

One Hundred Fourth Legislature - First Session - 2015

Introducer's Statement of Intent

LB463

Chairperson: Senator Les Seiler

Committee: Judiciary

Date of Hearing: March 18, 2015

The following constitutes the reasons for this bill and the purposes which are sought to be accomplished thereby:

The purpose of Legislative Bill 463 is to adopt the Technology Information Management Act. The Act would ensure a legally appointed fiduciary who manages the estate of a deceased person or the property of a living person can also manage the person's digital assets, subject to the terms-of-service agreement, fiduciary duties, and other applicable law. The act also provides that a provision in a terms-of-service agreement that bars fiduciary access is void as against the strong public policy of Nebraska unless the account holder agreed to the provision by an affirmative act separate from the agreement to the general terms-of-service.
