LB 1023 amends the Nebraska County and City Lottery Act by adding two new definitions to the Act and eliminating the requirement that requires keno players to be issued a paper ticket.

The bill defines “activation” and “ticket.”

Activation with regard to lottery equipment, means initiating the selection of winning numbers.

Ticket means a representation of a player’s wager, which may be paper, electronic, or any other medium approved by the department as a secure way to provide evidence of participation in a lottery as long as it is capable of being printed on paper.

There appears to be no fiscal impact as a result of LB 1023 and the cost to implement is expected to be minimal.
