This bill will provide for the protection of social security numbers in support orders.

The Department of Health and Human Services (HHS) Finance and Support estimates a one-time cost of \$30,000. The agency notes that CHARTS, the child support computer system, would need to be re-programmed to mask social security numbers, and this is estimated to require 500 hours of programming time.

The Nebraska Supreme Court (NSC) estimates no fiscal impact.
