LB392 changes provisions relating to the creation of a municipal county. Primarily, these proposed changes relate to a case in which creation of a municipal county includes a merger or consolidation with a city of the metropolitan class. Currently, no municipal counties have been formed within the state. Any impacts of LB392 would be dependent upon (1) unpredictable actions of affected political subdivisions (either by joint resolution of the subdivision governing bodies or by registered voter petition) to propose creation of a municipal county and (2) unpredictable voter approval or disapproval of any proposal to create a municipal county.
