This bill adds grounds for disciplinary action against physicians if a physician is: 1) found to have charged for markups, commissions or profit on an anatomic pathology service, or 2) directly or indirectly increased the cost for such service by making the referral for such service. The operative date of the bill is December 1, 2008.

This bill could increase investigations the Department of Health and Human Services would have to conduct. As the volume of any increased investigations is not known, the fiscal impact cannot be determined. If additional resources are needed in the future, the costs would be paid from cash funds collected from licensing fees.
