

December 20, 2013

Patrick O'Donnell, Clerk of the Legislature
State Capitol, Room 2018
P.O. Box 94604
Lincoln, NE 68509

Dear Mr. O'Donnell:

In accordance with the Legislative Bill 195 (2013) please find attached the quarterly report required from the Department of Health and Human Services on ACCESSNebraska for the time period July 1, 2013 through September 30, 2013.

Information explaining this quarter's report submission is provided at the beginning of the report.

Sincerely,

Thomas D. Pristow, MSW, ACSW
Director, Division of Children and Family Services
Department of Health and Human Services

Department of Health & Human Services

Division of Children and Family Services

State of Nebraska
Dave Heineman, Governor

Department of Health and Human Services Legislative Report LB 195

July – September 2013 Quarter

REPORT FOR: LEGISLATURE
REPORT DATE: DECEMBER 20, 2013
LEGISLATIVE BILL: LB 195
COMMITTEE NAME: HEALTH AND HUMAN SERVICES COMMITTEE
CONTACT PERSON: THOMAS PRISTOW, DIRECTOR
CHILDREN AND FAMILY SERVICES DIVISION

LB 195 Report

Report for period of July 1, 2013 through September 30, 2013

This is the first report for LB 195 regarding ACCESSNebraska. On July 1, 2013, about 40 percent of the staff were moved from the Division of Children and Family Services – Economic Assistance (EA) to the Division of Medicaid and Long Term Care (MLTC). However, staff in both divisions continued to do the work of MLTC and Economic Assistance. On September 30, 2013, the Divisions split the work and each Division only performed the work related to their respective Division. This report is a combined report of MLTC and EA. Beginning with the October 1, 2013 – December 30, 2013 report, each Division will submit their own information but in a combined report.

The information required per LB195 is duplicative of the information required by LB374. The LB374 report for the time period of July 1, 2013 through September 30, 2013 was submitted on October 24, 2013. This report will only reflect the new reporting information required from LB195. Future reports will combine LB374 and LB195.

Element One: Number of days in increments that it takes to process applications (approval or denial) for aid to dependent children, Supplemental Nutrition Assistance Program, Aid to the Aged, Blind and Disabled, and Child Care Subsidy Program, overall and broken down by county.

Information about all programs, with the exception of Child Care, was submitted with the LB374 report on October 24, 2013. Child Care is a new requirement and that information is attached.

Element Two: Number of days in increments that it takes to process applications for Medicaid and Children’s Health Insurance Program, separating the data for applicants not applying on the basis of disability from applicants applying on the basis of disability, overall and broken down by county.

The data for Medicaid, Children’s Health Insurance Program and Medicaid Aged and Disabled was submitted as part of the LB374 report.

Please note that there were no applications initially for Children’s Health Insurance Program. The CHIP programs are categories which utilize a Medicaid application. If an applicant is not able to be determined eligible under the initial Medicaid program, the CHIP programs serve as “end up in” categories for applicants who fail eligibility under the initial Medicaid eligibility determination for which they applied, as long as they meet the eligibility requirements of the CHIP program. Those whose eligibility is considered under CHIP are accounted for in the Medicaid applications numbers on the report.

Element Three: Reasons for benefit applications processing delays (department, client or third party) for all applications that are processed beyond federal and state timeliness in aid to dependent children, Supplemental Nutrition Assistance Program, Aid to the Aged, Blind and Disabled, Medicaid and Children’s Health Insurance Program statewide, and child care subsidy program, overall and

broken down by county. This shall include the number of cases for each respective reason (department, client, third party).

These data are not currently captured by NFOCUS. It is estimated that it will be automated in March 2014. MLTC and EA staff were asked to manually record these data. Given that this was the first time we required staff to record this information, the accuracy is unknown. When it becomes automated, the information will be a more correct reflection of what has occurred.

Element Four: The number of case closures in Medicaid, Children's Health Insurance Program, Aid to Dependent Children, Supplemental Nutrition Assistance Program, Aid to the Aged, Blind and Disabled, and Child Care subsidy program, and the reason for the closure statewide and overall and broken down by county.

This information was required for the LB374 report. However, information for Child Care was not previously required. Child Care data were included in the LB 374 report for the July 1, 2013 through September 30, 2013, quarter which was submitted on October 24, 2013.

Element Five: The number of case closures due to failure to recertify benefits, including failing to timely provide information, failing to perform a case review, or failing to appear for an appointment, overall and broken down by county.

This information is also included in the LB374 report which was submitted October 24, 2013.

Element Six: Total number of first-time applicants for benefits categorized by state and county and by month.

Please see the attached report with this information categorized by month, count, first-time applicants, applicants reapplying and county totals.

This information is combined with the data collected for element seven of this report.

Element Seven: The percentage of applications that are re-applications, categorized by state and county and by month.

Please see attached report with this information categorized by month, count, first-time applicants, applicants reapplying and county totals.

This information is combined with the data collected for element six of this report.

Element Eight: The percentage of individuals whose cases are closed who reapply for benefits within thirty days and sixty days after case closure, categorized by state and county, and by month.

Please see attached report provided by month and county.

Element Nine: Average wait-time for call center response. The average wait-time starting from the time when the call is transferred to the customer service center to the time when the worker answers the call.

This information is included with the LB 374 report which was submitted October 24, 2013.

Element Ten: The number of client call terminations (client hang ups) that occur prior to speaking with a staff member and the average length of time starting from the time when the call is transferred to the customer service center to the time when the caller terminates the call.

This information is included with the LB 374 report which was submitted October 24, 2013.

Element Eleven: Average number of minutes per delivery system transaction or task, based on type of transaction, including, but not limited to, application management (new, review, renewal), interviewing (high and low priority), application processing (processing initial, processing daily, processing ready), and change management.

Data regarding the number of minutes per delivery to process a task is not available. A report reflecting the number of days to complete a work task is attached.

Element Twelve: The number of hours and the number of days when call center responses are at a maximum and clients receive a busy signal when calling.

This report is provided by the Office of the Chief Information Officer (OCIO). The total number of lines for ACCESSNebraska (MLTC and CFS-EA) is 299 lines. OCIO advises that any occurrence in the report where 295 or more trunks are in use, callers are likely receiving a busy signal. This report is attached.

Element Thirteen: It is the intent of the Legislature that the department submit a report to the Clerk of the Legislature that includes the following monthly information on a quarterly basis for the workers in the ACCESSNebraska call centers and in local offices: The number of social service workers, eligibility technicians, and social service lead workers and the number of vacancies are in these positions at the beginning of each month; the number of these positions vacated within a month; and the number of these positions filled within a month.

Please see the attached report with the requested data for social service workers and social service lead workers. ACCESSNebraska does not have workers with the title of eligibility technician.

Note: If a county had no individuals closed for 07/01/2013, the county will not appear on the list. The county may have had individuals who applied for programs within 60 days of 07/01/2013, however they are not considered re-applications for benefits which were closed as of 07/01/2013.

The "Number of Persons Closed Effective..." column provides a reflective count of the individuals who were involved in each type of program case. The entries under "Total" are not a true reflection of the number of individuals closed due to an individual's possible participation in multiple programs.

Note: If a county had no individuals closed for 08/01/2013, the county will not appear on the list. The county may have had individuals who applied for programs within 60 days of 08/01/2013, however they are not considered re-applications for benefits which were closed as of 08/01/2013.

The "Number of Persons Closed Effective..." column provides a reflective count of the individuals who were involved in each type of program case. The entries under "Total" are not a true reflection of the number of individuals closed due to an individual's possible participation in multiple programs.

Note: If a county had no individuals closed for 06/01/2013, the county will not appear on the list. The county may have had individuals who applied for programs within 60 days of 06/01/2013, however they are not considered re-applications for benefits which were closed as of 06/01/2013.

The "Number of Persons Closed Effective..." column provides a reflective count of the individuals who were involved in each type of program case. The entries under "Total" are not a true reflection of the number of individuals closed due to an individual's possible participation in multiple programs.
