Note: If a county had no individuals closed for 03/01/2015, the county will not appear on the list. The county may have had individuals who applied for programs within 60 days of 03/01/2015, however they are not considered re-applications for benefits which were closed as of 03/01/2015.

The "Number of Persons Closed Effective..." column provides a reflective count of the individuals who were involved in each type of program case. The entries under "Total" are not a true reflection of the number of individuals closed due to an individual's possible participation in multiple programs.

Note: If a county had no individuals closed for 04/01/2015, the county will not appear on the list. The county may have had individuals who applied for programs within 60 days of 04/01/2015, however they are not considered re-applications for benefits which were closed as of 04/01/2015.

The "Number of Persons Closed Effective..." column provides a reflective count of the individuals who were involved in each type of program case. The entries under "Total" are not a true reflection of the number of individuals closed due to an individual's possible participation in multiple programs.

Note: If a county had no individuals closed for 04/01/2015, the county will not appear on the list. The county may have had individuals who applied for programs within 60 days of 04/01/2015, however they are not considered re-applications for benefits which were closed as of 04/01/2015.

The "Number of Persons Closed Effective..." column provides a reflective count of the individuals who were involved in each type of program case. The entries under "Total" are not a true reflection of the number of individuals closed due to an individual's possible participation in multiple programs.

Note: If a county had no individuals closed for 05/01/2015, the county will not appear on the list. The county may have had individuals who applied for programs within 60 days of 05/01/2015, however they are not considered re-applications for benefits which were closed as of 05/01/2015.

The "Number of Persons Closed Effective..." column provides a reflective count of the individuals who were involved in each type of program case. The entries under "Total" are not a true reflection of the number of individuals closed due to an individual's possible participation in multiple programs.
