LB 45 repeals provisions dealing with the registration and licensing of nonresident film vehicles. Current law provides that nonresident film vehicles may be registered in the state for six months and registrations may be renewed for a three month period. The initial registration fee is \$50 or \$150, depending upon the weight of the vehicle. The three-month renewal fee is \$25. Registration fees are deposited in the Highway Trust Fund. The Department of Motor Vehicles (DMV) also issues distinctive license plates for film vehicles upon the payment of license plate fees.

DMV indicates that no film vehicles from out of state have been registered in Nebraska since CY2012. In that year, forty-one vehicles were registered which totaled \$4,450 in fees for the Highway Trust Fund. No film vehicles were registered from CY2002-CY2011. In CY2001, DMV indicates that sixteen nonresident film vehicles were registered in the state.

Expenditures: The repeal will have no fiscal impact in terms of expenditures for the DMV.

Revenues: The repeal of special provisions for nonresident film vehicles will have a limited fiscal impact on registration fees collected on an annual basis since the registering of these vehicles has been sporadic depending upon films produced in the state. In general, if the provisions are repealed and vehicles of nonresidents are used in films or productions for more than thirty days, then the nonresidents will have to register their vehicles and pay the same amount as residents, which will be higher than the current registration fees for nonresident film vehicles. Any fiscal impact in terms of an increase in revenue is projected to be minimal for the Highway Trust Fund on an annual basis.

Explanation of Estimate:

Under current statute, film vehicles are required to register under the Motor Vehicle Registration Act, pay a required fee, and obtain a license plate. This registration is valid for six months, but can be renewed for 3 additional months. Film Vehicles are defined as any motor vehicle or trailer used exclusively by a nonresident production company temporarily on location in Nebraska producing a feature film, television commercial, documentary, or industrial or educational videotape production. The Department of Economic Development has the authority to approve a film vehicle's application for registration.

LB 45 eliminates provisions in statute that provide for registration of film vehicles and issuance of license plates for film vehicles. This will result in such vehicles being treated as other nonresident vehicles, as applicable under the Motor Vehicle Registration Act.

According to DMV records, between 2001 and 2013, 57 film vehicle plates have been issued, or approximately 4 per year. However, these plates were issued in only 2 of the 13 years. It is unclear what revenue impact eliminating the provision would have. Out-of-State vehicles could remain unlicensed in Nebraska for short stays; otherwise they would receive regular licenses. Cost savings to the Department of Economic Development for approving applications would be minimal.

TOTAL FUNDS	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>

Explanation of Estimate:

Expenditures

LB 45 repeals statutes associated with film vehicle registration. There would be no fiscal impact to expenditures to implement LB45.

Revenues

The last year any film vehicles were registered in Nebraska was 2012 when 41 vehicles were registered totaling \$4,450 in fees. No film vehicles were registered from 2002-2011. 16 film vehicles were registered in 2001. All fees are deposited to the Highway Trust Fund. Based upon past history there would be minimal fiscal impact to the Highway Trust Fund. Due to the infrequency of registrations the amount of impact is not possible to determine.
