Highlighted Developments

Western Alternative Corrections, Bristol Station has been an NDCS vocational and life skills grantee since 2015. Bristol Station assists formerly incarcerated persons in transitioning into the community in a residential setting. They provide opportunities of self-discovery and encourage participants to develop sustainable pro-social routines.

Goynes entered Bristol Station in February 2019 upon his release from Nebraska State Penitentiary. Goynes reported he chose to come to Bristol Station “for a new start in a new community to surround myself around positive and new people.”

Goynes currently works full-time at Hastings HVAC as a welder. He has worked at HVAC for approximately five months and recently received a raise for his positive work ethic. Goynes attributes his desire to weld from a conversation he had with his high school guidance counselor, Ms. Laguna. He reported “She told me that I should try to become a welder and that stuck with me. I did my research on it and it took off from there. She also told me I had to get an A or B in every class. She introduced me to become something in life and made me improve my grades.”

Goynes graduated from Omaha South High School and went to Pine Ridge Job Corps in pursuit of becoming a welder. He reported that he completed his testing and certifications at Western Nebraska Community College and then returned to Omaha. Goynes obtained a job in Valley, NE and worked there for about four years. Transportation became a barrier for Goynes and he was unable to keep his job as he did not have reliable transportation to and from work. He reported that he did the “unthinkable” which resulted in five years of incarceration. Goynes reported that he grew up in a tough environment. “Everything around me was always negative. So I knew at a young age, I wanted more out of life. I was in and out of foster homes and group homes and I was raised by the streets.”

Goynes reported he spent those five years rebuilding himself. He reported that he was looking to release from incarceration away from Omaha to start a new life. “I moved to Hastings and I found a home. They look past all my differences and welcome me in. I work hard, am on time every day and never miss a beat.”

Goynes would leave Bristol Station at approximately 4 am to walk or ride his bike to work when he first started at Hastings HVAC. Since starting his job, Goynes developed a strict budget, saved his money and purchased a vehicle.

Goynes also had the opportunity to meet Nebraska Governor Pete Ricketts as he visited Hastings HVAC this summer. Goynes reported that he was a little ambivalent to approach the governor, but didn't let his nerves get the best of him. He reported he spoke with the governor and was able to shake his hand and tell him about himself.

Goynes is very thankful for his employer for opening up a lot of doors. When asked if Bristol Station has been helpful, Goynes reported "they helped me get a start on my new life by providing me with food and shelter so I can get out here on my own. They gave me the classes and the tools to help me be able to live on my own independently and become a better man."

ASSOCIATED BUILDERS & CONTRACTORS (ABC)

Nelson was incarcerated with the NDCS. His last location was CCCO. He explored opportunities for work release with ABC Members. He was able to get work release with Wolfe Electric in Omaha. He has been released, is still employed with Wolfe Electric and is signed up to take classes at our Omaha Training Center. In addition to this, the CCCL and CCCO students are getting excellent grades and fully engaging in the class work and options. We have received requests for additional classes from all facilities and we are working with NDOL for pre-apprenticeship at the Nebraska State Penitentiary.

The following are responses from Bristol Station participants who were given an anonymous survey about their experiences in the program.

Q: Why did you choose to come to Bristol Station?

- **A:** "I chose Bristol Station because it's close to my daughter in Minden and my son in Kenesaw. It was rent free and is smaller than Omaha and Lincoln."
- **A:** "I chose to come to Bristol Station because they are willing to help me get financially stable and help me build my relationship with my family."

Q: If you had to explain Bristol Station to someone who doesn't know anything about Bristol Station, what would you say?

CENTER FOR PEOPLE IN NEED - TRADE

Erickson completed the TRADE program at LCC. While on parole and living at House of New Life, Erickson lost his employment. Erickson was struggling to find work, in addition to his criminal offense Erickson needed a great deal of coaching on his verbal skills during interviews as well as personal appearance. After approximately a month of searching, we were able to get him an opportunity with Stauffers family restaurant. We felt that given his situation, this would be a good fit as they are family-owned and operated restaurant and liked to help their employees during difficult times. Erickson is very quiet and reserved which made it hard for him to find employment. But that was exactly what the owners of the restaurant liked most was his shy demeanor. We were also able to use client assistance to bring him some much needed relief from his back rent.

MENTAL HEALTH ASSOCIATION (MHA)

Zyla was first introduced to the Mental Health Association-Nebraska (MHA) when she was released from the Nebraska Department of Correctional Services in October, 2018. She was on post release supervision probation and she transitioned to Honu. Zyla completed her stay at Honu and we didn't hear much from her over the last year until I received a message on Facebook from someone telling me Zyla was in the hospital on life support and they were contacting family with concerns

that she would not make it. MHA sent a few staff to visit her who made connections with her at Honu. Zyla did make it and when she got off life support and was able to communicate with us in the hospital, she told us she had been living at the city mission and they have really bad mold issues and it was affecting her medical conditions that already compromise her immune system. She also told us that it wasn't the first time she was in the hospital because of conditions of her living environment. We were there to pick Zyla up the day she was released from the hospital in early September 2019. Staff brought her to the MHA office to meet with me and Kasey Moyer. We discussed her health and what her plans were. We let her know we were concerned for her and didn't want to hear that she had passed away. We came up with a plan to move her out of the mission and into the Keya house while she continued to work with CenterPointe and us on locating safe affordable CLEAN ground-level housing as she also has some mobility issues. Zyla signed a lease to an apartment and moved out of Keya House November 5th, 2019. Staff assisted her in moving into her apartment and to get household needs from Bridges to Hope. We plan to keep in touch with her and continue to support her.

METROPOLITAN COMMUNITY COLLEGE (MCC)

Kimmmie began working with Metropolitan Community College's 180 Re-entry Assistance Program in 2016 while she was incarcerated at Nebraska Correctional Center for Women (NCCW). This is also where Kimmmie began her journey on her career pathway to Interdisciplinary Studies - Prototype Design. Upon being paroled in December 2018, Kimmmie moved into an Oxford House, started working and continued her studies at MCC. Kimmmie has maintained employment while remaining involved with her 180 RAP peer support group, Long Term Relief. In addition, Kimmmie was able to secure her own housing, yet still provides peer support and encouragement to the women she left behind at the Oxford House she resided at. She will also represent Oxford House at the state convention in 2020. To date, Kimmmie has successfully completed 39 credit hours at MCC with a 3.85 grade point average and is currently registered as a full time student this winter quarter. Recently, Kimmmie applied for a fellowship with UNMC and was awarded that fellowship, which will pay tuition, expenses and a living stipend. To further demonstrate Kimmmie's success, she was released early from parole in November 2019. Kimmmie has worked diligently to accomplish her many goals such as rebuilding family relationships, building her financial literacy and she remains connected to her support system at MCC's 180 RAP.

Executive Summary

This report presents quarterly data and evaluation updates for the Vocational and Life Skills Program (VLS) through Quarter Six of Grant Cycle Three. VLS was created by the Nebraska Legislative Bill 907 in 2014 to reduce recidivism and increase meaningful employment for Nebraskans convicted of a crime. The report contains 1) descriptions of the eight funded programs across the state, 2) a snapshot of program participation across the programs, 3) demographics of the participants served by the VLS initiative, and 4) participation breakdowns and descriptions of the skills participants are gaining through VLS programming. VLS continues to update service providers to ensure the best programming is available to Nebraska participants.

The VLS initiative is evaluated by the Nebraska Center for Justice Research (NCJR) to identify the impact these programs and services have in increasing meaningful employment. As part of the evaluation, NCJR provides trainings to support grantees as needed, and manages participant data in a data management system created specifically for VLS. NCJR provides feedback and information to the Nebraska Department of Correctional Services (NDCS) regarding the implementation process and data updates on a monthly and quarterly basis. NCJR has collaborated with service providers to create individualized evaluation plans with manageable goals and is working to complete an overall evaluation of VLS during this grant cycle.

Report Definitions

NEW PARTICIPANTS

New participants are the subset of the total who were new to the programs this quarter. New participants with each program are counted only once which is reflected in the month they began their participation.

TOTAL SERVED

Total served is a count of unique active participants for the quarter. Any participant that does not have an end date to their programming during the quarter is counted as a unique participant served. If the same person is a participant in multiple programs, they are counted once in each program as a unique participant for the quarter they began participating.

SUCCESSFULLY COMPLETED

Participants are considered successful when they meet the individualized plan set up for them upon intake into the programs. Once they meet this threshold, they are exited from the program and marked as successfully completed. Success looks different for each participant and varies across programs as well (see Appendix A). Because of this, there will be no comparisons between programs based on successful completion numbers.

TOTAL PARTICIPANTS (CYCLE THREE)

The total number of participants served during Grant Cycle Three is reported here. If the same person is a participant in multiple programs, they are counted once in each program as a unique participant.

TOTAL SUCCESSFULLY COMPLETING (CYCLE THREE)

Participants are included in the total successfully completing for the grant cycle if they meet the definition of successful completion mentioned above. This captures anyone who has an ending status of successful completion from the beginning of the grant cycle (July 1, 2018) to the end of the current quarter.

Although most participants successfully complete programming, some fail for a variety of reasons: decide to leave on their own accord (terminated by self), are asked to leave by the program (terminated by program), relocate residential location or facility (moved), are referred to another agency (referred to other agency), or they may leave for another reason (other). There were **447** participants who ended programming in Quarter Five.

Participant Demographics

Program staff collect a variety of self-reported demographic information from participants in their programs. If an individual participated in multiple programs, their demographic information is counted for each participation, so the data is based on individual participations and not necessarily individual people. In this report, we present demographic information on age, race, and sex. There were **182 participants (11.9%)** who identified as Hispanic or Latinx. These participants are most often represented in the Other or White racial categories.

Program Areas

Program area participations for Grant Cycle Three Quarter Six (October 2019 - December 2019) are presented below. Program staff work with each participant to develop an individualized plan of programming unique to their needs. Many participants are involved in multiple program areas at each program and some program areas offered are not suitable for each participant. It is not necessary for a participant to complete each program area to be considered a successful participant. Some may only complete one program area, while others may participate in multiple areas either back-to-back or simultaneously in order to complete the program. It is only when participants complete the necessary program areas that program staff will mark an individual as successfully completing. This is determined on an individual basis.

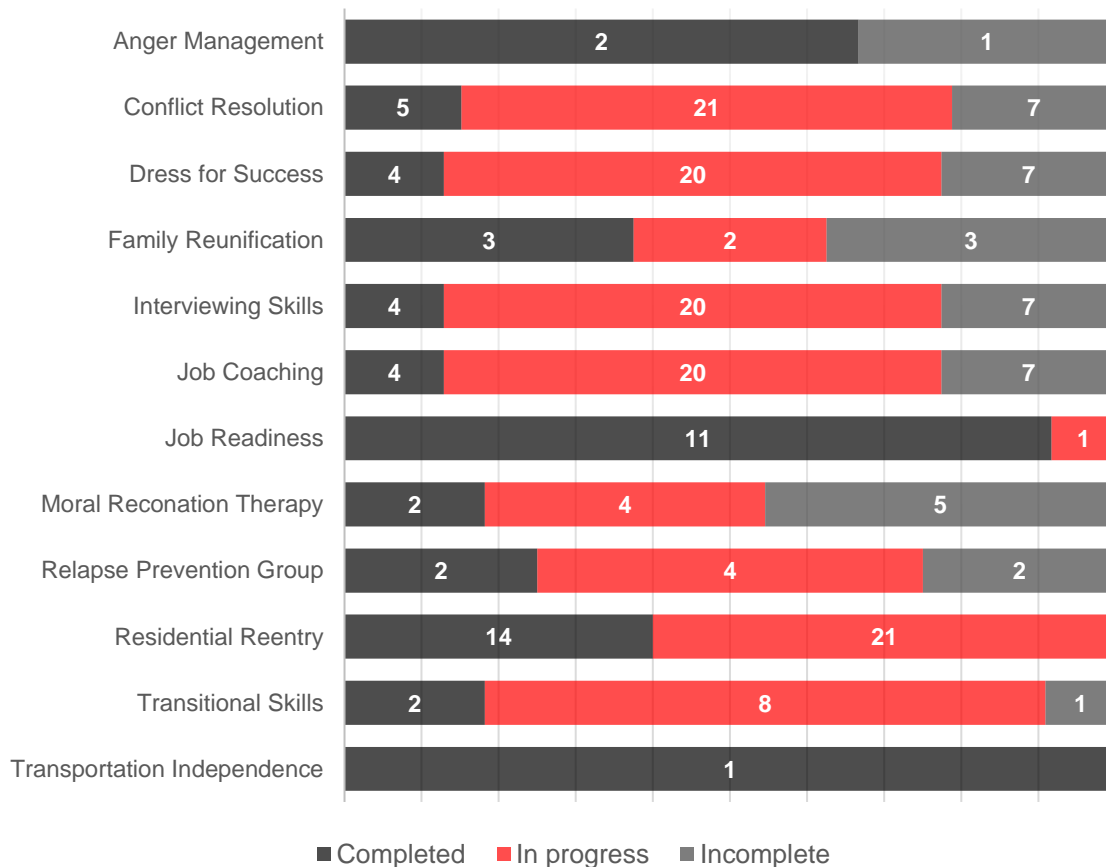

An overview of all program areas each program offers and any updates to program areas is provided in Appendix A of this report. Program areas have changed, and in some cases, will continue to change. Therefore, some of the data presented will not match exactly with previous quarterly reports on program areas.

Appendix A: Program Area Descriptions

The following program area descriptions provide information on different services offered in each program. Each area details the services provided, the benefit or result a participant can hope to get from completing the area, the duration of programming, and the locations the program area is offered. Not all program areas or services are always offered, and participants may not participate in all program areas during their programming. As each participant goes through programming differently based on their individual needs, these descriptions provide more insight into the program area participations reported. Program areas are updated quarterly to reflect what is currently offered.

Associated Builders and Contractors (ABC)

Participants are marked as successfully completing programming depending on where they are taking classes and their individual needs. Success is generally captured after completing OSHA 10 Hour Construction and General Industry training while in correctional facilities. Some participants also move on to a core class in facilities or may take additional classes out in the community after release.
