LB 97, as amended by AM659, creates the Riverfront Development District Act.

This Act would allow a city of the metropolitan, primary, first, or second class to create a riverfront development district by ordinance. The district must be entirely within the city boundaries and may not extend more than one-half mile from the edge of the river.

For purposes of LB 97, "river" is defined as the Missouri River, Platte River, North Platte River, South Platte River, Republican River, Niobrara River, Loup River, Elkhorn River, North Loup River, Middle Loup River, South Loup River, North Fork of the Elkhorn River, or Big Blue River.

The mayor of a city creating a riverfront development district is to appoint, with the approval of the city council, an authority consisting of five or more members to manage the district.

The authority has a number of powers including the ability to enter into contracts; invest the money of the authority; enter into intermodal agreements; create and implement development and redevelopment plans within the district's boundaries; acquire, construct and operate public off-street parking; improve public places or facilities within the district's boundaries; construct pedestrian shopping malls, plazas, sidewalks, parks, meeting facilities, bus shelters, lighting, benches, etc.; enforce parking regulations and security; employ agents and employees; fix and collect rents and charges; issue bonds by resolutions; and a number of other powers.

In addition, the authority's real property, and income and operations are exempt from all taxation by the state or any political subdivision of the state except that the authority's purchases are subject to state and local sales taxes.

The city may levy a general business occupation tax upon the businesses and users of space with a riverfront development district or the city may levy a special assessment against the real estate within a riverfront development district.

A riverfront development district may be dissolved 60 days after passage of an ordinance of dissolution and any remaining assets would become the assets of the city.

The Department of Revenue estimates a minimal impact to General Fund revenues.

The Department indicates the cost to implement the provisions of LB 97 to be minimal.

We have no basis to disagree with the Department of Revenue's estimate of fiscal impact or cost except to note that it will be a minimal negative impact to the General Fund.

IMPACT TO POLITICAL SUBDIVISIONS:

The city of Omaha has estimated a cost of \$165,930 for FY2017-18 and \$168,120 for FY2018-19 for initial start-up costs for a riverfront development district.

We have no basis to disagree with the city of Omaha's estimate.
