LB 572 pertains to the transfer of students to other school districts within a learning community. The bill prohibits the transfer of a student, pursuant to open enrollment provisions, to another school district in a learning community if an elementary learning center is established by the learning community coordinating council in the district of residence.

It is unknown how many students may be impacted by the provisions of the bill. There may be fiscal implications for school districts to the extent the bill requires a student to be educated in a different district than is permitted pursuant to current law. No fiscal impact can be determined.

Return by date specified or 72 hours prior to public hearing, whichever is earlier.

**Explanation of Estimate:**

There would be no fiscal impact to the Department of Education.

A fiscal impact to school districts that are members of a learning community and to the learning community coordinating council is unknown at this time. The proposed bill might limit transfers so it could reduce the cost of transportation but the data is not available to prepare an estimate or even to say that it would reduce the cost of transportation for student transfers.
