Current law assigns certain review and reporting requirements to the State Building Division and the Task Force for Building Renewal to be completed prior to gubernatorial and legislative consideration of approval for acquisition of real property, a structure, or an improvement with the proceeds from a donation, gift, bequest, devise or grant from an individual, organization, corporation foundation, or similar entity, or from a nonfederal governmental agency. LB761 would clarify applicability of the requirements to include acquisition of real property or structures and would establish a threshold of combined amounts in excess of \$250,000 from proceeds of donations, gifts, bequests, devises or grants that would necessitate State Building Division and Task Force for Building Renewal review and reporting as well as gubernatorial and legislative consideration of approval. These changes would have no significant fiscal impact in terms of State Building Division and Task Force for Building Renewal review and reporting requirements.

**Explanation of Estimate:** The proposed legislation relates to the required review by the State Building Division (SBD) and the 309 Task Force of gifts of money or a similar device to provide for acquisitions of real property or to the gift of real property to the state. The bill modifies a statute that was last modified during the legislature's first session. The principle change is to add a threshold value for a gift to be reviewed, resulting in a smaller number of gift reviews to be made by SBD and 309 Task Force.

This will result in an insignificant reduction in the amount of time spent by SBD and 309 Task Force staff in reviewing requests, so no appreciable fiscal impact is foreseen.
