Revision: 01

FISCAL NOTE

Revised for 2022 session

LEGISLATIVE FISCAL ANALYST ESTIMATE

ESTIMATE OF FISCAL IMPACT - STATE AGENCIES (See narrative for political subdivision estimates)							
	FY 2022-23		FY 2023-24				
	EXPENDITURES	REVENUE	EXPENDITURES	REVENUE			
GENERAL FUNDS		(\$2,497,000)		(\$5,993,000)			
CASH FUNDS							
FEDERAL FUNDS							
OTHER FUNDS							
TOTAL FUNDS		(\$2,497,000)		(\$5,993,000)			

Any Fiscal Notes received from state agencies and political subdivisions are attached following the Legislative Fiscal Analyst Estimate.

LB 194 seeks to make various changes to the Nebraska Job Creation and Mainstreet Revitalization Act.

LB 194 eliminates the deadline for the allocation of credits within the Act.

LB 194 amends the definitions of several terms, including historically significant real property, improvement, eligible expenses, and subdefinitions of these terms.

LB 194 adds an additional section that differentiates the credit amount for historically significant real property dependent on the county where it is contained. For such property contained in a county that includes a city of the metropolitan or primary class, the credit is equal to 25% of eligible expenditures. For all other counties, the credit is equal to 30%. The maximum credit allowed per project is \$2 million regardless of location.

LB 194 requires the Nebraska State Historical Society and the Department of Revenue to submit a joint report annually to the Revenue Committee of the Legislature.

The Department of Revenue estimates the following impact on General Fund revenues:

- FY22-23: (\$2,497,000)
- FY23-24: (\$5,993,000)
- FY24-25: (\$7,192,000)

The estimate was provided in the 2021 session and the years have been adjusted to coincide with the 2022 session.

Additionally, DOR expects no costs to implement LB 194.

There is no basis to disagree with these estimates.

LB 194 amends the Nebraska Job Creation Mainstreet Revitalization Act (Act) to repeal the sunset date for the Act and the cutoff date for issuing and using credits. The provision of the Act that allowed the holder of credits to release an allocation if the project has not commenced is also repealed.

The bill redefines historically significant real property to include at-grade or above ground structures used for any purpose and structures that are eligible for but not currently listed in the National Register of Historic Places. The previous prohibition of single family detached residences is repealed. Improvement is redefined to include a project with a total cost of more than \$5,000 regardless of location. Currently, the improvement must cost at least \$25,000 or 25% of the value of the building, depending on location. The definition of eligible expenses is amended to include engineering fees and any costs "generally related to the protection of the historically significant real property from deterioration."

LB 194 also amends the amount of credits available to persons incurring eligible expenses to 25% for properties located in a county that includes a city of the metropolitan class or a city of the primary class. The credit will be equal 30% for a property located in any other county. The maximum credit allowed for any single project is increased to \$ 2 million.

The bill requires DOR and the Nebraska State Historical Society to issue an annual report to the Revenue Committee.

Using the current data from the Act, it is estimated that LB 194 will have the following impact on General Fund revenues.

FY21-22 \$ (2,497,000) FY22-23 \$ (5,993,000) FY23-24 \$ (7,192,000) FY24-25 \$ (8,630,000)
