2 fund. The fund shall be used to carry out such act. The commission shall  
3 at each regular meeting review and approve all expenditures made since  
4 its last regular meeting. Any money in the fund available for investment  
5 shall be invested by the state investment officer pursuant to the  
6 Nebraska Capital Expansion Act and the Nebraska State Funds Investment  
7 Act.

8       Sec. 17. The commission shall not be authorized to set up research  
9 or development units or agencies of its own, but shall limit its activity  
10 to cooperation and contracts with the Department of Agriculture,  
11 University of Nebraska Institute of Agriculture and Natural Resources, or  
12 other proper local, state, or national organizations, public or private,  
13 in carrying out the Dry Pea and Lentil Resources Act.

23 60-6,298 (1)(a) The Department of Transportation or the Nebraska

28 issue a special, continuing, or continuous permit in writing authorizing  
29 the applicant or his or her designee:

30 (i) To operate or move a vehicle, a combination of vehicles, or  
31 objects of a size or weight of vehicle or load exceeding the maximum

1 specified by law when such permit is necessary:

2 (A) To further the national defense or the general welfare;

3 (B) To permit movement of cost-saving equipment to be used in  
4 highway or other public construction or in agricultural land treatment;  
5 or

6 (C) Because of an emergency, an unusual circumstance, or a very

8 (ii) To operate vehicles, for a distance up to one hundred twenty  
9 miles, loaded up to fifteen percent greater than the maximum weight  
10 specified by law, or up to ten percent greater than the maximum length  
11 specified by law, or both, except that any combination with two or more  
12 cargo-carrying units, not including the truck-tractor, also known as a  
13 longer combination vehicle, may only operate for a distance up to seventy

15 specified by law, or up to ten percent greater than the maximum length  
16 specified by law, or both, when carrying grain or other seasonally  
17 harvested products from the field where such grain or products are  
18 harvested to storage, market, or stockpile in the field or from stockpile  
19 to market or factory when failure to move such grain or products in  
20 abundant quantities would cause an economic loss to the person or persons  
21 whose grain or products are being transported or when failure to move  
22 such grain or products in as large quantities as possible would not be in  
23 the best interests of the national defense or general welfare. The  
24 distance limitation may be waived for vehicles when carrying dry beans or  
25 dry peas and lentils from the field where harvested to storage or market  
26 when dry beans or dry peas and lentils are not normally stored,  
27 purchased, or used within the permittee's local area and must be  
28 transported more than one hundred twenty miles to an available marketing  
29 or storage destination. No permit shall authorize a weight greater than  
30 twenty thousand pounds on any single axle;

31 (iii) To transport an implement of husbandry which does not exceed

1 twelve and one-half feet in width during daylight hours, except that the  
2 permit shall not allow transport on holidays;

3 (iv) To operate one or more recreational vehicles, as defined in  
4 section 71-4603, exceeding the maximum width specified by law if movement  
5 of the recreational vehicles is prior to retail sale and the recreational  
6 vehicles comply with subdivision (2)(k) of section 60-6,288;

7 (v) To operate an emergency vehicle for purposes of sale,  
8 demonstration, exhibit, or delivery, if the applicant or his or her

10 permit shall be issued for an emergency vehicle which weighs over sixty  
11 thousand pounds on the tandem axle; or

12 (vi) To transport during daylight hours divisible loads of livestock  
13 forage in bale form which do not exceed twelve feet in width, except that  
14 the permit shall not allow transport on holidays.

15 (b) No permit shall be issued under subdivision (a)(i) of this  
16 subsection for a vehicle carrying a load unless such vehicle is loaded  
17 with an object which exceeds the size or weight limitations, which cannot  
18 be dismantled or reduced in size or weight without great difficulty, and  
19 which of necessity must be moved over the highways to reach its intended  
20 destination. No permit shall be required for the temporary movement on  
21 highways other than dustless-surfaced state highways and for necessary  
22 access to points on such highways during daylight hours of cost-saving  
23 equipment to be used in highway or other public construction or in  
24 agricultural land treatment when such temporary movement is necessary and  
25 for a reasonable distance.

26 (2) The application for any such permit shall specifically describe  
27 the vehicle, the load to be operated or moved, whenever possible the  
28 particular highways for which permit to operate is requested, and whether  
29 such permit is requested for a single trip or for continuous or  
30 continuing operation. The permit shall include a signed affirmation under  
31 oath that, for any load sixteen feet high or higher, the applicant has

1 contacted any and all electric utilities that have high voltage  
2 conductors and infrastructure that cross over the roadway affected by the  
3 move and made arrangements with such electric utilities for the safe  
4 movement of the load under any high voltage conductors owned by such  
5 electric utilities.

6 (3) The department or local authority is authorized to issue or  
7 withhold such permit at its discretion or, if such permit is issued, to  
8 limit the number of days during which the permit is valid, to limit the  
9 number of trips, to establish seasonal or other time limitations within  
10 which the vehicles described may be operated on the highways indicated,  
11 or to issue a continuous or continuing permit for use on all highways,  
12 including the National System of Interstate and Defense Highways. The  
13 permits are subject to reasonable conditions as to periodic renewal of  
14 such permit and as to operation or movement of such vehicles. The  
15 department or local authority may otherwise limit or prescribe conditions  
16 of operation of such vehicle or vehicles, when necessary to assure  
17 against undue damage to the road foundations, surfaces, or structures or  
18 undue danger to the public safety. The department or local authority may  
19 require such undertaking or other security as may be deemed necessary to  
20 compensate for any injury to any roadway or road structure.

21 (4) Every such permit shall be carried in the vehicle to which it  
22 refers and shall be open to inspection by any peace officer, carrier  
23 enforcement officer, or authorized agent of any authority granting such  
24 permit. Each such permit shall state the maximum weight permissible on a  
25 single axle or combination of axles and the total gross weight allowed.  
26 No person shall violate any of the terms or conditions of such special  
27 permit. In case of any violation, the permit shall be deemed  
28 automatically revoked and the penalty of the original limitations shall  
29 be applied unless:

30 (a) The violation consists solely of exceeding the size or weight  
31 specified by the permit, in which case only the penalty of the original

1 size or weight limitation exceeded shall be applied; or

2 (b) The total gross load is within the maximum authorized by the  
3 permit, no axle is more than ten percent in excess of the maximum load  
4 for such axle or group of axles authorized by the permit, and such load  
5 can be shifted to meet the weight limitations of wheel and axle loads  
6 authorized by such permit. Such shift may be made without penalty if it  
7 is made at the state or commercial scale designated in the permit. The  
8 vehicle may travel from its point of origin to such designated scale  
9 without penalty, and a scale ticket from such scale, showing the vehicle  
10 to be properly loaded and within the gross and axle weights authorized by  
11 the permit, shall be reasonable evidence of compliance with the terms of  
12 the permit.

13 (5) The department or local authority issuing a permit as provided  
14 in this section may adopt and promulgate rules and regulations with  
15 respect to the issuance of permits provided for in this section.

16 (6) The department shall make available applications for permits  
17 authorized pursuant to subdivisions (1)(a)(ii) and (1)(a)(iii) of this  
18 section in the office of each county treasurer. The department may make  
19 available applications for all other permits authorized by this section  
20 to the office of the county treasurer and may make available applications  
21 for all permits authorized by this section to any other location chosen  
22 by the department.

23 (7) The department or local authority issuing a permit may require a  
24 permit fee of not to exceed twenty-five dollars, except that:

25 (a) The fee for a continuous or continuing permit may not exceed  
26 twenty-five dollars for a ninety-day period, fifty dollars for a one-  
27 hundred-eighty-day period, or one hundred dollars for a one-year period;  
28 and

29 (b) The fee for permits issued pursuant to subdivision (1)(a)(ii) of  
30 this section shall be twenty-five dollars. Permits issued pursuant to  
31 such subdivision shall be valid for thirty days and shall be renewable

1 four times for a total number of days not to exceed one hundred fifty  
2 days per calendar year.

3 A vehicle or combination of vehicles for which an application for a  
4 permit is requested pursuant to this section shall be registered under  
5 section 60-3,147 or 60-3,198 for the maximum gross vehicle weight that is  
6 permitted pursuant to section 60-6,294 before a permit shall be issued.
