CASH FUNDS				
FEDERAL FUNDS				
OTHER FUNDS				
TOTAL FUNDS	\$7,500		\$7,500	

*Does not include any impact on political subdivisions. See narrative for political subdivision estimates.

LB 605 would amend the Nebraska Liquor Control Act

For applications for new retail, craft brewery, or microdistillery licenses the bill would require the applicant to provide documentation that they were current on all taxes and contributions required by law; that the Liquor Control Commission shall consider the opposition or support of residents or businesses within 500 yards of the proposed licensed premises when making a determination on licensure; and that when renewing a license the Commission may require documentation on the status of all taxes and contributions required by law.

The bill also provides that a license issued under the Liquor Control Act terminates immediately upon sale of the licensed premises; and that no retail business shall store alcoholic liquor upon the premises without a license issued under the Act.

The Nebraska Liquor Control Commission estimates expenditures of \$7,500 per fiscal year to update and change the license applications.

There is no basis to disagree with the Nebraska Liquor Control Commission's estimate of expenditures.

There is no fiscal impact to the General Fund associated with this bill.

IMPACT TO POLITICAL SUBDIVISIONS:

There is no fiscal impact to political subdivisions associated with this bill.
