LB 566 requires the Natural Resources Committee of the Legislature to conduct a study to examine the economic impact of increasing reliance on an intermittent renewable energy generation to the generation of electricity, including certain analysis. The committee can contract with an outside consultant to assist with the study, and the contract must be approved by the Executive Board. The cost of the study cannot exceed \$30,000. The committee must submit a report of its findings and any recommendations to the Clerk of the Legislature by November 15, 2023.
