LB 272 would have no fiscal impact on state agencies.

LB 272 would allow a natural resources district encompassing a city of the metropolitan class to issue flood control dam and reservoir bonds. The bonds would be payable from an annual special flood control dam and reservoir levy on all taxable property in the district. The levy could not exceed 3 cents on each \$100 of taxable valuation, unless an election was held on the question of exceeding the limitation. The impact of LB 272 upon a natural resources district encompassing a city of the metropolitan class would depend upon actions taken by the board of directors. A precise fiscal impact can not be determined at this time.
