This bill would change provisions relating to actions involving motor vehicle collisions with domestic animals.

Section 25-21,274 currently reads: "The fact of escaped livestock is not, by itself, sufficient to raise an inference of negligence against the defendant".

This bill would change the above provision to the following:

The fact of escaped livestock without evidence of specific acts of negligence by the defendant is not, ~~by itself,~~ sufficient to raise an inference of negligence against the defendant.

It appears that the changes made by this bill will not have a fiscal impact on the state or political subdivisions.
