LB 328 would amend the provisions of the Private Onsite Wastewater Treatment System Contractors Certification and Systems Registration Act to expand activities eligible for funding under the act. The Department of Environmental Quality (DEQ) notes that cash fund expenditures could increase as a result of provisions in LB 328 that would allow investigation, inspection and enforcement actions to be paid from the cash fund. There is no basis to disagree with the agency statement that costs would depend upon specific circumstances, and cannot be estimated at this time.
