LB121 prohibits the land disposal of solar panels and wind turbine blades and component parts of solar panels and wind turbine blades.

Currently no landfill in Nebraska accepts wind turbine blades and component parts, no fiscal impact for this provision.

Certain landfills within Nebraska may and do accept solar panels and their component parts, however there is no reporting on the tonnage of solar panels disposed of and therefore the amount is unknowable. As such, a prohibition on solar panels and their component parts would have an indeterminable negative impact on the Integrated Solid Waste Management Cash Fund. Such negative impact is likely to be modest.
