GENERAL FUNDS				
CASH FUNDS	1,000			
FEDERAL FUNDS				
OTHER FUNDS				
TOTAL FUNDS	1,000			

*Does not include any impact on political subdivisions. See narrative for political subdivision estimates.

This bill relates to hybrid animals. This bill defines hybrid animal. Vaccination for rabies of hybrid animals is required by a vaccine, determined to be reliable in preventing rabies in hybrid animals. It is unlawful to own a hybrid animal if no licensed vaccine, determined scientifically for rabies, is available.

The Department of Health and Human Services Regulation and Licensure will need to update rules and regulations regarding the control and prevention of rabies to incorporate the provisions contained in this bill.

There will be a cost to develop rules and regulations. The one-time costs would be less than \$1,000 cash funds. The agency likely can absorb this cost.
