DEPT. OF HEALTH AND HUMAN SERVICES

Pete Ricketts, Governor

September 27, 2018

Patrick J. O'Donnell  
Clerk of the Legislature  
Room 2018, State Capitol  
P.O. Box 94604  
Lincoln, NE 68509-4604

RE: 2018 Status Report on Nebraska Mental Health First Aid Training

Dear Mr O'Donnell,

Attached is the Fiscal Year 2018 Status Report on the Nebraska Mental Health First Aid Training Program as codified in Statute 71-3005. Authored by the Division of Behavioral Health of the Department of Health and Human Services, this report is intended to provide evaluation on the efficiency of the mental health first aid training program including trainee feedback, trainee demographics and the outcomes of established criteria. Beyond the five distinct audiences specified in statute, additional review of "Other" agency trainee types is underway for future improvement in data collection and reporting.

The report was created in coordination with the Regional Behavioral Health Authorities and is submitted on behalf of the State and each of the Regional Behavioral Health Authorities. Currently, there are 55 trainers across the six behavioral health regions. The Division of Public Health continues to be an active partner in mental health first aid and has also organized trainings throughout the state.

If you have any questions on this report, please do not hesitate to contact me.

Sincerely,

A handwritten signature in black ink that reads "Sheri Dawson".

Sheri Dawson, RN, BS  
Director, Community-Based Services  
Division of Behavioral Health  
Department of Health and Human Services

enc: Fiscal Year 2018 Status Report on Statute 71-3005.

Statute 71-3005  
Nebraska Mental Health First Aid Training Program  
LB 901 (2014) NRS: 71-3005

**Status Report for Fiscal Year 2018**

Department of Health and Human Services  
Division of Behavioral Health  
In Coordination with Regional Behavioral Health Authorities

## **Description of Nebraska Mental Health First Aid Training Program**

### **71-3004. Mental health first aid training program; Division of Behavioral Health of Department of Health and Human Services; duties.**

(1) The Division of Behavioral Health of the Department of Health and Human Services shall establish a mental health first aid training program, using contracts through the behavioral health regions, to help the public identify and understand the signs of a mental illness or substance abuse problem or a mental health crisis and to provide the public with skills to help a person who is developing or experiencing a mental health or substance abuse problem or a mental health crisis and to de-escalate crisis situations if needed. The training program shall provide an interactive mental health first aid training course administered by the state's regional behavioral health authorities. Instructors in the training program shall be certified by a national authority for Mental Health First Aid USA or a similar organization. The training program shall work cooperatively with local entities to provide training for individuals to become instructors.

(2) The mental health first aid training program shall be designed to train individuals to accomplish the following objectives as deemed appropriate considering the trainee's age:

(a) Help the public identify, understand, and respond to the signs of mental illness and substance abuse;

(b) Emphasize the need to reduce the stigma of mental illness; and

(c) Assist a person who is believed to be developing or has developed a mental health or substance abuse problem or who is believed to be experiencing a mental health crisis.

**Source:** Laws 2014, LB901, § 5.

### **71-3005. Efficacy of mental health first aid training program; behavioral health regions; report.**

The Division of Behavioral Health of the Department of Health and Human Services shall ensure that evaluative criteria are established which measure the efficacy of the mental health first aid training program, including trainee feedback, with the objective of helping the public identify, understand, and respond to the signs of mental illness and alcohol and substance abuse. The behavioral health regions shall submit an aggregated annual report electronically to the Legislature on trainee demographics and outcomes of the established criteria.

### **71-3006. Behavioral health regions; duties.**

The behavioral health regions shall offer services to and work with agencies and organizations, including, but not limited to, schools, universities, colleges, the State Department of Education, the Department of Veterans' Affairs, law enforcement agencies, and local health departments, to develop a program that offers grants to implement the Nebraska Mental Health First Aid Training Act in ways that are representative and inclusive with respect to the economic and cultural diversity of this state.
