*Does not include any impact on political subdivisions. See narrative for political subdivision estimates.

LB 168 requires the Secretary of State to provide a registration application that may be used statewide to register voters and update voter registration records electronically utilizing the Secretary of State's website.

The Secretary of State estimates the bill's provisions will cost \$100,000 for data processing and programming costs to cover the DMV data and import it into the Voter Registration database. There is no basis to disagree with this estimate.

It should be noted that no costs associated with system maintenance are included. Oftentimes, such costs are incurred in future years. Such costs may be faced in years beyond the scope of this fiscal note.

COMMENTS					
SECRETARY OF STATE – Concur with analysis and estimate of increased expenditures fiscal impact. Currently, the maintenance-of-effort funds for voter registration is being provided with cash fund transfers rather than General Fund appropriations.
