MLTC announced in June 2021 that all Nebraskans who are eligible for Medicaid expansion will receive equal benefits coverage, including dental services, vision services, and over-the-counter medications. This went into effect on October 1, 2021. Nebraska withdrew its application for the Section 1115 Heritage Health Adult (HHA) demonstration program, which would have allowed Nebraskans who have Basic benefits coverage through Medicaid expansion to qualify for Prime benefits by participating in wellness, personal responsibility, and community engagement activities.

Capitation rates are issued to the managed care plans to provide coverage for expansion beneficiaries and are set in a routine manner similar to all other Medicaid beneficiaries.
