LB 1161 would appropriate \$100,000 from the General Fund in FY07-08 to the Department of Natural Resources. The appropriation would be used to contract for an environmental study to consider the impact of placement of a flood control damn on the Blue River near Crete. LB 1161 requires that the study be completed by December 1, 2008.

It is assumed that this study would be one-time in nature and there would be no additional fiscal impact in future fiscal years.
