Explanation of Estimate:

LB 607 establishes new credentials for Temporary Body Art Facilities, Guest Body Artists, and Apprentice Nail Technology Salons and re-defines the activities that qualify as a Nail Technician.

The estimate includes cost to create new applications, add credentials to the existing licensure software, provide electronic notifications of changes, and update the Department’s website. The current national examination is available in four (4) languages: English, Korean, Spanish, and Vietnamese. Translated results are provided to the Department of Health and Human Services. Other requested languages would require translation services. The cost of additional translation services has not been included.

The estimate also includes the average cost to make minor changes to existing rules and regulations as follows:

<u>Title</u>	<u>Hours</u>	<u>Hourly Cost</u>	<u>Total Cost</u>
Director	1	72.115	\$ 72
Deputy Director	1	51.923	\$ 52
Administrator I	1	29.354	\$ 29
Program Specialist	2	21.466	\$ 43
Program Analyst	4	20.869	\$ 83
Attorney III	10	32.213	\$322
Total Cost			\$602

Revenue and expenditures are based upon the estimated number of new applicants as shown below:

- 100 – Licenses for manicurists and pedicurists that would meet the new definition of nail technician
- 5 – Licenses for apprentice nail technology salons
- 10 – Licenses issued for a temporary body art facility, and
- 20 – Registrations for a guest body artist

It is expected that the bulk of new applications will be submitted during the first year of enactment. This new work will require additional staff time to process applications and issue licensing in the first year.

1. An IT Business Systems Analyst to add Temporary Body Art Facilities, Guest Body Artists and Apprentice Nail Technology Salons to the electronic credentialing system for eighty (80) hours.

2. A Health Licensing Specialist to create, electronically distribute media, and update the Licensure Unit website regarding the new credentialing requirements for eighty (80) hours plus three hundred ninety (390) hours to process all new applications.
3. A Health Licensing Coordinator to manage startup project and serve as liaison between the Board of Cosmetology and Licensure Unit for eighty (80) hours plus one hundred four (104) hours to review all new applications with the Board of Cosmetology.

The estimated annual operating costs for subsequent fiscal years due to LB 607 would have minimal impact to the Licensure Unit during non-renewal years and the annual cost of a .23 FTE would be absorbed by existing staff during the renewal years.

Revenue Estimate

All expenses and revenues would be subject to the Uniform Credentialing Act's specified methodology for establishing fees. The Department pools base costs of credentialing (costs common to all UCA professions) and adds these to variable costs for credentials (e.g. individual board costs) to develop fees. The current base cost for a credential is approximately \$80-95 over two years.

Estimated number of Nail Technicians to become licensed is 100	
Current biennial credentialing fee is \$95 each	\$9,500
Estimated number of Temporary Body Art Facilities is 10	
Credentialing fee TBD – estimate \$30	\$ 300
Estimated number of Apprentice Nail Technology Salons is 5	
Credentialing fee TBD – estimate is \$300 each to match the current biennial credentialing fee for Apprentice Cosmetology Salons	<u>\$1,500</u>
 Biennial revenue estimate	 \$11,300
