AM2258 makes several technical changes to LB102 & amends §76-2506 to add that descriptions of tracts of land will not be described entirely by coordinates of the Nebraska Plane Coordinate System or any other plane coordinate system & that nothing requires a purchaser, mortgagee, or insurer of real property to rely on a land description, any part of which depends exclusively upon the Nebraska Plane Coordinate System.

AM183 amends LB102 to allow for county facilities other than the county courthouse to be used for storage of surveyor records, makes harmonizing changes missed in the introduced bill, & eliminates ambiguous language. AM183 also resolves a possible unconstitutional delegation of legislative authority to Congress, instead charging the Nebraska GIS Council with authority relating to adoption of coordinate systems to be used by land surveyors in conducting their work.

LB102 makes changes to the Nebraska Plane Coordinate System Act & Land Surveyors Registration Act. Fees, duties, procedures, & penalties are changed or added. In addition, terms & definitions are changed or added.

Section 30 adds the ability for an individual to practice or offer to practice the profession of land surveying through an organization if the criteria for organizational practice established by the Board of Examiners for Land Surveyors are met & a certificate of authorization is issued by the Board to the organization. The fee established by the Board for the certificate of authorization is not to exceed \$300 per year with the renewal fee not to exceed \$200 per year.

EXPENDITURES/REVENUE:

The Board of Examiners for Land Surveyors states that the current fee for LLC registration is \$25. For FY2024-25, the Board estimates that they would add 100 companies registering with the fee remaining at \$25. This would add \$2,500 in revenue with operating expenses of \$2,500 offsetting this increase to revenue. For FY2025-26, the Board estimates some growth with an estimated 104 companies registering with the fee remaining at \$25. This would add \$2,600 in revenue with operating expenses of \$2,600 offsetting this increase to revenue.
