Explanation of Estimate:

LB 19 establishes new credentials for Temporary Body Art Facilities, Guest Body Artists, and Apprentice Nail Technology Salons and re-defines several related activities to the Cosmetology, Electrology, Esthetics, Nail Technology, and Body Art Practice Act. LB 19 also eliminates the exemption of performing manicures on natural nails from the Act.

The estimate includes the cost to create new credential applications, add credentials to the licensure software, provide notifications of changes, and update the Department’s website. The current national examination is available in four (4) languages: English, Korean, Spanish, and Vietnamese. Translated results are provided to the Department of Health and Human Services. Other requested languages would require translation services. The cost of additional translation services has not been included.

The Department of Health and Human Services (DHHS) will be required to complete minor rules and regulation changes as a result of LB 19. DHHS will absorb the estimated costs listed below to complete this regulation change:

Title	Hour(s)	Hourly Cost	Absorbed Cost
Director	1	74.28	\$ 74
Deputy Director	1	53.48	\$ 53
Administrator I	1	30.82	\$ 31
Program Specialist	2	22.52	\$ 45
Program Analyst	4	21.91	\$ 88
Attorney 3	10	33.82	\$ 338
Total Absorbed Costs			
	19		\$ 629

Revenue and expenditures are based upon the estimated number of new applicants as shown below:

- 100 – Licenses for manicurists and pedicurists that would meet the new definition of nail technician
- 5 – Licenses for apprentice nail technology salons
- 10 – Licenses issued for a temporary body art facility, and
- 20 – Registrations for a guest body artist

It is expected that the bulk of new applications will be submitted during the first year of enactment. This new work will require additional staff time to process applications and issue licensing in the first year.

1. An IT Business Systems Analyst to add Temporary Body Art Facilities, Guest Body Artists and Apprentice Nail Technology Salons to the electronic credentialing system for eighty (80) hours.
2. A Health Licensing Specialist to create, electronically distribute media, and update the Licensure Unit website regarding the new credentialing requirements for eighty (80) hours plus one hundred twenty-eight (128) hours to process new applications.
3. A Health Licensing Coordinator to manage startup project and serve as liaison between the Board of Cosmetology and Licensure Unit for forty (40) hours plus one sixty-four (64) hours to review all new applications with the Board of Cosmetology.

The work listed above will be required to implement LB 19. The estimated cost of this work would be recovered per the Uniform Credentialing Act (UCA) statutes.

Revenue Estimate:

All expenses and revenues would be subject to the UCA's specified methodology for establishing fees. The current cost for an occupational credential averages \$80-95 biennially. This estimate uses current fee amounts that would most likely be in line with the new credentials and registration fees for individuals and facilities.

(100) Nail Technician credentialing fees @ \$95 each	\$9,500
(10) Temporary Body Art Facility credentialing fees @ \$150	\$1,500
(5) Apprentice Nail Technology Salon credentialing fees @ \$300 each	\$1,500
(20) Guest Body Artist credentialing fees @ \$30 each	<u>\$ 600</u>
 Biennial revenue estimate	 \$13,100
