GENERAL INFORMATION

- I. Occupation Regulated
 - A) Pharmacist, Pharmacy Technician, and Pharmacist Intern

- II. Name of Occupational Board Responsible for Enforcement
 - A) Per Nebraska Revised Statutes Section [38-161](#), the Board of Pharmacy provides recommendations to the Department of Health and Human Services regarding the issuance or denial of credentials, and provides recommendations to the Department of Health and Human Services regarding rules and regulations to carry out the Uniform Credentialing Act.

- III. Public Purpose and Assumptions Underlying License Creation
 - A) A licensed pharmacist in Nebraska can interpret and fill medical orders, compound and dispense prescription drugs and devices, perform drug product selection and drug use review, and provide patient counseling. Pharmacists can also administer drugs and devices and can provide pharmaceutical care through agreements with physicians.

A registered pharmacy technician may only perform tasks which do not require professional judgment and which are subject to verification to assist a pharmacist in the practice of pharmacy.

A registered pharmacist intern may compound and dispense drugs or devices and fill prescriptions only in the presence of and under the immediate personal supervision of a licensed pharmacist. Pharmacist interns must be registered by DHHS.

The licenses and registrations were created to protect the public health, safety, and welfare.

IV. Number of Regulated Professionals in Nebraska

- A) Statutory authorization for the Pharmacist, Pharmacy Technician, and Pharmacist Intern occupations may be found in the Nebraska Revised Statutes, sections [38-2801](#) to [38-28,107](#), which may be cited as the Pharmacy Practice Act. For text of the Nebraska statutes relating to the Pharmacist, Pharmacy Technician, and Pharmacist Intern occupations, see Appendix A.

II. Other Authorization

- A) A) Rules and regulations regarding the practice of Pharmacy may be found in the Nebraska Administrative Code [Title 172, Chapter 128](#).

CREDENTIALING

I. Number of Licenses, Certifications, or Registrations Issued In Past Five Years

- A) There were 7,230 licenses or registrations issued in the past five years, including 1,790 Pharmacist licenses; 4,204 Pharmacy Technicians registrations; and 1,236 Pharmacist Intern registrations.

II. Number of Licenses, Certifications, or Registrations Denied in Past Five Years

- A) There were 86 licenses or registrations denied in the past five years, including 26 Pharmacist licenses, and 60 Pharmacy Technician registrations.
- B) Grounds for denial include misrepresentation of material facts, failure to complete required examinations, failure to provide licensure fees, and immoral or dishonorable conduct, amongst other grounds.

III. Number of Licenses, Certifications, or Registrations Revoked in Past Five Years

- A) There were 22 licenses or registrations revoked in the past five years, including 6 Pharmacist licenses and 16 Pharmacy Technician registrations.

IV. Number of Licenses, Certifications, or Registrations Penalized in Past Five Years

- A) There have been 138 licenses or registrations penalized in the past five years, including 101 Pharmacist licenses; 28 Pharmacist Technician registrations; and 9 Pharmacist Intern registrations.
- B) Reasons for penalizations include practice in unlicensed premises, permitting aiding & abetting, severe substance use disorder, unprofessional conduct, felony conviction(s), dishonorable conduct, failure to comply with federal or state law, pattern of negligence, prescribing to oneself, immoral conduct, misrepresentation of material facts, violation of department order, negligent conduct, practice while impaired, probation violation, and practice beyond scope.

V. Comparison of How Other States Regulate This Occupation

- A) Other states also require licensure for Pharmacists. Most states require at least registration for Pharmacy Technicians and Pharmacy Interns.

VI. What Is The Potential Harm if This Occupation Is No Longer Licensed, Certified, or Regulated?

- A) If the Pharmacist, Pharmacy Technician, and Pharmacist Intern occupations were no longer licensed or regulated, anyone could buy any pill they wanted with impunity. Without the educational and ethical standards promulgated by the Board, an unlicensed individual could attempt to mix and distribute any drugs he or she thought might be useful. It would be extremely detrimental to the public health, safety, and welfare.

COMMITTEE RECOMMENDATION ON CONTINUATION, MODIFICATION, OR TERMINATION OF OCCUPATIONAL REGULATIONS

Regulated occupations under the purview of the Health and Human Services Committee are unique in that through the Nebraska Regulation of Health Professions Act (Neb. Rev. Stat. Sections 71-6201 to 71-6229), health professions which are not

licensed or regulated, or health professions that wish to change their scope of practice, go through a three-stage credentialing process.

Credentialing review is a three-stage process conducted by the following review bodies in the following order:

- 1) The review of an ad hoc technical review committee appointed by the Director of the Division of Public Health;
- 2) The review of the State Board of Health;
- 3) The review of the Director of the Division of Public Health.

The three review bodies each create their own independent report on each proposal. All reports created by the review process are available to members of the Health and Human Services Committee to assist them during their review of any bills that might arise from credentialing review proposals. These reports include recommendations regarding the level of licensure of the health profession. These reports are advisory to the Legislature, and only the action of the Legislature may create changes in the regulatory status of a profession. These reports represent expert input into possible public health and safety aspects of credentialing review proposals, and the nine-month process is overseen by those with experience in the provision of health-related or medical services.

The licenses, certifications, and registrations overseen by the Board of Pharmacy and the Department of Health and Human Services are intended to protect the health, safety, and welfare of Nebraskans. The current regulation of the Pharmacist, Pharmacy Technician, and Pharmacist Intern occupations by licensure and registration is appropriate and balanced and does not need modification at this time.

- (d) Past experience in the manufacture or distribution of controlled substances, and the existence in the applicant's establishment of effective controls against diversion; and
- (e) Such other factors as may be relevant to and consistent with the public health and safety.

(2) Registration granted under subsection (1) of this section shall not entitle a registrant to manufacture or distribute controlled substances in Schedule I or II of section 28-405 other than those specified in the registration.

(4) The department may suspend any registration simultaneously with the institution of proceedings under this section or when renewal of registration is refused in cases when the department finds that there is an imminent danger to the public health or safety. Such suspension shall continue in effect until the conclusion of such proceedings, including judicial review thereof, unless sooner withdrawn by the department or dissolved by a court of competent jurisdiction.

(5) In the event the department suspends or revokes a registration granted under section 28-408, all controlled substances owned or possessed by the registrant pursuant to such registration at the time of suspension or the effective date of the revocation order, as the case may be, may in the discretion of the department be placed under seal. Upon a revocation order becoming final, all such controlled substances may be forfeited to the state.

(6) The administration shall be promptly notified of all orders limiting, suspending, or revoking registration.

Nothing in this section is intended to require the use of a laboratory report in a preliminary hearing or to prohibit the use of other evidence, including circumstantial evidence, in the preliminary hearing to establish the identity, nature, and quantity of a controlled substance.

8. Sentencing

1. Elements

- Subsection (5)(a) of this section requires the State to prove that the defendant is someone (1) who is 18 years of age or older and (2) who knowingly and intentionally (a) used a person under 18 years of age in one of the ways listed (b) to perform one of the listed acts related to drug distribution. *State v. Reinhart*, 283 Neb. 710, 811 N.W.2d 258 (2012).
- Unless a statute specifically provides otherwise, the quantity possessed of a controlled substance is not an essential element of the crime. *State v. Thompson*, 244 Neb. 189, 505 N.W.2d 673 (1993).
- The weight or amount of marijuana possessed is not an element of the substantive offense of possession of marijuana, and the weight or amount of marijuana only determines the grade of the offense and relates to the punishment which may be imposed on conviction for the offense of simple possession. Simple possession of marijuana is a lesser-included offense of possession of marijuana with intent to distribute. *State v. Malone*, 4 Neb. App. 904, 552 N.W.2d 772 (1996).

2. Evidence

- A passenger's mere presence in a vehicle with contraband is insufficient to support a finding of joint possession. *State v. Draganescu*, 276 Neb. 448, 755 N.W.2d 57 (2008).
- Generally, a passenger's joint possession of a controlled substance found in a vehicle can be established by evidence that (1) supports an inference that the driver was involved in drug trafficking, as distinguished from possessing illegal drugs for personal use; (2) shows the passenger acted suspiciously during a traffic stop; and (3) shows the passenger was not a casual occupant but someone who had been traveling a considerable distance with the driver. *State v. Draganescu*, 276 Neb. 448, 755 N.W.2d 57 (2008).
- Evidence which was seized during a search based solely on an illegal wiretap must be suppressed and a conviction based on that evidence reversed, where it was agreed that the defendant had waived his rights under the Fourth Amendment to the U.S. Constitution, but had not waived his rights under section 86-701 et seq. (recodified in 2002 as section 86-271 et seq.). *State v. Aulrich*, 209 Neb. 546, 308 N.W.2d 739 (1981).

3. Generally

- A juror may reasonably infer that a driver with a possessory interest in a vehicle who is transporting a large quantity of illegal drugs would not invite someone into his or her vehicle who had no knowledge of the driver's drug activities. *State v. Draganescu*, 276 Neb. 448, 755 N.W.2d 57 (2008).
- Subsection (6) of this section and section 77-4301(2) address different types of misconduct and are not inconsistent. *State v. Garza*, 242 Neb. 573, 496 N.W.2d 448 (1993).

- A party claiming that the sale of a controlled substance was exempt has the burden of proof that an exemption was applicable. *State v. Taylor*, 221 Neb. 114, 375 N.W.2d 610 (1985).
- Subsection (6)(a) merely authorizes the issuance of a citation for certain violations; it does not prohibit an arrest for the same violation when otherwise authorized by law. *State v. Watts*, 209 Neb. 371, 307 N.W.2d 816 (1981).

4. Jury instruction

- The statutory elements neither solely control nor exclusively dictate whether a lesser-included offense instruction for simple possession is required along with an instruction on possession of a controlled substance with intent to deliver. *State v. Massa*, 242 Neb. 70, 493 N.W.2d 175 (1992).

5. Plain view doctrine

- Plain view doctrine circumvents need for a search warrant when contraband is inadvertently found while arresting officer is legally present at physical examination of accused. *State v. Brockman*, 231 Neb. 982, 439 N.W.2d 84 (1989).

6. Possession

- Constructive possession of an illegal substance may be proved by direct or circumstantial evidence. *State v. Draganescu*, 276 Neb. 448, 755 N.W.2d 57 (2008).
- Possession of a controlled substance is a lesser-included offense of distribution of the controlled substance. *State v. Draganescu*, 276 Neb. 448, 755 N.W.2d 57 (2008).
- Possession of an illegal substance can be inferred from a vehicle passenger's proximity to the substance or other circumstantial evidence that affirmatively links the passenger to the substance. *State v. Draganescu*, 276 Neb. 448, 755 N.W.2d 57 (2008).
- Under subsection (1) of this section, a defendant possesses a controlled substance when the defendant knows of the nature or character of the substance and its presence and has dominion or control over the substance. *State v. Lonnecker*, 237 Neb. 207, 465 N.W.2d 737 (1991).
- Under subsection (1) of this section, a defendant's control or dominion over premises where a controlled substance is located may establish the defendant's constructive possession of the controlled substance. *State v. Lonnecker*, 237 Neb. 207, 465 N.W.2d 737 (1991).
- Pursuant to subsection (3) of this section, there is sufficient evidence to convict the defendant of knowingly or intentionally possessing a controlled substance when he approaches an undercover officer, asks to buy drugs, physically examines the drugs, and then hands over money to pay for the drugs. *State v. Clark*, 236 Neb. 475, 461 N.W.2d 576 (1990).

7. Possession with intent to deliver

- Circumstantial evidence may support a finding that a defendant intended to distribute, deliver, or dispense a controlled substance. *State v. Draganescu*, 276 Neb. 448, 755 N.W.2d 57 (2008).
- Circumstantial evidence to establish possession of a controlled substance with intent to distribute or deliver may consist of several factors: the quantity of the substance, the equipment and supplies found with it, the place it was found, the manner of packaging, and the testimony of witnesses experienced and knowledgeable in the field. *State v. Draganescu*, 276 Neb. 448, 755 N.W.2d 57 (2008).
- Evidence of the quantity of a controlled substance possessed combined with expert testimony that such quantity indicates an intent to deliver can be sufficient for a jury to infer an intent to deliver. *State v. Draganescu*, 276 Neb. 448, 755 N.W.2d 57 (2008).
- When a defendant did not dispute the State's evidence on the separate element of intent to deliver, he was not entitled to an instruction on the lesser-included offense of simple possession. *State v. Draganescu*, 276 Neb. 448, 755 N.W.2d 57 (2008).
- Conviction of possession with intent to deliver a controlled substance affirmed in case where police officers noticed defendant in bar making a furtive gesture by pulling both hands from underneath bar; the officers subsequently found a bag with 11 snow seals behind the carpet under the bar within arm's distance from defendant; and defendant could not adequately account for the money he had in his possession. *State v. Alcorn*, 240 Neb. 400, 481 N.W.2d 921 (1992).
- Possession with intent to deliver a controlled substance is not a victimless crime. *State v. Rodgers*, 237 Neb. 506, 466 N.W.2d 537 (1991).

8. Sentencing

- Sentence of 3 to 5 years' imprisonment was not excessive for conviction under subsection (1)(a) of this statute. *State v. Hodge and Carpenter*, 225 Neb. 94, 402 N.W.2d 867 (1987).

28-417. Unlawful acts; violations; penalty.

- (g) To be under the influence of any controlled substance for a purpose other than the treatment of a sickness or injury as prescribed or administered by a practitioner. In a prosecution under this subdivision, it shall not be necessary for the state to prove that the accused was under the influence of any specific controlled substance, but it shall be sufficient for a conviction under this subdivision for the state to prove that the accused was under the influence of some controlled substance by proving that the accused did manifest physical and physiological symptoms or reactions caused by the use of any controlled substance.

Annotations

- The plain and ordinary meaning of the words "as part of the investigation leading to such conviction" limits the amount of restitution ordered to the reasonable law enforcement expenses incurred in connection with the purchase of the controlled substance for the sale of which the defendant was convicted. *State v. Rios*, 237 Neb. 232, 465 N.W.2d 611 (1991).

- An order of restitution under this section can be made at the time of sentencing, but there is no statutory requirement that it be made at that time. *State v. Holmes*, 221 Neb. 629, 379 N.W.2d 765 (1986).
- Restitution imposed under this section is not a criminal penalty to be imposed as punishment for the crime, but is in the nature of a civil or administrative penalty or sanction. *State v. Holmes*, 221 Neb. 629, 379 N.W.2d 765 (1986).
- Restitution imposed under this section is not a part of the sentence; therefore, the trial court had jurisdiction to make an order of restitution after sentencing. *State v. Holmes*, 221 Neb. 629, 379 N.W.2d 765 (1986).
- The heading, or catchline, is supplied in the compilation of the statutes and does not constitute any part of the law. *State v. Holmes*, 221 Neb. 629, 379 N.W.2d 765 (1986).

28-428. Controlled premises, defined; inspection; procedure.

(1) Administrative inspections of controlled premises are authorized in accordance with the following provisions:

(a) For purposes of the Uniform Controlled Substances Act only, controlled premises shall mean: (i) Places where persons registered or exempted from registration requirements under the act are required to keep records; and (ii) places including factories, warehouses, establishments, and conveyances where persons registered or exempted from registration requirements under the act are permitted to hold, manufacture, compound, process, sell, deliver, or otherwise dispose of any controlled substance;

(b) When so authorized by an administrative inspection or an officer of the Division of Drug Control or an authorized agent of the department, upon presenting the warrant and appropriate credentials to the owner, operator, or agent in charge, shall have the right to enter controlled premises for the purpose of conducting an administrative inspection;

(c) When so authorized by an administrative inspection warrant, an officer of the Division of Drug Control or an authorized agent of the department shall have the right: (i) To inspect and copy records required by the act to be kept; (ii) to inspect, within reasonable limits and in a reasonable manner, controlled premises and all pertinent equipment, finished and unfinished material, containers, and labeling found therein, and, except as otherwise provided in subdivision (1)(e)(ii) of this section, all other things therein, including records, files, papers, processes, controls, and facilities, bearing on any violation of the act; and (iii) to inventory any stock of any controlled substance therein and obtain samples of any such substance;

(d) This section shall not be construed to prevent entries and administrative inspections including seizures of property without a warrant: (i) With the consent of the owner, operator, or agent in charge of the controlled premises; (ii) in situations presenting imminent danger to health or safety; (iii) in situations involving inspection of any conveyance when there is reasonable cause to believe that such conveyance contains substances possessed or carried in violation of the act; (iv) in any other exceptional or emergency circumstance when time or opportunity to apply for a warrant is lacking; and (v) in all other situations when a warrant is not constitutionally required; and

(e) Except when the owner, operator, or agent in charge of the controlled premises so consents in writing, no inspection authorized by this section shall extend to (i) financial data; (ii) sales data other than shipment data; or (iii) pricing data.

(2) For the purpose of the execution of administrative inspection warrants, an authorized agent of the department shall be deemed to be a peace officer.

(3) Issuance and execution of administrative inspection warrants for controlled premises shall be in accordance with the provisions of sections 29-830 to 29-835, except that inspection warrants for the purpose of the act shall be issued not only upon a showing that consent to entry for inspection purposes has been refused, but also in all cases when the judge of a court of record has been given reason to believe that consent would be refused if requested.

It shall be the duty of the division to enforce all of the provisions of the Uniform Controlled Substances Act and any other provisions of the law dealing with controlled substances and to conduct drug education activities as directed by the superintendent. The Nebraska State Patrol shall cooperate with federal agencies, the department, other state agencies, elementary and secondary schools, and County Drug Law Enforcement and Education Fund Boards in discharging their responsibilities concerning traffic in controlled substances, in suppressing the abuse of controlled substances, and in conducting drug education activities. (2) There is hereby created the Nebraska State Patrol Drug Control and Education Cash Fund which shall be used for the purposes of (a) obtaining evidence for enforcement of any state law relating to the control of drug abuse and (b) drug education activities conducted pursuant to subsection (1) of this section, except that transfers may be made from the fund to the General Fund at the direction of the Legislature. Any money in the Nebraska State Patrol Drug Control and Education Cash Fund available for investment shall be invested by the state investment officer pursuant to the Nebraska Capital Expansion Act and the Nebraska State Funds Investment Act.

(3) For the purpose of establishing and maintaining legislative oversight and accountability, the Appropriations Committee of the Legislature shall formulate record-keeping procedures to be adhered to by the Nebraska State Patrol for all expenditures, disbursements, and transfers of cash from the Nebraska State Patrol Drug Control and Education Cash Fund. Based on these record-keeping procedures, the Nebraska State Patrol shall prepare and electronically deliver to the Clerk of the Legislature at the commencement of each succeeding session a detailed report which shall contain, but not be limited to: (a) Current total in the cash fund; (b) total amount of expenditures; (c) purpose of the expenditures to include: (i) Salaries and any expenses of all agents and informants; (ii) front money for drug purchases; (iii) names of drugs and quantity of purchases; (iv) amount of front money recovered; and (v) drug education activities; (d) total number of informers on payroll; (e) amounts delivered to patrol supervisors for distribution to agents and informants and the method of accounting for such transactions and the results procured through such transactions; and (f) a description of the drug education activities conducted since the date of the previous report. Each member of the Legislature shall receive an electronic copy of such report by making a request for it to the superintendent.

(4) The superintendent shall adopt and promulgate rules and regulations to carry out this section.

28-430. Department; enforce act; powers.

The department shall enforce the Uniform Controlled Substances Act and shall cooperate with federal agencies, the Division of Drug Control, and other state agencies in discharging their responsibilities concerning traffic in controlled substances and in suppressing the abuse of controlled substances. 28-431. Seized without warrant; subject to forfeitures; disposition; manner; when; accepted as evidence; court costs and expenses; report to Auditor of Public Accounts; contents.

(1) The following shall be seized with or without a warrant by an officer of the Division of Drug Control or by any peace officer and the same shall be subject to forfeiture: (a) All controlled substances which have been manufactured, distributed, dispensed, acquired, or possessed in violation of the Uniform Controlled Substances Act; (b) all raw materials, products, and equipment of any kind which are used, or intended for use, in manufacturing, compounding, processing, administering, delivering, importing, or exporting any controlled substance in violation of the act; (c) all lookalike substances; (d) all property which is used, or is intended for use, as a container for property described in subdivisions (a) and (b) of this subsection; (e) all drug paraphernalia defined in section 28-439; (f) all books, records, and research, including, but not limited to, formulas, microfilm, tapes, and data, which are used, or intended for use, in violation of the act; (g) all conveyances including, but not limited to, aircraft, vehicles, or vessels which are used, or intended for use, in transporting any controlled substance with intent to manufacture, distribute, deliver, dispense, export, or import such controlled substance in violation of the act; and (h) all money used, or intended to be used, to facilitate a violation of the act.

(2) Any property described in subdivision (1)(g) of this section which is used, or intended for use, to transport any property described in subdivision (1)(a) or (b) of this section is hereby declared to be a common nuisance, and any peace officer having probable cause to believe that such property is so used, or intended for such use, shall make a search thereof with or without a warrant.

(3) All money that a law enforcement agency proves was furnished by such agency shall be returned to the agency. All property seized without a search warrant shall not be subject to a replevin action and: (a) All property described in subdivisions (1)(a) through (1)(f) of this section shall be kept by the property division of the law enforcement agency which employs the officer who seized such property for so long as it is needed as evidence in any trial; and (b) when no longer required as evidence, all property described in subdivision (1)(f) of this section shall be disposed of on order of a court of record of this state in such manner as the court in its sound discretion shall direct, and all property described in subdivisions (1)(a), (b), (c), (d), and (e) of this section, that has been used or is intended to be used in violation of the act, when no longer needed as evidence shall be destroyed by the law enforcement agency holding the same or turned over to the department for custody or destruction, except that a law enforcement agency may keep a small quantity of the property described in subdivisions (1)(a), (b), (c), (d), and (e) of this section for training purposes or use in investigations. Any large quantity of property described in subdivisions (1)(a), (b), (c), (d), and (e) of this section, whether seized under a search warrant or validly seized without a warrant, may be disposed of on order of a court of record of this state in such manner as the court in its sound discretion shall direct. Such an order may be given only after a proper laboratory examination and report of such property has been completed and after a hearing has been held by the court after notice to the defendant of the proposed disposition of the property. The findings in such court order as to the nature, kind, and quantity of the property so disposed of may be accepted as evidence at subsequent court proceedings in lieu of the property ordered destroyed by the court order.

(4) When any property described in subdivision (1)(g) or (h) of this section is seized, the person seizing the same shall cause to be filed, within ten days thereafter, in the district court of the county in which seizure was made, petition for disposition of such property. The proceedings shall be brought in the name of the state by the county attorney of the county in which such property was seized. The petition shall describe the property, state the name of the owner if known, allege the essential elements of the violation which is claimed to exist, and conclude with a prayer for disposition. The county attorney shall have a copy of the petition served upon the owner of or any person having an interest in the property, if known, in person or by registered or certified mail at his or her last-known address. If the owner is unknown or there is a reasonable probability that there are unknown persons with interests in the property, the county attorney shall provide notice of the seizure and petition for disposition by publication once a week for four consecutive weeks in a newspaper of general circulation in the county of the seizure. At least five days shall elapse between each publication of notice.

(5) At any time after seizure and prior to court disposition, the owner of record of such property may petition the district court of the county in which seizure was made to release such property, and the court shall order the release of the property upon a showing by the owner that he or she had no actual knowledge that such property was being used in violation of the Uniform Controlled Substances Act.

(6) Any person having an interest in the property proceeded against or any person against whom civil or criminal liability would exist if such property is in violation of the act may, within thirty days after seizure, appear and file an answer or demurrer to the petition. The answer or demurrer shall allege the claimant's interest in or liability involving such property. At least thirty but not more than ninety days after seizure, there shall be a hearing before the court. If the claimant proves by a preponderance of the evidence that he or she (a) has not used or intended to use the property to facilitate an offense in violation of the act, (b) has an interest in such property as owner or lienor or otherwise, acquired by him or her in good faith, and (c) at no time had any actual knowledge that such property was being or would be used in, or to facilitate, the violation of the act, the court shall order that such property or the value of the claimant's interest in such property be returned to the claimant. If there are no claims, if all claims are denied, or if the value of the property exceeds all claims granted and it is shown by clear and convincing evidence that such property was used in violation of the act, the court shall order disposition of such property at such time as the property is no longer required as evidence in any criminal proceeding. The court may order that property described in subdivision (1)(g) of this section be sold or put to official use by the confiscating agency for a period of not more than one year and that when such property is no longer necessary for official use or at the end of two years, whichever comes first, such property shall be sold. Proceeds from the sale of the property and any money described in subdivision (1)(h) of this section shall be distributed pursuant to section 28-1439.02. Official use shall mean use directly in connection with enforcement of the act.

(7) Any court costs and fees and storage and other proper expenses shall be charged against any person intervening as claimant or owner of the property unless such person shall establish his or her claim. If a sale is ordered, the officer holding the sale shall make a return to the court showing to whom the property was sold and for what price. This return together with the court order shall authorize the county clerk to issue a title to the purchaser of the property if such title is required under the laws of this state.

(8)(a) For all money, securities, negotiable instruments, firearms, conveyances, or real estate seized pursuant to this section, the Division of Drug Control, any peace officer, or, as provided in subdivision (d) of this subsection, the prosecuting attorney shall provide a written report of the seizure to the Auditor of Public Accounts. The report shall include:

- (i) The date of the seizure;
- (ii) The type of property seized, such as a vehicle or currency;
- (iii) A description of the property seized, including, if applicable, the make, model, year, and serial number of the property seized;
- (iv) The street name and traffic direction where the seizure occurred, such as eastbound, westbound, southbound, or northbound;
- (v) The crime for which the suspect was charged;
- (vi) The disposition of the property seized through the forfeiture process, such as the property was returned to the suspect, returned to a third-party owner, sold, destroyed, or retained by law enforcement;
- (vii) The basis for disposition of the seized property, such as the suspect was found not guilty, agreement for disposition, criminal forfeiture, or civil forfeiture;
- (viii) The value of the property forfeited;
- (ix) If the seizure resulted from a motor vehicle stop, (A) whether a warning or citation was issued, an arrest was made, or a search was conducted and (B) the characteristics of the race or ethnicity of the suspect. The identification of such characteristics shall be based on the observation and perception of the law enforcement officer responsible for reporting the motor vehicle stop. The information shall not be required to be provided by the suspect; and
- (x) Any additional information the Division of Drug Control or peace officer deems appropriate.

(b) Reports shall be made on an annual basis in a manner prescribed by the Auditor of Public Accounts. The Auditor of Public Accounts shall submit a report to the Legislature on the nature and extent of such seizures on an annual basis. Such report shall be submitted electronically.

(c) For seizures resulting from the activities of multijurisdictional law enforcement entities, a law enforcement entity other than a Nebraska law enforcement entity shall, on its own initiative, report the information required by this subsection.

(d) The prosecuting attorney is not required to report information required by this subsection unless he or she has been notified by the Auditor of Public Accounts that the Division of Drug Control or any peace officer has not reported the information required by this subsection.

- Forfeiture proceedings brought pursuant to this section are not in rem proceedings, but are criminal proceedings entitled to double jeopardy protection. *State v. Franco*, 257 Neb. 15, 594 N.W.2d 633 (1999).
- This section is criminal in character; therefore, double jeopardy principles apply. *State v. One 1987 Toyota Pickup*, 233 Neb. 670, 447 N.W.2d 243 (1989).

2. Miscellaneous

- Subsection (4) of this section sets forth two avenues by which a purported owner or claimant may prevent forfeiture and recover his or her property. First, the forfeiture statute allows the owner of record of such property, at any time after seizure and prior to court disposition, to petition the district court of the county in which seizure was made to release such property. Second, subsection (4) provides that any person having an interest in the property proceeded against or any person against whom civil or criminal liability would exist if such property is in violation of the Uniform Controlled Substances Act may, within 30 days after seizure, appear and file an answer or demurrer to the petition. *Obad v. State*, 277 Neb. 866, 766 N.W.2d 89 (2009).
- The alleged owner of cash cannot be an owner of record under subsection (4) of this section. *Obad v. State*, 277 Neb. 866, 766 N.W.2d 89 (2009).
- Pursuant to subsection (4) of this section, the time limitations of this section are directory rather than mandatory, and the State's failure to strictly conform to them is not fatal to a forfeiture action. *State v. \$1,947 in U.S. Currency*, 255 Neb. 290, 583 N.W.2d 611 (1998).
- Appellate review concerning the sufficiency of the evidence to forfeit a motor vehicle to the State under this section should not be treated differently than review of the sufficiency of evidence in a criminal case. *State v. One 1985 Mercedes 190D Automobile*, 247 Neb. 335, 526 N.W.2d 657 (1995).
- Subsection (4) of this section requires the State to prove beyond a reasonable doubt that seized property was used in violation of Chapter 28, article 4. *State v. 1987 Jeep Wagoneer*, 241 Neb. 397, 488 N.W.2d 546 (1992).
- Failure to claim some legal or equitable interest in the money seized pursuant to a search warrant is fatal to some real interest in the subject matter in controversy. *State v. \$15,518 in U.S. Currency*, 239 Neb. 100, 474 N.W.2d 659 (1991).
- Forfeitures of property under this section are considered punitive and criminal in nature because property forfeited under this section is not contraband per se, but rather ordinary, legal items used to facilitate illegal drug transactions. Appellate review of the sufficiency of the evidence to support a forfeiture of a motor vehicle under this section is to be treated the same as the review of the sufficiency of the evidence in the appeal of a criminal case. *State v. \$3,067.65 in U.S. Currency*, 4 Neb. App. 443, 545 N.W.2d 129 (1996).
- The State's ability to appeal a forfeiture action which is criminal and punitive is limited to the terms of sections 29-2315.01 to 29-2316. *State v. One 1986 Toyota 4-Runner*, 1 Neb. App. 1138, 510 N.W.2d 556 (1993).
- Provision for civil forfeiture of drug paraphernalia is constitutional. Provision authorizing civil forfeiture of drug paraphernalia with strict time limit for filing of complaint for condemnation by law enforcement personnel when "conveyances" are seized allows forfeiture provision to satisfy procedural due process, and procedural due process is not violated by provisions for seizure of drug paraphernalia without opportunity for prior hearing. *Casbah, Inc. v. Thone*, 651 F.2d 551 (8th Cir. 1981).

28-432. Complaint, pleading, or proceeding; burden of proof.

(1) It shall not be necessary for the state to negate any exemption or exception set forth in the Uniform Controlled Substances Act in any complaint, information, indictment, or other pleading or in any trial, hearing, or other proceeding under the provisions of the act, and the burden of proof of any such exemption or exception shall be upon the person claiming its benefit.

(2) In the absence of proof that a person is the duly authorized holder of an appropriate registration or order form issued under the Uniform Controlled Substances Act, the person shall be presumed not to be the holder of such registration or form, and the burden of proof shall be upon him or her to rebut such presumption.

(2) The department may encourage research on misuse and abuse of controlled substances. In connection with such research and in furtherance of the enforcement of the Uniform Controlled Substances Act, it may: (a) Establish methods to assess accurately the effects of controlled substances and to identify and characterize controlled substances with potential for abuse; (b) make studies and undertake programs of research to (i) develop new or improved approaches, techniques, systems, equipment, and devices to strengthen the enforcement of the act, (ii) determine patterns of misuse and abuse of controlled substances and the social effects thereof, and (iii) improve methods for preventing, predicting, understanding, and dealing with the misuse and abuse of controlled substances; and (c) enter into contracts with public agencies, institutions of higher education, and private organizations or individuals for the purpose of conducting research, demonstrations, or special projects which bear directly on misuse and abuse of controlled substances.

(3) The department may enter into contracts for educational and research activities without performance bonds.

The criminalistics laboratory of the Nebraska State Patrol shall provide laboratory analysis for the Division of Drug Control and other peace officers of this state when requested for the effective administration and enforcement of the act.

(5) The department may authorize persons engaged in research on the use and effects of controlled substances to withhold the names and other identifying characteristics of persons who are subjects of such research. Persons who obtain such authorization may not be compelled in any state, civil, criminal, administrative, legislative, or other proceeding to identify the subjects of research for which such authorization was obtained.

(6) The department may authorize the possession and distribution of controlled substances by persons engaged in research. Persons who obtain this authorization shall be exempt from state prosecution for possession and distribution of controlled substances to the extent authorized by the department.

The facility, organization, association, or person making such report shall be completely immune from criminal or civil liability of any nature, whether direct or derivative, for filing a report or for disclosure of documents, records, or other information to the department under this section. Nothing in this subsection shall be construed to require production of records protected by the Health Care Quality Improvement Act or section 25-12,123 or patient safety work product under the Patient Safety Improvement Act except as otherwise provided in either of such acts or such section.

(3) Any health care facility, peer review organization, or professional association that fails or neglects to make a report or provide information as required under this section is subject to a civil penalty of five hundred dollars for the first offense and a civil penalty of up to one thousand dollars for a subsequent offense. Any civil penalty collected under this subsection shall be remitted to the State Treasurer to be disposed of in accordance with Article VII, section 5, of the Constitution of Nebraska.

28-439. Drug paraphernalia, defined; enumerated.

As used in sections 28-101, 28-431, and 28-439 to 28-444, unless the context otherwise requires, drug paraphernalia shall mean all equipment, products, and materials of any kind which are used, intended for use, or designed for use, in manufacturing, injecting, ingesting, inhaling, or otherwise introducing into the human body a controlled substance in violation of sections 28-101, 28-431, and 28-439 to 28-444 or the Uniform Controlled Substances Act. Annotations

- Neither Fourth Amendment rights nor privacy rights are implicated in "drug paraphernalia" statutes, and thus, strict scrutiny standard of review is inapplicable to constitutional challenge. *Casbah, Inc. v. Thone*, 651 F.2d 551 (8th Cir. 1981).
- Use of term "designed" does not refer to physical attributes of object but to intent of person charged with violation, and thus does not render statute unconstitutionally vague. List of items exemplary of drug paraphernalia is not vague and overbroad on ground that it includes numerous innocent items, where no

item is drug paraphernalia absent requisite intent to use it with controlled substances. *Casbah, Inc. v. Thone*, 651 F.2d 551 (8th Cir. 1981).

28-440. Drug paraphernalia; determination; factors considered.

In determining whether an object is drug paraphernalia, a court or other authority shall consider, in addition to all other logically relevant factors, the following:

- (1) Statements by an owner or by anyone in control of the object concerning its use;
- (2) Prior convictions, if any, of an owner, or of anyone in control of the object, under any state or federal law relating to any controlled substance;
- (3) The proximity of the object, in time and space, to a direct violation of this act;
- (4) The proximity of the object to any controlled substance;
- (5) The existence of any residue of a controlled substance on the object;
- (6) Direct or circumstantial evidence of the intent of an owner, or of anyone in control of the object, to deliver it to any person whom he or she knows, or should reasonably know, intends to use the object to facilitate a violation of sections 28-101, 28-431, and 28-439 to 28-444. The innocence of an owner, or of anyone in control of the object, as to a direct violation of sections 28-101, 28-431, and 28-439 to 28-444 shall not prevent a finding that the object is intended for use, or designed for use as drug paraphernalia;
- (7) Instructions, oral or written, provided with the object concerning its use;
- (8) Descriptive materials accompanying the object which explain or depict its use;
- (9) National and local advertising concerning its use;
- (10) The manner in which the object is displayed for sale;
- (11) Whether the owner, or anyone in control of the object, is a legitimate supplier of like or related items to the community, such as a licensed distributor or dealer of tobacco products;
- (12) Direct or circumstantial evidence of the ratio of sales of the object or objects to the total sales of the business enterprise;
- (13) The existence and scope of any legitimate use for the object in the community; and
- (14) Expert testimony concerning its use.

Annotations

- The factors listed in this section are used to determine if the objects are actually drug paraphernalia, not whether officer had probable cause to believe they were drug paraphernalia. The list in this section is illustrative, not exclusive. *State v. Sassen*, 240 Neb. 773, 484 N.W.2d 469 (1992).
- List of items exemplary of drug paraphernalia is not unconstitutional on ground that several factors would permit conviction based on transferred intent and guilt by association where, although actions of third parties are relevant in determining paraphernalia, evidence regarding third-party actions is but one step in prosecutorial scheme, and if third-party actions tend to indicate the item is drug paraphernalia, focus of inquiry must necessarily shift to intent of individual involved. *Casbah, Inc. v. Thone*, 651 F.2d 551 (8th Cir. 1981).
- Reference to "other authority" is not unconstitutionally vague since "other authority" certainly refers to law enforcement personnel, and fact that statute attempts to guide such personnel in their enforcement duties lessens, rather than increases, danger of arbitrary enforcement. *Casbah, Inc. v. Thone*, 651 F.2d 551 (8th Cir. 1981).

28-441. Drug paraphernalia; use or possession; unlawful; penalty.

(1) It shall be unlawful for any person to use, or to possess with intent to use, drug paraphernalia to manufacture, inject, ingest, inhale, or otherwise introduce into the human body a controlled substance in violation of sections 28-101, 28-431, and 28-439 to 28-444.

(2) Any person who violates this section shall be guilty of an infraction.

(3) A person shall not be in violation of this section if section 28-472 applies.

Annotations

- Evidence that defendant invited police to her motel room and let them in, wherein police found two syringes, cigarette papers, and a small plastic spoon in close proximity to cocaine and marijuana, was sufficient to sustain convictions for possession of drug paraphernalia. *State v. Garza*, 239 Neb. 98, 474 N.W.2d 246 (1991).
- Possession of drug paraphernalia is an infraction. *State v. Petersen*, 12 Neb. App. 445, 676 N.W.2d 65 (2004).

- Where statute includes requirement of intent in definition of drug paraphernalia and enumerates factors which officer has to consider in determining whether object is drug paraphernalia, statute does not alter requirement that searches and seizures be based on probable cause and is thus not violative of Fourth Amendment. *Casbah, Inc. v. Thone*, 651 F.2d 551 (8th Cir. 1981).

28-442. Drug paraphernalia; deliver or manufacture; unlawful; exception; penalty.

(1) It shall be unlawful for any person to deliver, possess with intent to deliver, or manufacture with intent to deliver, drug paraphernalia, knowing, or under circumstances in which one reasonably should know, that it will be used to manufacture, inject, ingest, or inhale or otherwise be used to introduce into the human body a controlled substance in violation of sections 28-101, 28-431, and 28-439 to 28-444.

(2) This section shall not apply to pharmacists, pharmacist interns, pharmacy technicians, and pharmacy clerks who sell hypodermic syringes or needles for the prevention of the spread of infectious diseases.

(3) Any person who violates this section shall be guilty of a Class II misdemeanor.

Annotations

- Sections of drug paraphernalia statute making it unlawful to deliver, possess with intent to deliver, manufacture with intent to deliver, or advertise drug paraphernalia in circumstances where one knows or "reasonably should know" that items will be used with drugs or that purpose of advertisement is to promote sale of drug paraphernalia are not unconstitutional on ground that they would permit conviction under impermissibly vague negligence standard and would leave innocent sellers in untenable posture of trying to divine intentions of their buyers where, under sections, seller has to already have intended that item be sold for drug use before his knowledge of its use by a buyer came into play. *Casbah, Inc. v. Thone*, 651 F.2d 551 (8th Cir. 1981).
- Where statute includes requirement of intent in definition of drug paraphernalia and enumerates factors which officer has to consider in determining whether object is drug paraphernalia, statute does not alter requirement that searches and seizures be based on probable cause and is thus not violative of Fourth Amendment. *Casbah, Inc. v. 28-443. Delivery of drug paraphernalia to a minor; penalty.

Any person eighteen years of age or older who violates section 28-442 by delivering drug paraphernalia to a person under eighteen years of age who is at least three years his or her junior shall be guilty of a Class I misdemeanor.

28-444. Advertisement of drug paraphernalia; unlawful; penalty.

(1) It shall be unlawful for any person to place in any newspaper, magazine, handbill, or other publication any advertisement, knowing, or under circumstances where one reasonably should know, that the purpose of the advertisement, in whole or in part, is to promote the sale of objects designed or intended for use as drug paraphernalia.

(2) Any person who violates this section shall be guilty of a Class III misdemeanor.

Annotations

- Sections of drug paraphernalia statute making it unlawful to deliver, possess with intent to deliver, manufacture with intent to deliver, or advertise drug paraphernalia in circumstances where one knows or "reasonably should know" that items will be used with drugs or that purpose of advertisement is to promote sale of drug paraphernalia are not unconstitutional on ground that they would permit conviction under impermissibly vague negligence standard and would leave innocent sellers in untenable posture of trying to divine intentions of their buyers where, under sections, seller has to already have intended that item be sold for drug use before his knowledge of its use by a buyer came into play. *Casbah, Inc. v. Thone*, 651 F.2d 551 (8th Cir. 1981).
- The prohibition of advertising that promotes, in whole or in part, sale of objects designed or intended for use as drug paraphernalia regulates commercial speech in its narrowest sense, i.e., speech which proposes a commercial transaction and which is entitled to lesser protection than other constitutionally guaranteed expression where statute facially does not reach speech which merely glorifies drug culture without direct invitation to purchase specific items. Advertising promoting sale of drug paraphernalia encourages activities which are otherwise crimes under Nebraska law and is thus analogous to advertisements promoting sale of narcotics or soliciting prostitution and can constitutionally be prohibited. Although this statute prohibits advertisements that "only in part" have purpose of promoting sale of drug paraphernalia, court of appeals is obliged to presume legislative intent to act within constitutional bounds,

and thus, under statute, where drug paraphernalia is advertised along with innocent items, statute forbids only that part of the advertisement relating to drug paraphernalia and remainder of advertisement is not condemned. *Casbah, Inc. v. Thone*, 651 F.2d 551 (8th Cir. 1981).

28-445. Imitation controlled substance; prohibited acts; determination; penalties; seizure.

(1) Any person who knowingly and intentionally manufactures, distributes, delivers, or possesses with intent to distribute or deliver an imitation controlled substance shall:

(a) For the first offense, be guilty of a Class III misdemeanor; and

(b) For the second and all subsequent offenses, be guilty of a Class II misdemeanor.

(2) In determining whether a substance is an imitation controlled substance the court or other authority concerned shall consider all relevant factors, including, but not limited to, the following:

(a) Whether the substance is represented as having an effect similar to or the same as an illicit controlled substance;

(b) Whether the substance is represented by way of terminology which is deceptively similar to or the same as that describing a particular controlled substance;

(c) Whether the dosage unit price substantially exceeds the reasonable price of a similar dosage unit of like chemical composition sold over the counter;

(d) Whether the substance was approved by the federal Food and Drug Administration for over-the-counter sales and contained the packaging and labeling information approved by the federal Food and Drug Administration;

(e) Whether the substance is packaged in a manner and quantity similar to or the same as that commonly used for illicit controlled substances;

(f) Whether the dosage unit appearance of the substance is deceptively similar to that of a particular controlled substance;

(g) Whether the substance is distributed to persons who represent it as a controlled substance or controlled substance analogue, under circumstances which indicate the distributor knows, intends, or should know that his or her distributee is making or will make such representations; and

(h) Whether the person in possession or control of the substance utilized deception, fraud, or evasive tactics or actions to prevent the seizure, discovery, or detection of the substance by law enforcement.

(3) Any substance possessed, distributed, or delivered in violation of this section shall be subject to seizure and forfeiture as provided in section 28-431.

(4) Whenever the exchange generates a stop-sale alert, the seller shall not complete the sale unless the seller has a reasonable fear of imminent bodily harm if he or she does not complete the sale. The exchange shall contain an override function to the stop-sale alert for the seller to use in a situation in which a reasonable fear of imminent bodily harm is present.

For written or electronic prescriptions, the practitioner shall specify "no drug product selection", "dispense as written", "brand medically necessary", or "no generic substitution" or the notation "N.D.P.S.", "D.A.W.", or "B.M.N." or words or notations of similar import to

indicate that drug product selection is not permitted. The pharmacist shall note "N.D.P.S.", "D.A.W.", "B.M.N.", "no drug product selection", "dispense as written", "brand medically necessary", "no generic substitution", or words or notations of similar import on the prescription to indicate that drug product selection is not permitted if such is communicated orally by the prescribing practitioner; or

(b) A patient or designated representative or caregiver of such patient instructs otherwise.

(4) Within three business days after the dispensing of a biological product, the dispensing pharmacist or the pharmacist's designee shall make an entry of the specific product provided to the patient, including the name of the product and the manufacturer. The communication shall be conveyed by making an entry that is electronically accessible to the prescriber through an interoperable electronic medical records system, electronic prescribing technology, a pharmacy benefit management system, or a pharmacy record. Entry into an electronic records system described in this subsection is presumed to provide notice to the prescriber. Otherwise, the pharmacist shall communicate the biological product dispensed to the prescriber using facsimile, telephone, electronic transmission, or other prevailing means, except that communication shall not be required if (a) there is no interchangeable biological product approved by the federal Food and Drug Administration for the product prescribed or (b) a refill prescription is not changed from the product dispensed on the prior filling.
