**Any Fiscal Notes received from state agencies and political subdivisions are attached following the Legislative Fiscal Analyst Estimate.**

This bill would require facilities that perform mammography to inform patients of their breast tissue classification on the Breast Imaging Reporting and Data System. If the patient has heterogeneously dense or extremely dense breast tissue additional notification is required to be provided. If the notification language is changed, the facility must report the change to the Department of Health and Human Services.

The requirement that language changes be reported to the department can be handled within existing resources.
