LB 688 changes provisions relating to abandoned motor vehicles and motorboats. The bill expands the definition of an abandoned motor vehicle or motorboat to include a vehicle or vessel left unattended for more than six hours on private property without valid plates, title or permit and also includes a vehicle or motorboat that is inoperable, partially dismantled, wrecked, junked or discarded. Currently, a vehicle or vessel is not considered to be abandoned on private property until it is left for more than seven days.

It is assumed the bill will not appreciably increase the number of abandoned motor vehicles or motorboats. An increase in the number of abandoned vehicles or vessels increases expenses for the state agency, county or municipality involved in the removal, storage or sale of such vehicles or vessels. The entities may also have increased revenue from the sale of abandoned vehicles in some instances. No fiscal impact can be determined.
