	EXPENDITURES	REVENUE	EXPENDITURES	REVENUE
GENERAL FUNDS				
CASH FUNDS				
FEDERAL FUNDS				
OTHER FUNDS				
TOTAL FUNDS				

Any Fiscal Notes received from state agencies and political subdivisions are attached following the Legislative Fiscal Analyst Estimate.

LB1016 would amend the Transportation Innovation Act to allow the Department of Transportation (DOT) to enter into an agreement for a public-private partnership delivery method for construction or financing of capital projects or procurement of services. The provisions of the bill provide definitions, detail process and agreement requirements, require the DOT to adopt and promulgate regulations (on or before July 1, 2023) with stakeholder input, define responsibilities, and establish reporting requirements.

The DOT provided a fiscal note that indicates the agency will be able to carry out the requirements of the bill within existing resources. It is being assumed the DOT can adopt and promulgate regulations for the new project delivery method without an appropriation increase. Any future fiscal impact related to entering into and monitoring a public-private partnership delivery agreement will be dependent on various factors, including but not limited to the size, duration, and location of a project. If a need for additional funding is necessary, it will be handled through the budget request process.

CASH FUNDS	_____	_____	_____	_____
FEDERAL FUNDS	_____	_____	_____	_____
OTHER FUNDS	_____	_____	_____	_____
TOTAL FUNDS	=====	=====	=====	=====

Explanation of Estimate:

LB 1016 would authorize the Nebraska Dept. of Transportation (NDOT) to use a public-private partnership delivery method for projects under the Transportation Infrastructure Act. On or before July 1, 2023, NDOT is required to consult with design-builders, construction managers, other contractors and design professionals to promulgate rules and regulations for determining project selection for utilizing a public-private partnership.

A request for proposal for a project utilizing a public-private partnership shall at minimum meet the criteria set forth in the bill. Annually, NDOT is required to electronically report to the Appropriations Committee of the Legislature and the Transportation and Telecommunications Committee of the Legislature the private-public partnerships which have been considered or approved. The Department will also be required to obtain authorization from the Legislature, by appropriation, explicitly identifying the construction project and use of the public-private partnership delivery method for any public-private partnership used on a project with an aggregate value of one hundred million dollars or more.

NDOT will be able to administer the new project delivery method within existing resources.
