. The percentage changes for the State Colleges are shown in the following chart.

Percentage of Families’ Per Capita Income Required to Pay Undergraduate Resident Tuition and Mandatory Fees at Nebraska’s State Colleges 2002-03 to 2012-13

University of Nebraska: Median Family Income

Annual Income of Median-Income Families Living within Each University of Nebraska Campus Service Area 2003-04 to 2013-14

From 2003-04 to 2013-14, the annual income of median-income earning families increased:

- 22% within the University of Nebraska at Kearney service area
- 21% within the University of Nebraska-Lincoln service area
- 14% within the University of Nebraska at Omaha service area

From 2008-09 to 2013-14, the annual income of median-income earning families increased:

- 13% within the University of Nebraska at Kearney service area
- 11% within the University of Nebraska-Lincoln service area
- 4% within the University of Nebraska at Omaha service area

University of Nebraska: Tuition and Fees as a Percentage of Income for Median-Income Families

Tuition and mandatory fees can be calculated as a percentage of the median income of families living in the service area of each of the University of Nebraska campuses. Between 2003-04 and 2013-14, a higher percentage of median family income was required to pay tuition and mandatory fees at the campuses. For example, the tuition and mandatory fees at the University of Nebraska at Kearney in 2003-04 equaled 9.0% of median family income in the University’s service area. In 2013-14, the percentage increased to 11.2% of median family income. The percentage changes for the University of Nebraska campuses are shown in the following chart.

Percentage of Median Family Income Required to Pay Undergraduate Resident Tuition and Mandatory Fees at the University of Nebraska 2003-04 to 2013-14

University of Nebraska: Low Family Income¹

Annual Income of Low-Income Families Living within Each University of Nebraska Campus Service Area 2003-04 to 2013-14

From 2003-04 to 2013-14, the annual income of low-income earning families increased:

- 20% within the University of Nebraska at Kearney service area
- 19% within the University of Nebraska-Lincoln service area
- 13% within the University of Nebraska at Omaha service area

From 2008-09 to 2013-14, the annual income of low-income earning families increased:

- 11% within the University of Nebraska at Kearney service area
- 10% within the University of Nebraska-Lincoln service area
- 4% within the University of Nebraska at Omaha service area

¹ Low-income families are defined as families whose income does not exceed 80 percent of the median family income

University of Nebraska: Tuition and Fees as a Percentage of Income for Low-Income Families

Tuition and mandatory fees can be calculated as a percentage of the annual income of low-income families living in the service area of each of the University of Nebraska campuses. Between 2003-04 to 2013-14, a higher percentage of low family income was required to pay tuition and mandatory fees at the campuses. For example, the tuition and mandatory fees at the University of Nebraska at Kearney in 2003-04 equaled 9.5% of low family income in the University’s service area. In 2013-14, the percentage increased to 13.3% of low family income. The percentage changes for the University of Nebraska campuses are shown in the following chart.

Percentage of Low Family Income Required to Pay Undergraduate Resident Tuition and Mandatory Fees at the University of Nebraska 2003-04 to 2013-14

University of Nebraska: Very Low Family Income¹

Annual Income of Very Low-Income Families Living within Each University of Nebraska Campus Service Area 2003-04 to 2013-14

From 2003-04 to 2013-14, the annual income of very-low income earning families increased:

- 20% within the University of Nebraska at Kearney service area
- 19% within the University of Nebraska-Lincoln service area
- 13% within the University of Nebraska at Omaha service area

From 2008-09 to 2013-14, the annual income of very-low income earning families increased:

- 11% within the University of Nebraska at Kearney service area
- 10% within the University of Nebraska-Lincoln service area
- 4% within the University of Nebraska at Omaha service area

¹ Very low-income families are defined as families whose incomes do not exceed 50 percent of the median family income

University of Nebraska: Tuition and Fees as a Percentage of Income for Very Low-Income Families

Tuition and mandatory fees can be calculated as a percentage of the annual income of very low-income families living in the service area of each of the University of Nebraska campuses. Between 2003-04 and 2013-14, a higher percentage of very low family income was required to pay tuition and mandatory fees at the campuses. For example, the tuition and mandatory fees at the University of Nebraska at Kearney in 2003-04 equaled 16.6% of very low family income in the University’s service area. In 2013-14, the percentage increased to 21.2% of very low family income. The percentage changes for the University of Nebraska campuses are shown in the following chart.

Percentage of Very Low Family Income Required to Pay Undergraduate Resident Tuition and Mandatory Fees at the University of Nebraska 2003-04 to 2013-14

University of Nebraska: Per Capita Family Income

Annual Per Capita Income for Families Living within Each University of Nebraska Campus Service Area 2002-03 to 2012-13

From 2002-03 to 2012-13, the per capita income of families increased:

- 97% within the University of Nebraska at Kearney service area
- 73% within the University of Nebraska-Lincoln service area
- 41% within the University of Nebraska at Omaha service area

From 2007-08 to 2012-13, the per capita income of families increased:

- 42% within the University of Nebraska at Kearney service area
- 32% within the University of Nebraska-Lincoln service area
- 14% within the University of Nebraska at Omaha service area

University of Nebraska: Tuition and Fees as a Percentage of Per Capita Income

Tuition and mandatory fees can be calculated as a percentage of the per capita income within the service area of each of the University of Nebraska campuses. Between 2002-03 and 2012-13, a higher percentage of per capita income was required to pay tuition and mandatory fees at two of the three campuses. For example, the tuition and mandatory fees at the University of Nebraska at Kearney in 2002-03 equaled 13.6% of per capita income in the University’s service area. In 2012-13, the percentage decreased to 13.3% of per capita income. The percentage changes for the University of Nebraska campuses are shown in the following chart.

Percentage of Families’ Per Capita Income Required to Pay Undergraduate Resident Tuition and Mandatory Fees at the University of Nebraska 2002-03 to 2012-13

STATE INVESTMENT IN HIGHER EDUCATION

“States are looking around at ways to reduce the burden on students of getting degrees without increasing the burden on the states. That will continue as a trend for a while. The real challenge, I think, for colleges and universities, is finding a way to reduce the cost of a degree.”

George Pernsteiner, President

State Higher Education Executive Officers (SHEEO)

”Students Paying Bigger Share of Public College Costs”, Adrienne Lu, Staff Writer,
The Pew Charitable Trusts, May 15, 2014

On February 17, 2009, President Obama signed into law the American Recovery and Reinvestment Act (ARRA). The Act had three main goals: create new jobs and save existing jobs; spur economic activity and invest in long-term growth; and foster accountability and transparency in government spending by providing more than \$700 billion dollars in federal spending to individuals, states and other localities (Recovery.gov). Of the funds sent to states, \$5.9 billion was used by states to restore the level of state support for public higher education during the 2009-10 and 2010-11 academic years. (Center for the Study of Education Policy, 2014).

From FY09 to FY14, when looking strictly at state funds, 32 states saw a reduction in funding for higher education. When taking into account the states that used stimulus funds to supplement state funding, a total of 36 states saw a decrease in higher education funding. However, funding for higher education is looking positive. From FY13 to FY14, only 10 states decreased their funding for higher education. (Center for the Study of Education Policy, 2014).

This section of the report covers two topics: appropriation comparisons within Nebraska and appropriation comparisons with other states.

Appropriation Comparisons within the State

The following information looks at state appropriation per full-time equivalent (FTE) student. The dollar amounts exclude funds appropriated or re-appropriated for tuition and capital appropriations. To arrive at the appropriation per full-time student, the base state appropriation is divided by the number of full-time equivalent students at the institution. (Note: Enrollment decreases can therefore lead to increases in appropriations per full-time equivalent student, and vice versa.)

In addition to state appropriations, the community colleges receive income from property taxes; therefore, this report provides two additional sets of data, one that shows the amount of property tax income received by each community college and one in which the state appropriation and property taxes are added together to derive a total state-and-local appropriation per full-time equivalent student within the community college sector.

Appropriations to community colleges are based on a set amount of funding with any additional appropriation based on requests submitted by the college. Appropriations for the State Colleges and the University of Nebraska are based on identified needs.

Community Colleges

State Appropriation per FTE Student at Nebraska's Community Colleges 2003-04 to 2013-14

From 2003-04 to 2013-14, state appropriations per full-time equivalent student at Nebraska’s community colleges:

- increased 62% at Southeast Community College
- increased 40% at Northeast Community College
- increased 29% at Mid-Plains Community College
- increased 9% at Western Nebraska Community College
- increased 2% at Metropolitan Community College
- **decreased** 28% at Central Community College

From 2008-09 to 2013-14, state appropriations per full-time equivalent student at Nebraska’s community colleges:

- increased 38% at Southeast Community College
- showed no change at Northeast Community College
- **decreased** 8% at Metropolitan Community College
- **decreased** 12% at Western Nebraska Community College
- **decreased** 13% at Mid-Plains Community College
- **decreased** 37% at Central Community College

For state appropriation per full-time equivalent student in 2013-14, when compared to their peers:

- Central Community College ranks 10th out of 11
- Metropolitan Community College ranks 8th out of 11
- Mid-Plains Community College ranks 4th out of 11
- Northeast Community College ranks 4th out of 11
- Southeast Community College ranks 5th out of 11
- Western Nebraska Community College ranks 3rd out of 11

More detailed information can be found in the appendix beginning on page 48.

Property Tax Income per FTE Student at Nebraska's Community Colleges 2003-04 to 2013-14

From 2003-04 to 2013-14, property tax income per full-time equivalent student at Nebraska's community colleges increased:

- 139% at Central Community College
- 101% at Northeast Community College
- 83% at Mid-Plains Community College
- 48% at Southeast Community College
- 30% at Western Nebraska Community College
- 18% at Metropolitan Community College

From 2008-09 to 2013-14, property tax income per full-time equivalent student at Nebraska's community colleges:

- increased 61% at Central Community College
- increased 42% at Northeast Community College
- increased 28% at Western Nebraska Community College
- increased 26% at Mid-Plains Community College
- increased 9% at Southeast Community College
- increased 8% at Metropolitan Community College

For property tax income per full-time equivalent student in 2013-14, when compared to their peers:

- Central Community College ranks 1st out of 11
- Metropolitan Community College ranks 4th out of 11
- Mid-Plains Community College ranks 2nd out of 11
- Northeast Community College ranks 2nd out of 11
- Southeast Community College ranks 5th out of 11
- Western Nebraska Community College ranks 5th out of 11

More detailed information can be found in the appendix beginning on page 48.

State Appropriation and Property Tax Income per FTE Student at Nebraska's Community Colleges 2003-04 to 2013-14

From 2003-04 to 2013-14, state appropriations and property tax income per full-time equivalent student at Nebraska's community colleges:

- increased 70% at Northeast Community College
- increased 66% at Central Community College
- increased 55% at Southeast Community College
- increased 54% at Mid-Plains Community College
- increased 16% at Western Nebraska Community College
- increased 12% at Metropolitan Community College

From 2008-09 to 2013-14, state appropriations and property tax income per full-time equivalent student at Nebraska's community colleges:

- increased 24% at Central Community College
- increased 22% at Southeast Community College
- increased 21% at Northeast Community College
- increased 5% at Mid-Plains Community College
- increased 1% at Metropolitan Community College
- increased 1% at Western Nebraska Community College

For state and local appropriation per full-time equivalent student in 2013-14, when compared to their peers:

- Central Community College ranks 2nd out of 11
- Metropolitan Community College ranks 4th out of 11
- Mid-Plains Community College ranks 2nd out of 11
- Northeast Community College ranks 3rd out of 11
- Southeast Community College ranks 4th out of 11
- Western Nebraska Community College ranks 2nd out of 11

More detailed information can be found in the appendix beginning on page 48.

State Colleges

**State Appropriation per FTE Student at Nebraska’s State Colleges
2003-04 to 2013-14**

From 2003-04 to 2013-14, state appropriations per full-time equivalent student at Nebraska’s state colleges:

- increased 40% at Wayne State College
- increased 23% at Chadron State College
- increased 1% at Peru State College

From 2008-09 to 2013-14, state appropriations per full-time equivalent student at Nebraska’s state colleges:

- increased 6% at Peru State College
- increased 4% at Wayne State College
- **decreased** 5% at Chadron State College

For state appropriation per full-time equivalent student in 2013-14, when compared to their peers:

- Chadron State College ranks 3rd out of 10
- Peru State College ranks 4th out of 11
- Wayne State College ranks 3rd out of 10

More detailed information can be found in the appendix beginning on page 223.

University of Nebraska

**State Appropriation per FTE Student at the University of Nebraska Campuses
(excluding UNMC) 2003-04 to 2013-14**

From 2003-04 to 2013-14, state appropriations per full-time equivalent student at the University of Nebraska campuses:

- increased 19% at the Nebraska College of Technical Agriculture
- increased 14% at the University of Nebraska at Kearney
- increased 6% at the University of Nebraska at Omaha
- increased 2% at the University of Nebraska-Lincoln¹

From 2008-09 to 2013-14, state appropriations per full-time equivalent student at the University of Nebraska campuses:

- increased 17% at the Nebraska College of Technical Agriculture
- **decreased** 5% at the University of Nebraska at Kearney
- **decreased** 9% at the University of Nebraska-Lincoln
- **decreased** 9% at the University of Nebraska at Omaha

¹ Note: UNL has a far higher percentage of graduate students than the Kearney and Omaha campuses.

For state appropriation per full-time equivalent student in 2013-14, when compared to their peers:

- the University of Nebraska at Kearney ranks 3rd out of 10
- the University of Nebraska-Lincoln ranks 3rd out of 13
- the University of Nebraska at Omaha ranks 5th out of 10

More detailed information can be found in the appendix beginning on page 262.

One of the major statewide goals in Nebraska's *Comprehensive Plan* states that:

Nebraska will value higher education and support its investment in public higher education through fair and reliable funding policies that provide appropriate levels of support to enable institutions to excel and meet the educational needs of the State and its students (Coordinating Commission for Postsecondary Education, 2000).

The State of Nebraska has been strongly supportive of higher education. In direct financial terms, in FY14 Nebraska's appropriation of state tax dollars for higher education operating expenses was \$688,173,035. This represents a 4 percent increase over FY13. The nation averaged a 6 percent increase from FY13 to FY14.

Additionally, the \$688,173,035 represents a 6 percent increase over five years (FY09 to FY14) when stimulus funds are taken into account, which places Nebraska 6th in the nation for that period. Nationally, states decreased their appropriations by an average of 4 percent during that same period. When stimulus funds are not taken into account, the nation saw a total 1 percent decrease in funding for higher education; Nebraska ranked 7th in the nation (note: Nebraska did not apply any of its federal stimulus funds directly to postsecondary education) (Center for the Study of Education Policy, 2014).

Other ways to measure a state's investment in higher education include appropriations per \$1,000 in personal income, and appropriations per capita. For FY14, Nebraska's appropriation per \$1,000 of personal income was \$8.07, which is an increase over FY13's funding per \$1,000 of personal income from \$7.92. The \$8.07 ranked Nebraska 9th in the nation and was significantly higher than the national average of \$5.45. (Center for the Study of Education Policy, 2014)

Additionally, for FY14, Nebraska's appropriation per capita was \$368.30, an increase over FY13's amount of \$355.50. The FY14 amount was significantly higher than the national average of \$241.66 and ranked Nebraska 7th in the nation. (Center for the Study of Education Policy, 2014).

FINANCIAL AID FOR HIGHER EDUCATION

“Financial aid is the poor stepchild of the budget process. It’s all about guilt when it ought to be an integral part of the funding.”

David A. Longanecker, Executive Director, Western Interstate Commission for Higher Education

“Dreams Detoured,” Lumina Foundation Focus, Fall 2005

The federal government provides the majority of financial aid for students in postsecondary education. Overall, that funding totaled \$170 billion in 2012-13 (The College Board, 2013). The U.S. Department of Education (ED) publishes a comprehensive source of information about federal student aid programs. The information can be found at <https://studentaid.ed.gov/>.

Funds from the following financial aid programs are potentially available to Nebraska postsecondary students¹:

- Federal Pell Grant:** Federal Pell Grants are awarded to undergraduates who have not earned a bachelor’s degree and who demonstrate high financial need. Pell Grants do not have to be repaid. The award range for Pell Grants for the award year 2013-14 academic year was \$568 to \$5,645.

Federal Pell Grants awarded to Students at Nebraska's Community Colleges 2003-04 to 2013-14

¹ 2013-14 estimated financial aid obtained from Supplemental Budget Forms submitted to CCPE, October 2013.

Federal Pell Grants awarded to Students at Nebraska's State Colleges 2003-04 to 2013-14

Federal Pell Grants awarded to Students at University of Nebraska campuses 2003-04 to 2013-14

- Federal Supplemental Educational Opportunity Grant (FSEOG):**
 Undergraduate students who have exceptional need and who have not received a bachelor’s degree are eligible to receive the FSEOG. FSEOG awards can range from \$100 to \$4,000 and do not have to be repaid, but awards are subject to the availability of funds at a student’s institution.

Federal Supplemental Opportunity Grants awarded to Students at Nebraska’s Community Colleges 2003-04 to 2013-14

Federal Supplemental Opportunity Grants awarded to Students at Nebraska's State Colleges 2003-04 to 2013-14

Federal Supplemental Opportunity Grants awarded to Students at University of Nebraska campuses 2003-04 to 2013-14

- Teacher Education Assistance for College and Higher Education Grants (TEACH):** The TEACH grant program was established by the federal government under the College Cost Reduction and Access Act (CCRAA) in 2007 to benefit current and prospective teachers. Students may be awarded up to \$4,000 per academic year. Undergraduate and post-baccalaureate students may receive up to a total of \$16,000, while graduate students may receive up to \$8,000. Eligible students must be currently completing or planning to complete coursework necessary to begin a career in teaching. There are, however, graduate degree alternatives for teachers or retirees with experience in a teacher shortage area. To be considered for a grant, a student must have a score above the 75th percentile on an admissions test, such as SAT, ACE or GRE, or at least a 3.25 GPA. Students must sign an understanding of terms document to certify they understand the terms of the grant and the teaching service requirements. The student must teach full time for at least four years within eight years of completing the program at a Title I school as a highly qualified teacher and/or in a specified subject area (mathematics, science, foreign language, bilingual education, special education, reading or another “high need” field as designated by the state). If the service requirement is not met, the grant must be repaid as an unsubsidized direct Stafford Loan with interest from the date(s) of original disbursement.

Federal TEACH Grants awarded to Students at Nebraska’s State Colleges 2008-09 to 2013-14

**Federal TEACH Grants awarded to Students at
University of Nebraska campuses (excluding UNMC and NCTA)
2008-09 to 2013-14**

- Nebraska Opportunity Grant (NOG)¹:** State grants are awarded to Nebraska-resident students attending eligible Nebraska postsecondary institutions who demonstrate financial need. Funding for the grant through the 2010-11 academic year came from both the federal government through its Leveraging Educational Assistance Partnership (LEAP) and Special Leveraging Educational Assistance Partnership (SLEAP) program authorizations and from the state through the Nebraska Lottery and the state’s general fund. Effective with the 2011-12 academic year the grant is funded only through the Nebraska Lottery and the state’s general fund.

Nebraska Opportunity Grants awarded to Students at Nebraska’s Community Colleges 2003-04 to 2013-14

¹ The Nebraska Opportunity Grant, previously named the Nebraska State Grant, was first awarded to students during the 2003-04 academic year. Grant funds were awarded prior to 2003-04 under three different grant programs. The following graphs represent funding only awarded to students attending public institutions. NOG funds were also awarded to students attending private nonprofit and private for-profit institutions. See page 87 for additional information.

Nebraska Opportunity Grants awarded to Students at Nebraska's State Colleges 2003-04 to 2013-14

Nebraska Opportunity Grants awarded to Students at University of Nebraska campuses 2003-04 to 2013-14

- Federal Workstudy (FWS):** The FWS provides on- and off-campus jobs for graduate and undergraduate students who demonstrate financial need. Work-study amounts awarded vary from institution to institution.

**Federal Workstudy awarded to Students at
Nebraska's Community Colleges 2003-04 to 2013-14**

**Federal Workstudy awarded to Students at
Nebraska's State Colleges 2003-04 to 2013-14**

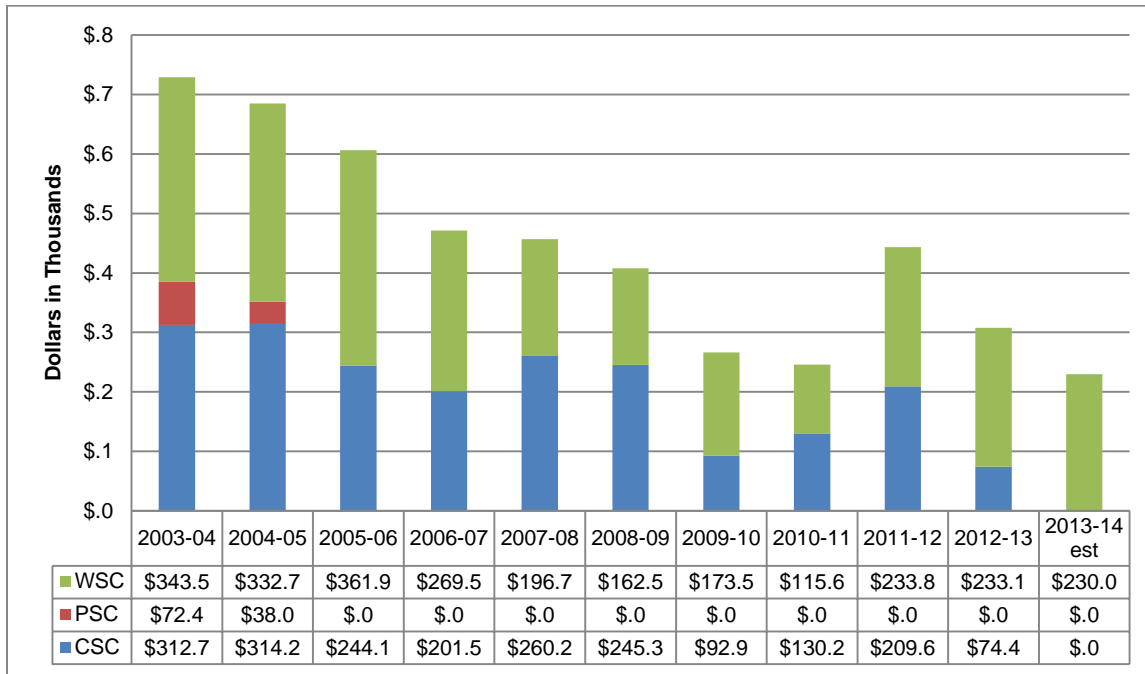

Federal Workstudy awarded to Students at University of Nebraska campuses 2003-04 to 2013-14

- Federal Perkins Loan:** Perkins Loans are fixed, low-interest (5 percent) loans available to graduate and undergraduate students with financial need. Undergraduate students may borrow up to \$4,000 per year, and graduate students may borrow up to \$6,000 per year, depending on the availability of funds at their institution¹.

Federal Perkins Loans awarded to Students at Nebraska’s State Colleges 2003-04 to 2013-14

¹ Currently, none of Nebraska’s community colleges participate in the Perkins Loan program.

Federal Perkins Loans awarded to Students at University of Nebraska campuses 2003-04 to 2013-14

- **Federal Subsidized (Sub) and Unsubsidized (Unsub) Stafford Loans:**
Stafford Loans are available to undergraduate and graduate students. Students must demonstrate financial need in order to qualify for a Subsidized Stafford Loan, for which the federal government pays the interest while the student is in school. Unsubsidized Stafford Loans are available to all students, but borrowers are responsible for the interest while in school. Loan limits for Stafford Loans range from \$3,500 to \$20,500, depending on grade level and dependency status.

Federal Subsidized Loans awarded to Students at Nebraska's Community Colleges 2003-04 to 2013-14

Federal Unsubsidized Loans awarded to Students at Nebraska's Community Colleges 2003-04 to 2013-14

Federal Subsidized Loans awarded to Students at Nebraska's State Colleges 2003-04 to 2013-14¹

Federal Unsubsidized Loans awarded to Students at Nebraska's State Colleges 2003-04 to 2013-14

¹ Effective with the 2012-13 academic year graduate students were no longer eligible to receive subsidized loans, which led to a decrease in subsidized borrowing and increase in unsubsidized borrowing.

Federal Subsidized Loans awarded to Students at University of Nebraska campuses 2003-04 to 2013-14¹

Federal Unsubsidized Loans awarded to Students at University of Nebraska campuses 2003-04 to 2013-14

¹ Effective with the 2012-13 academic year graduate students were no longer eligible to receive subsidized loans, which led to a decrease in subsidized borrowing and increase in unsubsidized borrowing.

- Federal Grad PLUS Loans¹:** A graduate or professional degree student is eligible to borrow under the Grad PLUS program for up to his or her cost of attendance minus other estimated financial assistance. Applicants must apply for their annual loan maximum eligibility under the Federal Subsidized and Unsubsidized Stafford Loan Program before applying for a Grad PLUS loan.

Federal Grad PLUS Loans awarded to Students at University of Nebraska campuses 2006-07 to 2013-14

¹ Because GRAD Plus Loans are only available to graduate and professional students, community college students are not eligible for this loan. Graduate students at the State Colleges have not needed to utilize this program as their costs can be covered by the Subsidized and Unsubsidized Stafford loans.

- Federal PLUS Loans:** PLUS loans are available to the parents of dependent undergraduate students. These loans are not need-based. Parents may borrow up to the student’s cost of attendance, less any other financial aid received.

Federal PLUS Loans awarded to Parents of Students at Nebraska’s Community Colleges 2003-04 to 2013-14

Federal PLUS Loans awarded to Parents of Students at Nebraska’s State Colleges 2003-04 to 2013-14

Federal PLUS Loans awarded to Parents of Students at University of Nebraska campuses 2003-04 to 2013-14

As the above indicates, the current system of federal financial aid is complex and daunting for student and parents. In addition, certain “terms of art”—not always clear—are used.

As discussed earlier in this report, tuition and mandatory fees and the student payment share have increased considerably over the past 10 years. Therefore, having financial aid available to assist with college expenses is a necessity for many students. While the State has been generous in its financial support of the Nebraska Opportunity Grant program (see p. 88), other types of financial assistance have not received funding increases, and some have actually received decreased funding, such as the Perkins Loan program. Consequently, students have relied primarily upon student loans, both federal and private, to fund their education.

Discounts, Allowances and Waivers

Many institutions routinely waive or discount a portion or all of an individual student's tuition and/or fee charges as a form of financial assistance. Waivers are awarded for a number of different reasons, such as working as a campus ambassador, demonstrating financial need, being a nonresident student, serving as a graduate assistant, or declaring a certain major. Waivers are funded by the institutions and are used often as part of the recruitment and retention policies of the campus.

The following charts show the amounts and trends of **discounts, allowances and waivers** awarded at Nebraska's public institutions.

Community Colleges

Annual Value of Discounts, Allowances and Waivers applied to Tuition and Fees at Nebraska's Community Colleges 2003-04 through 2013-14

From 2003-04 to 2013-14, discounts, allowances and waivers awarded at Nebraska's community colleges:

- increased 43% at Mid-Plains Community College
- increased 30% at Metropolitan Community College
- **decreased** 38% at Western Nebraska Community College
- **decreased** 67% at Southeast Community College
- **decreased** 69% at Northeast Community College
- **decreased** 71% at Central Community College

Percentage of Income Waived at Nebraska's Community Colleges through Discounts, Allowances and Waivers 2003-04 through 2013-14

State Colleges

Annual Value of Discounts, Allowances and Waivers applied to Tuition and Fees at Nebraska's State Colleges 2003-04 through 2013-14

From 2003-04 to 2013-14, discounts, allowances and waivers awarded at Nebraska's state colleges decreased:

- 4% at Chadron State College
- 17% at Wayne State College
- 20% at Peru State College

Percentage of Income Waived at Nebraska's State Colleges through Discounts, Allowances and Waivers 2003-04 through 2013-14

University of Nebraska

Annual Value of Discounts, Allowances and Waivers applied to Tuition and Fees at University of Nebraska Campuses 2003-04 through 2013-14

From 2003-04 to 2013-14, discounts, allowances and waivers awarded at the University of Nebraska campuses increased:

- 261% at the University of Nebraska Medical Center
- 129% at the University of Nebraska-Lincoln
- 69% at the Nebraska College of Technical Agriculture
- 66% at the University of Nebraska at Omaha
- 58% at the University of Nebraska at Kearney

Percentage of Income Waived at University of Nebraska Campuses through Discounts, Allowances and Waivers 2003-04 through 2013-14

State Grant Trends

The Nebraska Opportunity Grant (NOG)¹ is administered by the Coordinating Commission and awarded to students in consultation with financial aid administrators at Nebraska's public postsecondary institutions. Prior to the 2010-11 academic year, the NOG could only be awarded to students who are residents of Nebraska, who are attending an eligible Nebraska college or university, and to low-income students whom the Commission defined as those who were eligible for the Federal Pell Grant. Effective with the 2010-11 academic year, a low-income student is defined as one with an Expected Family Contribution equal to or less than the amount stipulated in statute as a result of completing the Free Application for Federal Student Aid (FAFSA). While the state has significantly increased funding over the past few years, additional funds are needed. In 2012-13, Nebraska ranked 33rd among the states in estimated need-based, state-provided student aid grant dollars per full-time undergraduate enrollment (National Association of State Student Grant and Aid Programs, 2013). This is an increase from 35th in 2011-12. .

The following charts show the make-up of the program funding followed by a chart that shows the allocations by sector.

¹ Prior to the 2010-11 academic year, Nebraska's state grant program was called the Nebraska State Grant authorized under the Nebraska Scholarship Act (2003).

State Grant Funding

**Sources and Available Funding for Nebraska Opportunity Grant Program
2003-04 through 2013-14**

Sector

**Opportunity Grant Allocations for Students by Postsecondary Sector
2003-04 through 2013-14**

From 2003-04 to 2013-14, allocations of the Nebraska Opportunity Grant increased:

- 167% within the community college sector
- 126% within the University of Nebraska sector
- 83% within the State College sector
- 67% within the private for-profit sector
- 23% within the independent college and university sector
- increased 128% within the public sector
- increased 36% within the private sector

From 2008-09 to 2013-14, allocations of the Nebraska Opportunity Grant:

- increased 56% within the community college sector
- increased 42% within the University of Nebraska sector
- increased 21% within the independent college and university sector
- increased 17% within the State College sector
- **decreased** 9% within the private for profit sector
- increased 43% within the public sector
- increased 7% within the private sector

Student Loan Trends

The most prominent trend in student financial aid has been the growing reliance on student and family borrowing for higher education. Since the early 1980s, federal financial aid programs have encouraged this trend by transforming a system based mainly on need-based grants to one dominated by loans.

Student loan borrowing continues to increase at a high rate. Nationwide, from 2002-03 to 2012-13, federal loan borrowing (Perkins, subsidized, unsubsidized, GRAD PLUS and PLUS) increased 86 percent, with the bulk of this increase occurring in the PLUS program, which increased 179 percent. In 2002-03, 76 percent of undergraduate students did not borrow a federal loan. This percentage decreased to 66 percent by 2012-13. Additionally, only 10 percent of undergraduate students who did borrow took both a subsidized and unsubsidized loan in 2002-03. This increased to 25 percent by 2012-13 (The College Board, 2013).

If there is any good news it is that private loan borrowing is decreasing. In 2002-03 \$10.5 billion was borrowed in private loan programs. This amount decreased to \$8.8 billion in 2012-13, a 16 percent decrease. While specific reasons for the decrease cannot be determined, a common theme refers to the growth in the Graduate PLUS program (see page 72) (The College Board, 2013).

According to the Project on Student Debt, students who graduated in 2013 from a Nebraska public or private 4-year institution had an average student loan debt of \$26,473. This compared to the national average of \$29,400 and ranked Nebraska 23rd in the nation (Project on Student Debt, 2014)

According to the Consumer Financial Protection Bureau, total student loan debt outstanding from federal and private loans exceeded the \$1 trillion mark in late 2011, an amount that exceeds credit cards debt and auto loans (Chopra, 2012). That amount has since risen to \$1.2 trillion (Thompson, 2014).

Borrowing at Nebraska's public postsecondary institutions can be found on pages 64-72.

Unmet Financial Need

The Coordinating Commission requests information from all of Nebraska’s postsecondary education institutions that participate in the Nebraska Opportunity Grant regarding the amount of “unmet need” for Pell Grant students who were Nebraska residents.

Unmet financial need, as defined by the Commission, is the cost of a student’s tuition and mandatory fees, plus room and board, plus books and supplies, minus all financial aid received excluding work study or PLUS. If a student has unmet financial need, then it is likely the student has not been awarded the financial resources needed to help pay his or her educational expenses. Therefore, the only option for a student may be to take out a private (alternative) student loan.

The following chart shows the total unmet need in Nebraska by sector for the past six years:

This data represents only the unmet need of the neediest Nebraska students – those receiving Pell Grants. As reported by many of the college financial aid directors, there is also a significant unmet need among students who do not qualify for Pell Grant assistance, but whose families do not have the extra financial resources to contribute to the cost of education. For that reason, the Commission recommended and the Legislature approved the changes that were implemented with the creation of the Nebraska Opportunity Act (see page 71).

CONCLUSIONS

In this *2014 Tuition, Fees and Financial Aid Report*, findings for each of the three interrelated areas of affordability, state investment and financial aid identify some areas of concern and suggest that incremental changes are needed. These concerns are especially important considering President Obama's pledge to make sure the U.S. by 2020 has the world's highest percentage of adults holding a postsecondary credential.

Affordability of Higher Education

Affording higher education has become more difficult for students and their families in Nebraska, a situation common throughout the country. Even though Nebraska families experienced little or no increase in the tuition and mandatory fees they were charged by public 4-year postsecondary institutions this past year, the full cost of higher education continues to increase. Therefore, families are contributing more of their incomes to the costs of educating one or more family members, and in many cases these costs are rising faster than incomes. Nevertheless, these increased costs are less dramatic at most Nebraska institutions than at their peers in other states.

- With the exception of Northeast Community College, all of Nebraska's public postsecondary institutions charge less than the 2013-14 average tuition and mandatory fees for a resident, undergraduate student charged *by their peers*.
- Compared to 2013-14 resident tuition and fees, the percent of 2013-14 non-resident tuition and mandatory fees is considerably less than the peers' average at all but one of Nebraska's public postsecondary institutions (the University of Nebraska at Omaha).
- All but one of Nebraska's public postsecondary institutions (Chadron State College) showed a decrease in the student payment shares from 2012-13 to 2013-14, and all were lower than their peers' average.

State Investment in Higher Education

While Nebraska increased its appropriation to public postsecondary institutions this past year, state investment in higher education will continue to be vulnerable to other state obligations in future years. Therefore, families will likely be contributing larger portions of their income to educate their students in Nebraska, and/or student debt loads will continue to increase.

Comparisons with Peers

- When comparing 2013-14 state appropriations at Nebraska's community colleges to those of their peers, Central Community College and Metropolitan Community College have a lower appropriation per full-time equivalent student when compared to the average of their peers. The other four community colleges have a high appropriation per full-time equivalent student when compared to the average of their peers.
- The amount of 2013-14 state appropriations per full-time equivalent student at all three state colleges is greater than the average of their peers.
- The amount of 2013-14 state appropriations per full-time equivalent student is higher at the University of Nebraska at Kearney and the University of Nebraska-Lincoln than their peer averages, while the University of Nebraska at Omaha's is just slightly less than the average of its peers.

Financial Aid for Higher Education

Financial aid for higher education has become increasingly important for students and families in Nebraska. While Nebraska has historically been supportive financially of the Nebraska Opportunity Grant, per-student state-provided support for needy students remains low when compared to the rest of the country. Without the state increasing its appropriation, it is highly unlikely that ranking will increase. Because of this fact, student loan borrowing will likely continue to increase in the near future.

Other Financial Aid

- Each of the six community colleges awarded less total 2013-14 Pell Grant dollars than the average of their respective peer institutions.
- When combining the total subsidized and unsubsidized loan borrowing in 2013-14, students at Northeast Community College, Southeast Community College, and Western Nebraska Community College borrowed more than the average of their respective peer institutions.

RECOMMENDATIONS

Based on the findings in this report, the Commission recommends the following courses of action in the interrelated areas of affordability, state investment and financial aid. By implementing these objectives, the state will come closer to achieving the goals set out in Nebraska's *Comprehensive Statewide Plan for Postsecondary Education*.

Affordability of Higher Education

- Institutions should exert all reasonable efforts to restrain tuition and fee increases, and other student expenses, while continuing to offer high-quality education, service and research.
- Students should attempt to complete their academic programs in an efficient manner moving toward graduation at a steady pace, thereby reducing those “out-of-pocket” expenses and, in many cases, higher student loan debt loads.

State Investment in Higher Education

- Having an educated population significantly enhances the economic and social well-being of a state. Therefore, **the Commission recommends that the Legislature maintain adequate levels of state appropriations for public postsecondary institutions in Nebraska.**

Financial Aid for Higher Education

- Since students from median-, low- and very low-income families would primarily benefit from financial assistance awarded from the state, **the Commission encourages increased funding for the Nebraska Opportunity Grant program.**
- To help students from median-, low- and very low-income families move through their postsecondary programs more promptly, **we encourage the State to increase funding, for the Access College Early Scholarship, which provides scholarships to needy high school students who take college courses.** Additionally, we encourage the State to provide funding for the ACE PLUS scholarship program to continue to support many students who received the Access College Early Scholarship and have chosen to continue their education by enrolling in college.

Tuition and Fees as a Percentage of Family Income¹

¹ Average, low, and very low-income values are based on United States Department of Housing and Urban Development annual median income estimates for a family of four. Low-income families are defined as families whose incomes do not exceed 80 percent of the median family income for the service area. Very low-income families are defined as families whose incomes do not exceed 50 percent of the median family income for the service area. Average per capita income is the total personal income for all counties in the institution's service area divided by the total population of the service area. Per capita income not available for the 2013-14 academic year.

Nebraska State Colleges and their Peers

State College Service Area

STATE COLLEGE SERVICE AREAS

Dodge and Washington are shared counties between WSC & PSC (shown by dotted line)

* State college geographic service areas are contiguous with community college geographic service areas.

** Electronically delivered distance learning courses to individual homes and worksites are not restricted by service areas.

Tuition and Fees Increases compared to CPI and the HEPI¹

Tuition and Fees as a Percentage of Family Income¹

¹ CPI & HEPI reflects the fiscal year preceding the academic year. CPI and HEPI approximate as of April 30, 2014

¹ Average, low, and very low-income values are based on United States Department of Housing and Urban Development annual median income estimates for a family of four. Low-income families are defined as families whose incomes do not exceed 80 percent of the median family income for the service area. Very low-income families are defined as families whose incomes do not exceed 50 percent of the median family income for the service area. Average per capita income is the total personal income for all counties in the institution's service area divided by the total population of the service area.

Tuition and Fees as a Percentage of Family Income¹ - cont

¹ Average, low, and very low-income values are based on United States Department of Housing and Urban Development annual median income estimates for a family of four. Low-income families are defined as families whose incomes do not exceed 80 percent of the median family income for the service area. Very low-income families are defined as families whose incomes do not exceed 50 percent of the median family income for the service area. Average per capita income is the total personal income for all counties in the institution's service area divided by the total population of the service area.

The University of Nebraska Campuses and their Peers

University of Nebraska Service Area

UNIVERSITY OF NEBRASKA SERVICE AREAS

The University of Nebraska - Lincoln's Geographic Service Area for undergraduate and selected masters degree programs includes all counties in the state except those shown as University of Nebraska at Kearney and the University of Nebraska at Omaha Service Areas.

Statewide Programmatic Responsibilities:

- University of Nebraska-Lincoln Agriculture, engineering and other fields where UNL offers unique programs
- University of Nebraska Medical Center Health Care Education
- University of Nebraska at Omaha Graduate-level programs in criminal justice, social work, gerontology and public administration
- Public service responsibility in urban-related programs

*** Electronically delivered distance learning courses to individual homes and worksites are not restricted by service areas

--- UNL and UNO share responsibility in Cass and Washington counties

Tuition and Fees Increases compared to CPI and the HEPI¹

¹ CPI & HEPI reflects the fiscal year preceding the academic year. CPI and HEPI approximate as of April 30, 2012

Tuition and Fees Increases compared to CPI and the HEPI¹ - cont

¹ CPI & HEPI reflects the fiscal year preceding the academic year. CPI and HEPI approximate as of April 30, 2012

Tuition and Fees as a Percentage of Family Income¹

¹ Average, low, and very low-income values are based on United States Department of Housing and Urban Development annual median income estimates for a family of four. Low-income families are defined as families whose incomes do not exceed 80 percent of the median family income for the service area. Very low-income families are defined as families whose incomes do not exceed 50 percent of the median family income for the service area. Average per capita income is the total personal income for all counties in the institution's service area divided by the total population of the service area.
