Explanation of Estimate:

LB 756 would expand the reporting of properties which are contaminated by methamphetamine so it is no longer confined to "clandestine drug labs.". The bill would add that law enforcement may receive notification of contaminated property to be reported rather than the State Patrol, the local health department and owner of the property if he/she is not one to have reported it. The bill eliminates a report made to the State Patrol.

While there are some additional new duties for law enforcement, the potential costs may be offset by the elimination of language requiring law enforcement to provide a complete listing of chemicals discovered to the State Patrol.
