As the vehicle got closer to my unit, it rapidly slowed down to avoid passing me. I then slowed down to allow the vehicle to pass, but to my surprise the vehicle continued to slow down further. I then activated my emergency lights while continuing to slow down to get the vehicle out in front of me, but was unsuccessful. The white sedan vehicle continued to slow down until we came to a complete stop, side by side, he was still in the number 1 lane, and I in the number 2 lane. As we came to a stop I could make out the silhouette of the driver making furtive movements. At this point I was concerned that the driver could be possibly reaching for a weapon. I then placed my patrol car in reverse in an attempt to place myself and my vehicle behind the white sedan, for the safety of the white sedan and myself, and collided with a Dodge Ram pickup that was directly behind me.
