LB 901 as amended requires the Nebraska National Guard to provide to the Division of Aeronautics a description of the boundaries of any terrain flight training area in existence as of the effective date of this act, which description is to be used by the Division in its management of airspace within the state. If a proposed structure is inside of or within one thousand meters of the boundaries of a terrain flight training area the construction permit application submitted to the Division of Aeronautics is to be accompanied with a written mitigation agreement between the applicant, the United States Department of Defense Siting Clearinghouse, and the Nebraska National Guard.

No fiscal impact.
