

April 21, 2015

Mr. Patrick O'Donnell
Clerk of the Legislature
PO Box 94604
State Capitol Building
Lincoln, NE. 68509

Dear Mr. O'Donnell:

Enclosed for your information is a copy of the Notice required pursuant to Neb. Rev. Stat §58-270 (2) of our statutes.

At the request of the Nebraska Department of Environmental Quality ("NDEQ"), NIFA is proposing the issuance of State Revolving Fund Revenue Bonds for the Wastewater Treatment Facilities (Clean Water) State Revolving Fund Program (the "CWSRF") in an amount not to exceed \$2,000,000. As discussed in the notice, this amount has been determined based upon 1.) The amount of state match funds from prior CWSRF Bond series' (together with related federal capitalization grant funds) which have been committed or used to finance wastewater treatment facilities to-date, 2.) Communities identified and contacted by NDEQ which have expressed a need for funds to finance wastewater treatment facilities in the state and 3.) The anticipated state match amount needed to obtain federal capitalization grants for the fiscal year 2015.

If any questions, please call.

Please date stamp and sign one copy of the enclosed acknowledgment of receipt and return it to us as soon as possible.

Sincerely,

Judy A. Krasomil
Treasurer

Enclosure

**NOTICE REQUIRED PURSUANT TO
NEB. REV. STAT. § 58-270**

The Nebraska Investment Finance Authority (the "Authority") hereby gives notice in accordance with the Nebraska Investment Finance Authority Act, Neb. Rev. Stat. §§ 58-201 et seq., as amended (the "Act"), to the Honorable Pete Ricketts, Governor of the State of Nebraska (the "State"), and Patrick J. O'Donnell, Clerk of the Legislature, of the proposed issuance by the Authority of the following bonds:

\$1,435,000*

**Nebraska Investment Finance Authority
Clean Water State Revolving Fund Revenue Bonds
(consisting of one or more Series of Bonds
to be issued during the period described herein)**

The Authority anticipates that it will, pursuant to the Act, authorize the issuance and sale of one or more issuances of state revolving fund revenue bonds (the "Bonds") from time to time on or before December 31, 2015. The proceeds of the Bonds will be used:

(i) to provide moneys for the Nebraska Department of Environmental Quality ("NDEQ") to provide state match funds to satisfy the requirements of the Federal Clean Water Act, 33 U.S.C. §§ 1251 et seq., as amended by the Water Quality Act of 1987 and as further amended from time to time (collectively, the "Clean Water Act"), to deposit funds in the Wastewater Treatment Facilities Construction Loan Fund (the "CW Loan Fund") to enable NDEQ to make loans to municipalities and counties pursuant to the Nebraska Wastewater Treatment Facilities Construction Assistance Act, as amended, Neb. Rev. Stat. §§ 81-15,147 to 81-15,158 (the "Nebraska Clean Water SRF Act") for the acquisition, construction, improvement, repair, rehabilitation or extension of wastewater treatment works and nonpoint source control systems (each as defined in the Nebraska Clean Water SRF Act); and

(ii) subject to market conditions, if needed, to make certain deposits into the funds and accounts created under one or more trust indentures, including any deposits required to be made to a debt service reserve fund and to pay costs of issuance for the Bonds.

The Authority desires to cause to be provided, through the issuance of the Bonds, funds to NDEQ to satisfy the state match requirements for capitalization grants under the Clean Water Act for Nebraska's 2015 clean water state revolving fund program. Such state match funds, together with federal funds, will be used by NDEQ to make loans to Nebraska municipalities and counties to enable such municipalities and counties to pay those eligible portions of the costs of acquiring, constructing, improving, repairing, rehabilitating or extending municipal wastewater treatment works and nonpoint source control systems projects in accordance with the Nebraska Clean Water SRF Act. The federal capitalization grants received by NDEQ pursuant to the

*Current estimate; subject to change, but not expected to exceed \$2,000,000.

Clean Water Act and the state match funds provided by the issuance of the Bonds are generally used on a five-sixths/one-sixth basis, respectively, to fund loans to municipalities or counties.

I. Clean Water Program—The Public Purposes To Be Effectuated and the Needs To Be Addressed Through the Issuance of the Bonds.

The public purposes to be effectuated and the needs to be addressed by the Authority through the issuance of a portion of the Bonds are (i) to finance wastewater treatment works and nonpoint source control systems projects to protect and improve the state's water quality, the provision of which is essential to economic growth and development in the State of Nebraska, by providing a deposit into the CW Loan Fund in order to provide financing at favorable interest rates and (ii) to continue to provide NDEQ with the required matching funds which, together with available federal funds, will provide for an ongoing program of making such financing available within the marketplace in an orderly fashion. The amount of needed assistance which may be provided to Nebraska municipalities or counties for wastewater treatment purposes can be increased and needed projects can be undertaken more expeditiously through the issuance of revenue bonds and the deposit thereof into the CW Loan Fund.

The Legislature of the State has found and declared that:

(a) there is a need within the State for financing to assist municipalities in providing wastewater treatment facilities; the federal funding provided for wastewater treatment facilities is extremely limited and scheduled to be eliminated, while the need to provide and improve wastewater treatment facilities is great;

(b) the construction, development, rehabilitation and improvement of modern and efficient sewer systems and wastewater treatment facilities are essential to protecting and improving the State's water quality, the provision of adequate wastewater treatment facilities is essential to economic growth and development, and new sources of financing for such projects are needed;

(c) the construction, rehabilitation, operation and maintenance of nonpoint source control systems are essential to water quality protection and that such systems are financially burdensome to municipalities and counties;

(d) the federal government has acted to end the system of federal construction grants for clean water projects and has instead provided for capitalization grants to capitalize state revolving funds for wastewater treatment works and nonpoint source control systems, and the State has created the CW Loan Fund pursuant to the Nebraska Clean Water SRF Act; the State is required to provide matching funds for deposit into such fund, and there is a need for financing in excess of the amount which can be provided by the federal money; and

(e) additional assistance can be provided to municipalities to alleviate the problems of water pollution by providing for the issuance of revenue bonds, the proceeds of which shall be deposited into the CW Loan Fund.

II. The Manner in Which Such Need Was Identified.

The needs to be addressed as described in Section I above were identified by the Authority in the following manner:

(a) *Summary of Existing Clean Water Programs.* The Authority has previously issued several series of state revolving fund revenue bonds to finance the NDEQ's clean water programs for the years 1990 through 2014. Such series of bonds have been paid and are no longer outstanding, except for the 2014 Bonds as set forth in Appendix B attached to this notice.

NDEQ has advised the Authority that, as of March 31, 2015, NDEQ had entered into loan contracts with municipalities and counties for the 1990 through 2014 clean water programs for the amounts set forth in Exhibit A hereto.

(b) *State Intended Use Plans.* On June 19, 2014, the Environmental Quality Council approved the Nebraska State Revolving Fund Clean Water & Drinking Water Intended Use Plan, State Fiscal Year 2015 (the "2015 IUP"), which describes the 2015 clean water program, as well as the 2015 drinking water program. Copies of the 2015 IUP are available on NDEQ's web site and are on file at the offices of NDEQ and the offices of the Authority. Based on NDEQ's current estimates of the amount anticipated to be received from EPA capitalization grants and based on the Intended Use Plan, NDEQ has determined that estimated state match funds will be required as follows:

<u>CWSRF</u>		
<u>Federal Fiscal Year</u>	<u>Capitalization Grant</u>	<u>State Match Required</u>
2015	\$7,154,000	\$1,435,000

(c) *Clean Water Program Demand Anticipated by NDEQ.* Based upon the information contained in the 2015 IUP and various communications between NDEQ and certain Nebraska municipalities or counties, NDEQ has determined (and so informed the Authority) that the immediate need of state match funds in the amount of \$1,435,000 (includes rounding) will be required to finance the 2015 clean water state revolving fund program in Nebraska.

The municipalities or counties identified by NDEQ as anticipated borrowers under the 2015 clean water state revolving fund program and their respective expressed loan request estimates are set forth in Exhibit B attached hereto. Additional potential clean water state revolving fund program participants which have been identified by NDEQ are set forth in Exhibit C attached hereto.

Based upon information regarding the federal required amount for state match funds and the information regarding municipalities and counties identified and contacted by NDEQ which have expressed to NDEQ a need for funds in the amount of at least

\$89,161,500 in connection with the 2015 program, which information is set forth in Exhibit B hereof, the Authority and NDEQ have determined that a need exists for the issuance of a portion of the Bonds, in the approximate amount of \$1,435,000*, to provide state match funds to NDEQ for loans to municipalities or counties approved and designated by NDEQ pursuant to the Nebraska Clean Water SRF Act for the acquisition, construction, improvement, repair, rehabilitation or extension of wastewater treatment facilities, assuming no debt service reserve funds are required and that certain administrative costs are paid from other sources.

(d) **Board Approval.** At its meeting held on April 17, 2015, the Board of the Authority approved, in substantially the form submitted, this Notice.

III. The Anticipated Principal Amount of the Bond Issue and the Anticipated Date of Issuance of the Bonds.

The Authority anticipates issuing the Bonds in the aggregate principal amount of \$1,435,000*. It is expected that an amount approximately equal to the final principal amount of the Bonds issued (less any costs and expenses, original issue discount and reserve funds, although costs and expenses are currently expected to be paid with other funds and, subject to market conditions, no original issue discount or reserve funds are currently expected) will be made available to NDEQ to enable NDEQ to loan to municipalities or counties pursuant to the Nebraska Clean Water SRF Act for the acquisition, construction, improvement, repair, rehabilitation or extension of wastewater treatment works and nonpoint source control system projects.

The Authority anticipates execution, subsequent to final board action at its June 19, 2015 meeting or later, of an agreement with the underwriters or placement agents identified below for the sale of the Bonds. Issuance and delivery of the Bonds is anticipated to occur during 2015.

IV. Anticipated Size of Reserve Funds.

Subject to market conditions, NDEQ and the Authority plan to structure the sale of such Bonds without a reserve fund, but at this time, there is no assurance that this will be accomplished. If required in order to sell the bonds or to obtain satisfactory ratings on the Bonds (although ratings are not currently anticipated), the Bonds may be secured by reserve funds not in excess of 10% of the principal amount of the Bonds

VI. The Professionals Involved in Connection With the Issuance of the Bonds.

The following professionals have been selected or approved by the Authority to participate in the issuance, sale and delivery of the Bonds:

Placement Agent:	Ameritas Investment Corp. Lincoln, Nebraska
------------------	--

*Current estimate.

Bond Counsel and General
Counsel to the Authority:

Kutak Rock LLP
Omaha, Nebraska

Trustee for the Bonds:

Wells Fargo Bank, National Association
Chicago, Illinois

Guaranteed Investment
Contract Provider:

None expected at this time.

The Authority may, from time to time, select other professionals to participate in the issuance, sale and delivery of the Bonds to the extent it deems such selection advisable and in the best interests of the Authority.

The filing of the foregoing Notice with the Governor and the Clerk of the Legislature, in accordance with the Act, was approved by the Authority on April 17, 2015.

A copy of this Notice has also been provided to those representatives of the news media requesting notification of the proposed issuance of bonds, which representatives are listed on Appendix A hereto.

APPENDIX B

SUMMARY OF OUTSTANDING CLEAN WATER BOND FINANCINGS

The Authority has previously issued bonds for NDEQ's clean water state revolving fund programs for the years 1990 through 2014. Except for the Series 2014B bonds described below, the bonds issued for such clean water state revolving fund programs have been paid and are no longer outstanding. On August 13, 2014, the Authority made available funds to NDEQ to provide state match funds for the 2014 program for the financing of wastewater treatment works and nonpoint source control systems projects by the issuance of the Authority's Clean Water State Revolving Fund Bonds, Series 2014B in the aggregate amount of \$1,430,000 (the "Series 2014B Bonds"), which remain outstanding and are scheduled to be paid on June 15, 2015.

All the funds intended to be loaned in connection with the 1990 through 2014 programs have been initially disbursed for, or allocated to, loans from NDEQ to finance wastewater treatment works and nonpoint source control systems projects. Loan repayments are available to be recycled into new loans.

EXHIBIT A

CLEAN WATER PROGRAM—LOANS MADE

As of March 31, 2015, as part of the 1990-2014 Clean Water State Revolving Fund programs, NDEQ had entered into loan contracts with approximately 267 municipalities or counties committing to disburse funds in the amount of \$498,135,769. Disbursements consist of proceeds from federal capitalization grants, including grant funds pursuant to the American Recovery and Reinvestment Act of 2009, together with state match funds provided either by state appropriations or proceeds made available by Series 1991 Bonds, Series 1993 Bonds, Series 1994 Bonds, Series 1996 Bonds, Series 1998 Bonds, Series 2000B Bonds, Series 2001B Bonds, Series 2002B Bonds, Series 2002C Bonds, Series 2004B Bonds, Series 2005B Bonds, Series 2006B Bonds, Series 2007B Bonds, Series 2008B Bonds, Series 2009 Bonds, Series 2010B Bonds, Series 2011 Bonds, Series 2012 Bonds, Series 2013B Bonds or Series 2014B Bonds. Some loans have been disbursed and repaid. Loans in the amount of \$172,889,213 were outstanding as of March 31, 2015.

EXHIBIT B

CLEAN WATER PROGRAM—ANTICIPATED LOANS

2015 program

As of March 31, 2015, the following municipalities or counties have been identified by NDEQ as having a need for loans pursuant to the 2015 clean water state revolving fund program:

Borrower	Approximate Loan Amount*
Allen	\$1,900,000
Brady	550,000
Chappell	5,000,000
Gilead	62,500
Grand Island	40,000,000
Gretna	2,864,000
Harington	700,000
Humphrey	3,271,000
Kearney	4,600,000
Lincoln	7,000,000
McCook	264,000
Omaha	15,000,000
Sidney-South Platte NRD	2,500,000
Sprague	250,000
Sutherland	1,100,000
Tilden	4,100,000
Total	\$89,161,500

*One-sixth of loan amount on select projects to be financed with proceeds of the Bonds.

EXHIBIT C

CLEAN WATER PROGRAM—POTENTIAL FUTURE LOANS

Attached is Appendix B1—Clean Water State Revolving Fund Need Survey List from the Nebraska State Revolving Fund State Fiscal Year 2015 Intended Use Plan dated June 19, 2014. The potential projects listed in this Exhibit are considered by NDEQ to be potential future program participants over a period of years after completion of the 2015 program.
