This bill would require the Department of Health and Human Services to consider the inclusion of antidepressants, antipsychotic and anticonvulsant prescription drugs on the Preferred Drug List (PDL).

The department and the pharmaceutical and therapeutics committee would need to review the inclusion of the listed drug classes and make a recommendation. If the excluded classes are added to the PDL the savings would not begin until FY 11. The savings for including all the listed drug classes in the PDL are estimated to be \$3,548,000 (\$1,448,000 GF and \$2,100,000 FF) annually.
