LB 1056 amends the Nebraska Liquor Control Act related to licensees.

The bill allows a farm winery, retail, bottle club, craft brewery, or microdistillery licensee to apply to the county, city, or village for temporary expansion of the licensed premises to (1) an immediately adjacent area owned or leased by the licensee or (2) an immediately adjacent street, parking lot, or alley, for up to 15 days per calendar year. The area must meet certain requirements.

The licensee must apply, and the application must contain certain information. The local governing body must approve the expansion, and can establish criteria for approving or denying a temporary expansion. The decision of the local governing body is final, and confirmation must be delivered to the licensee upon receipt of any fee or tax imposed. The county, city, or village must electronically notify the Nebraska Liquor Control Commission within 5 days of authorization of any expansion.

As amended on General File, the bill also includes the provisions of LB980. LB 980 amends provisions of the Nebraska Lottery and Raffle Act to: 1) Allow special permits to be valid for 1 year instead of 3 months; 2) Eliminate a provision limiting a special permit for licensed organization to one per calendar year; 3) Require tax due under the act to be remitted by September annually, rather than on a quarterly basis; and 4) Allow online sales and debit card sales of tickets or stubs by the licensed organization.

Revenue:

The Nebraska Liquor Control Commission estimates no impact to General Fund revenue. The Department of Revenue estimates no impact to General Fund revenue. There is no basis to disagree with these estimates.

Expenditures:

The commission previously estimated a one-time expenditure of \$3,000 for mainframe updates to include the temporary expansion information for licensed premises. However, because the commission is currently required to undertake similar mainframe updates during FY20-21, the commission estimates any updates required for LB1056 can be done with existing resources, thereby eliminating need for any additional appropriation. Any additional administrative responsibilities related to processing approved applications will be addressed by existing commission staff.

The Department of Revenue estimates no cost to implement the bill.

There is no basis to disagree with these estimates.

Explanation of Estimate:

NLCC is eliminating an expenditure to edit existing mainframe to document the dates and description of the temporary expansion of licensed premises, or to create a system to do the same. NLCC would utilize existing budget and staff to process or document these temporary expansions approved by local governing bodies so enforcement personnel (such as State Patrol) can identify them if complaints or issues arise. There would be no additional expenses for subsequent years. There would be no revenue expected.
